HISTORY OF THE COLLEGE

Florida Junior College at Jacksonville was authorized by the 1963 Florida Legislature to provide a wide variety of educational services primarily for the people of Duval and Nassau Counties. The College admitted a charter class of 2,610 students in August, 1966. In succeeding years it grew rapidly. In all, the College served 47,863 students during the 1972-73 academic year.

The College is accredited by the Florida Department of Education and the Southern Association of Colleges and Schools.

THE COLLEGE TODAY

NORTH CAMPUS

Classes in this ultra-modern, functional facility began in the Fall Term, 1970.

The suburban North Campus is located on a 160-acre wooded site on Capper Road between Lem Turner Road (S.R. 115) and the Interstate 295 right-of-way. Plans for future expansion to the master plan call for the North Campus to accommodate 5,000 full-time equivalent students.

SOUTH CAMPUS

This contemporary facility, on 339 acres off Beach Boulevard at Huffman Boulevard, opened its doors to the community for the Fall Term, 1971.

The South Campus is capable of accommodating 2,296 students in classrooms and laboratories at any given moment throughout the day. The master plan calls for two more major complexes similar to the present Phase I, with the ability to ultimately serve 5,000 full-time equivalent students.

The South Campus is also the site of the Northeast Florida Criminal Justice Training and Education Center, a facility costing in excess of $200,000. It is designed to provide training for law enforcement agencies in an eight-county section of Northeast Florida.
CUMBERLAND CAMPUS

This 36-acre site, off Roosevelt Boulevard (U.S. 17), was acquired by the College in 1966.

Since the summer of that year, some 98 World War II duplex housing units have been converted into science laboratories, language laboratories, faculty and administrative offices, general purpose classrooms, and a well-equipped library. Master planning calls for the existing buildings to be phased out and modern facilities constructed to accommodate an ultimate full-time equivalent student capacity of 2,500. The master plan also envisions location of the district administrative offices on approximately 5 acres of the Cumberland Campus.

DOWNTOWN CAMPUS

Florida Junior College at Jacksonville presently offers a variety of courses and programs in several temporary downtown locations comprising the Downtown Campus, pending construction of permanent facilities mentioned hereafter under the caption, "The College Tomorrow."

One of these temporary facilities, the Downtown Center, is located at 345 East Church Street. The Center operates during the day and evening and can accommodate up to 1,500 full-time students. Consisting of more than 30 rooms used for instructional purposes, the Center houses laboratories for programs in science, social studies, communications, mathematics, and business education, and offers programs ranging from basic education and high school studies to college credit programs.

The Manpower Development and Training Center at 135 East Duval Street offers a number of programs, the majority consisting of federally-funded, occupational-related programs which are initiated with close cooperation with other manpower training agencies in the City and the State Employment Service.

The Automotive Trades Complex at 35 West State Street offers programs in automotive mechanics, automobile body repair, gasoline engine mechanics, and automotive trim and upholstery.

The Building Trades Complex at 1040 North Laura Street offers programs in carpentry, brick and blocklaying, painting and decorating, and roofing.

The Service Trades Complex at 1021 Hogan Street offers programs in construction electricity; air conditioning, refrigeration, and heating; plumbing and pipefitting; building maintenance; and drafting.

The Downtown Campus Administration Building at 940 North Main Street houses administrative offices for downtown operations, as well as classroom facilities for Downtown Campus students.
EVENING ADULT CENTERS

In addition to the full-time day and evening centers, Florida Junior College at Jacksonville also provides an extensive program of evening classes located in a number of senior high schools, junior high schools, elementary schools, community schools, churches, hospitals, and other institutions in Duval County. At times, more than 100 such adult centers have been utilized.

THE COLLEGE TOMORROW

When the North Campus and South Campus were under construction, it was considered by those concerned that these facilities, together with the other college centers, would meet the most pressing immediate needs of the community.

Increasing demands for the College's services, however, have led to planning for development of an urban campus to become part of an urban renewal project in cooperation with the City of Jacksonville. The 21-acre area for this urban campus is bounded on the East by Laura Street, except one block on Main Street; on the South by State Street; on the West by Pearl Street; and on the North by Caroline Street. The College's Board of Trustees has approved construction of a $15 million campus on this site, with Fall, 1976 as the target date for completion of the first phase. It is anticipated that this facility will also be a comprehensive community college in itself, though emphasizing occupational education to meet the specific needs of industry and business, with the initial input being consolidation of the existing temporary downtown facilities into a modern, functional, and beautifully landscaped complex.

While some of the existing temporary downtown facilities will be phased out and consolidated with the construction of the permanent campus, the College—in keeping with its overall philosophy—will nonetheless continue to serve the community in an ever-increasing number of part-time locations.

This principle is particularly applicable in the admission of students in all programs of the College, and in their academic pursuits. It is also applicable in co-curricular activities and all student services. Through its program of community services, the College offers programs of study, institutes, short courses, seminars, workshops, clinics, and lectures to meet the educational needs of adult groups in the community.

Requests for such courses are encouraged by the College; consideration for such courses is based upon the level of instruction, the number of persons interested, and the availability of qualified personnel for instruction.

A minimum of 20 participants usually is required to initiate a non-college credit course offering.

SPECIAL INSTRUCTIONAL SERVICES

COOPERATIVE EDUCATION (CO-OP)

Work and study schedules can vary to meet the needs of the students and the employers. Common work-study patterns include parallel work and study and alternating work and study. In the parallel plan, the student attends school and works at the same time. In the alternating program, the student works full-time one semester and attends school full-time the next semester.

The Cooperative Education Program is open to all students in the college who have completed one semester of satisfactory college study. For additional information, contact the Director of Cooperative Education on South Campus or the Office of Student Development on any FJC Campus.

