The Associate in Arts Degree

Admission

Applicants seeking admission to the associate in arts (A.A.) program must have earned a high school diploma or GED. If applicants graduated on or after Aug. 1, 1987, they must have earned four credits in English and three credits each in mathematics, social studies and science.

University Parallel

The College offers a two-year program leading to the associate in arts (A.A.) degree. Usually referred to as the university parallel or transfer program, it is designed for students who plan to complete their first two years of college work at Florida Community College at Jacksonville and then transfer as juniors to four-year institutions of their choice.

The specific programs of study of a given major should be worked out individually between students and the counselor soon after they enroll at FCCJ. Earned credits in a university parallel study are transferable to four-year institutions and applicable toward a bachelor’s degree. The associate in arts degree programs of study for business administration and elementary education are listed on pages 39 and 40.

In planning a program at FCCJ, students should be certain to meet the General Education Requirements for the associate in arts degree and complete a program of at least 60 semester hours comprising courses counting toward the associate in arts degree as designated by a (Y) symbol in the course descriptions. Courses in this catalog without the (Y) symbol will not count toward the associate in arts degree. Also, the associate in arts degree cannot include more than four one-semester hour courses from music, speech and drama activity courses as described under conditions (1) and (2) on page 32.

Within these 60 semester hours, students should be certain to fulfill the pre-major course requirements for the major they intend to take at the university they plan to attend.

Students transferring to a private four-year institution from Florida Community College at Jacksonville are advised to write the registrar of that university for information concerning special course requirements that should be met while attending Florida Community College at Jacksonville. These requirements vary from university to university; thus, specific programs of study for a given major at a given university should be worked out individually by students and an adviser or counselor soon after they enroll at the College. To maximize transferability, students are advised to choose a major as early as possible while at FCCJ.

Students transferring with the associate in arts degree are guaranteed the transferability of credits earned toward that degree and junior-level standing by the state articulation agreement. Students transferring prior to receipt of the A.A. degree are not assured of junior-level standing, and the transferability of credits earned will be determined by the receiving institution. Also, students transferring prior to receipt of the A.A. degree may not receive acceptance of credits earned in courses with less than a “C” grade.

The counselors in the office of student affairs on each campus have counseling manuals provided by each state university in Florida and most private colleges and universities in Florida, which list courses to be taken at the community college for each undergraduate major the university offers. Using these manuals, as well as catalogs from the universities, the counselor or adviser will work out a program of study at FCCJ for students. Colleges and universities may have different admission and program requirements. Selecting a major and transfer institution early is important. Some institutions have limited access programs that require students to meet specific admission requirements before being considered for admission into selected programs. Students have the responsibility for making contact with a counselor or adviser in the office of student affairs to work out their program of study at FCCJ.

Graduation Requirements

In order to be awarded the associate in arts degree, students must have met the following requirements:

1. earned a cumulative grade point average of 2.0 (C) at FCCJ in courses that comprise the associate in arts degree program,
2. earned an all-college cumulative grade point average of 2.0 (C) in courses, including transferred credits, which comprise the associate in arts degree program,
3. earned a grade of at least a "C" in each course used to satisfy the General Education Requirements areas I communication, II mathematics, III humanities and V social environment, category A.
4. completed at least 25 percent of credit semester hours required for the degree at FCCJ,
5. completed 60 semester hours of college credit work as follows,
   a. general education requirements (36 semester hours) set forth on pages 28 through 31 of this catalog (the instructional dean may, when appropriate, approve a course not listed under the General Education Requirements of the associate in arts degree to count towards that requirement) and
   b. major prerequisites (24 semester hours) set forth on page 31 of this catalog
6. completed requirements of the Gordon Rule (State Board of Education 6A-10.30) as outlined in the Gordon Rule section in this catalog, and
7. completed requirements of the College-Level Academic Skills Test (CLAST), a college-level communication and computation skills test required by the state (refer to Testing Services section for details), including satisfactory scores as specified by the State Board of Education and the FCCJ District Board of Trustees.
Note: Students are cautioned to pay particular attention to the following statements.

1. Graduation dates will be the date at the end of the college term in which students complete the academic requirements for the degree or certificate for which they are an applicant. (The removal of an incomplete grade does not affect students’ graduation date, since the grade change is effective as of the end of the term in which the incomplete grade was assigned rather than the term in which the incomplete work was made up.)

2. If students expect to complete the coursework under the terms of the catalog in effect during the term of their first registration, they must graduate within five years or they will automatically be reassigned to the catalog in effect during their fifth year. Accordingly, students who enter under this catalog (1998/99) must graduate by the end of the Summer Term 2003, or they will automatically be reassigned to the 2002/2003 catalog requirements. Changes to requirements as mandated by law or by rule of the FCCJ District Board of Trustees may supersede this provision.

3. Refer to the conditions on page 32 of this catalog concerning acceptable credits to meet degree requirements.

4. Some of the courses listed in the options for the General Education Requirements are intended for students majoring or specializing in the discipline. Students are advised to review the course descriptions.

5. Many courses in this catalog have prerequisite requirements and/or prerequisite courses listed in the course descriptions. Students are advised to be guided by these requirements.

6. Degree-seeking students whose native language is not English and who fall below a designated cutoff score on the English as a second language (ESL) entry placement test, will be required to take ESL courses prior to registering for other college credit classes. Students from cultures whose language of instruction may have been in English, but the native language is other than English, also come under the ESL test and course guidelines. The level of these courses will be determined by the entry placement scores. Individual exceptions will be determined by the ESL program manager. Degree-seeking students identified as non-native speakers must take an ESL placement test prior to taking the College’s standard course placement test. Students who place into ESL, as determined by the test, must complete ESL/ENS courses before registering for other college credit classes. Non-degree-seeking college credit students who plan to take English, reading or courses where these are critical requisite skills must also meet these requirements. Exceptions to these requirements can be made by the ESL program manager or designee.