AUDITING OF COLLEGE CREDIT COURSES

Any student in the College may elect to audit a college credit course by completing the audit form at the time of registration.

To change from college credit to audit after registration, a student must process the change through the instructor for approval. Any request for change from college credit to audit must be presented to the Registrar no later than the end of the sixth week of class during the fall and winter terms and the end of the second week of class during the spring and summer terms.

Fees for college credit courses taken on an audit basis are the same as those taken on a college credit basis. COURSES TAKEN FOR AUDIT DO NOT COUNT AS HOURS ENROLLED FOR VETERAN PURPOSES, SOCIAL SECURITY, SELECTIVE SERVICE DEFERMENTS, INTERNATIONAL STUDENT ENROLLMENT REQUIREMENTS, OR EARLY ADMISSION PROGRAM — PLAN A STUDENTS.

SERVICEMEN’S OPPORTUNITY COLLEGE (SOC)

Florida Junior College at Jacksonville has been designated a “Servicemen’s Opportunity College” by the American Association of Community and Junior Colleges. This designation is a recognition of efforts made by the College to meet the educational needs of military service personnel.

The College has the desire and the capability of bringing a wide selection of courses—both college and pre-college level—to the Naval bases in and around Jacksonville and is currently doing so. Counseling is available for service personnel who are undecided about school or career goals. Tutoring is also available at locations both on base and on campus.

For more information contact the Education Services Officer on base or the Office of Student Development, Cumberland Campus.

SERVICEMEN’S AND VETERANS’ INFORMATION

The College is approved for training of veterans by the State Department of Education and the Veterans Administration. Veterans who plan to attend under any of the various veteran training laws, such as Chapter 31 (Vocational Rehabilitation), Chapter 34 (Veterans’ Education Assistance), and Chapter 35 (War Orphans’ and Widows’ Educational Assistance) should contact an area Veterans Assistance Office or the Veterans Administration Regional Office, Post Office Box 1437, St. Petersburg, Florida 33731, well in advance of the date of their intended registration. Students expecting to receive benefits under one of these programs must file, with the Office of the Registrar, their Certificate of Eligibility which is issued by the Veterans Administration. All veterans are required to notify the Veterans Administration Office at the above address any time they make a change in enrollment. While the College certifies according to VA rules and regulations, benefits are determined by the Veterans Administration.
COLLEGE CREDIT ENROLLMENT

Educational allowances are paid monthly to the college credit student for training time computed as follows:

- 12 or more semester hours .........................Full-time
- 9 to 11 semester hours ..........................3/4 time
- 6 to 8 semester hours ..............................1/2 time
- 1 to 5 semester hours ..............................less than 1/2 time

NON-COLLEGE CREDIT ENROLLMENT

Florida Junior College at Jacksonville provides a wide variety of non-college credit educational programs and courses for veterans. Most widely attended are the Accelerated General Education Program (High School Completion/G.E.D.) and courses in the Industrial Education area.

Veterans without a high school diploma may enroll in the Accelerated General Education Program to earn course credits or, after improving proficiency, take the G.E.D. Test. Twenty-five contact hours per week is considered full-time enrollment in this area. A veteran can receive benefits when enrolled in this program and may enroll at any time.

Enrollment for courses in the Industrial Education non-college credit area is normally completed at the beginning of each term. Thirty contact hours per week is considered full-time.

Many classes in the Industrial Education area are approved for veterans’ training. Interested persons should make reservations early as these classes are quite popular. Waiting lists are maintained for those courses which are usually over-subscribed.

All veterans receive every consideration for their needs as evidenced by a wide variety of educational opportunities and modest tuition costs.

Contact the Florida Junior College at Jacksonville Office of Veteran Affairs, 940 North Main Street, Jacksonville, 32202, for additional information.

REGISTRATION/ATTENDANCE AT MORE THAN ONE CAMPUS

Students are encouraged to establish a home campus. However, students may enroll for and attend classes at more than one campus. In these instances, students should follow the same procedures for admission and registration and merely select the course they desire at the time of registration. Transportation between campuses is the responsibility of the student.

FINANCIAL AID

The Florida Junior College at Jacksonville Student Financial Aid Office attempts to assist all students and prospective students who are in need of funds to attend college. In order to determine eligibility for the various types of financial assistance, a single application form is used for most types of aid. When this form is completed properly and submitted prior to the deadline date, it is possible to establish the amount of each student's financial need and to ascertain what types of aid he is eligible to receive. Once eligibility and need have been established, a "package" of financial aid is offered to the student. Typically this package includes a loan, a grant, and some form of student employment. For students with exceptional academic records, a scholarship may be included. For students who plan to attend Florida Junior College at Jacksonville, and need financial assistance, it is recommended that they contact the Financial Aid Office on the campus at which they plan to enroll and ask for a Financial Aid Application form. If they are in doubt about which campus they will attend, it is suggested they contact the Cumberland Financial Aid Office. For students enrolling for either the Spring and Summer Terms or the Fall and Winter academic year, the Financial Aid Application form should be completed and submitted prior to March 1st in order to receive priority consideration. In the event this deadline is not met, the student may find it necessary to make other arrangements for the payment of education expenses.

Loan applications are filed with financial aid offices and processed through commercial banks. Repayment is in monthly installments commencing nine months after graduation with interest at seven percent (7%).

**FLORIDA INSURED STUDENT LOAN**

These loans are available to Florida residents. They are similar in most respects to the Federally Insured Student Loans except that the State of Florida acts as lender instead of a bank or other lending institution. Loans are limited to $2,000/year.

**SHORT TERM LOAN**

Florida Junior College at Jacksonville operates a Short Term Loan Fund designed to provide assistance to students who need small amounts of money for a brief period for registration costs or for emergency purposes.