**Student Warning**

When students repeat a course at FCCJ, only the last grade earned is calculated in their cumulative grade point average (GPA). However, students with an excessive number of “W” or “NP” grades and students who repeat courses to improve their GPA jeopardize their admission to some programs in the Florida State University System (SUS) institutions or other institutions.

### General Education Requirements

#### Purpose and Goals of General Education

General education is a curriculum designed to present students with concepts needed to understand self, culture and their relationship to the rest of the world. The general education curriculum provides students with the opportunity to develop skills necessary for understanding and communicating such concepts and prepares students to participate responsibly in the activities of a complex world.

A generally educated person:

1. can read, write, speak and listen effectively.
2. can acquire, use and evaluate information.
3. can comprehend displays of quantitative information.
4. can solve both computational and non-computational problems.
5. can use computers in communication and problem solving.
6. can organize concepts into orderly systems.
7. comprehends the stages of human development and recognizes the contributions made by humans of each stage.
8. rationally chooses and pursues personal goals.
9. continuously develops an integrated system of social and ethical values that considers the welfare of others.
10. knows what constitutes and contributes to mental, physical and social well-being.
11. engages in life-long learning.
12. recognizes one’s own creative potentials.
13. is aware of the dynamics within the family and the role the family plays in society.
14. is aware of the workings and interrelations of personal, business and governmental economies.
15. is aware of political, social and religious systems and their effect upon societies.
16. is aware of the historical development of the arts and sciences of Western and non-Western societies.
17. is aware of technology as it impacts society.
18. understands and is sensitive to the interdependency of elements of the physical and biological environments.
19. is aware of the relationship of science and technology and how they affect the natural environment.

#### Distribution Requirements

The general education core for the associate in arts degree consists of 36 semester hours of coursework. The courses were chosen by the faculty to assist the students in accomplishing the purpose and goals of general education and to develop skills, attitudes and understanding in these broad discipline areas.

- **Communication**
- **Mathematics**
- **Humanities**
- **Natural Environment**
- **Social Environment**

I. Communication . . . . . (minimum of 9 semester hours)

The communication courses are intended to enable students to achieve the basic competencies, as defined by the state of Florida, necessary for speaking, listening,
reading and writing in an organized and critical manner at the college level.

The ability to communicate at the level of a college educated person is a basic requirement for degree-seeking students. These courses are designed to help students improve skills measured by the Florida College Level Academic Skills Test (CLAST). Standardized entry assessment tests are used to determine course placement.

A. Six semester hours from the following:

- ENC 1101 English Composition I
- ENC 1102 English Composition II

B. Three semester hours from any of the following:

- ORI 2000 Oral Interpretation
- SPC 2015 Introduction to Oral Communication
- SPC 2062 Speech Communication for Business and the Professions
- SPC 2600 Fundamentals of Speech Communication

II. Mathematics (minimum of 6 credit hours)

The mathematics courses offered are designed to meet the needs of students who are planning to extend their knowledge in mathematics and science as well as those who are planning to seek advanced education in the humanities, social environment or business.

The ability to compute at the level of a college educated person is a basic requirement for degree-seeking students. These courses are intended to enable students to achieve the skills measured by the Florida College Level Academic Skills Test (CLAST). Standardized entry assessment tests are used to determine course placement when students enroll at FCCJ.

Any two of the following:

- MAC 1102 College Algebra
- MAC 1140 Precalculus Algebra
- MAC 1114 College Trigonometry
- MAC 2233 Calculus for Business and Social Sciences
- MAC 2311 Calculus With Analytic Geometry I
- MAC 2312 Calculus With Analytic Geometry II
- MAC 2313 Calculus With Analytic Geometry III
- MAP 2302 Differential Equations
- MAS 2103 Elementary Linear Algebra
- MGF 1202 Finite Mathematics
- STA 2023 Elementary Statistics

III. Humanities (minimum of 6 semester hours)

(All six semester hours may be taken from category A or three semester hours from category A and three semester hours from category B.)

The humanities courses form a core of interrelated studies designed to help individuals make informed aesthetic and ethical judgments about creative contributions of diverse world cultures and to assure reading and writing competencies essential for an educated person in an increasingly specialized society. The courses are intended to provide individuals a contact with a breadth of ideas beyond the narrow confines of specialized training.

A. Six semester hours from the following courses will satisfy humanities requirements. The courses are broad in nature, enabling individuals to explore connections and relationships among various humanities disciplines and to provide a general overview for other humanities courses listed in category B.

- ENC 1101 English Composition I
- ENC 1102 English Composition II

B. Three semester hours from the foregoing category A and three semester hours from any of the following courses in this category that provide individuals contact with more specific topics of study in the humanities. However, like courses in category A, these are broad rather than narrow in scope.

- AML 2012 American Literature: Colonial Times to 1900
- AML 2022 American Literature: 1900 to Present
- ARH 1000 Art Appreciation
- ARH 2050 Art History I
- ARH 2051 Art History II
- ENL 2012 English Literature to 1750
- ENL 2022 English Literature Since 1750
- FIL 1000 The Movies as Art
- HUM 2472 Intercultural Explorations
- *LIT 2000 Introduction to Literature
- *LIT 2100 Great Ideas in World Literature
- MUH 2110 Survey of Music History
- MUL 1010 Music Appreciation
- PHI 2010 Introduction to Philosophy
- REL 2000 Introduction to Religion
- REL 2300 World Religions
- THE 2000 Theatre Appreciation

*This is a Gordon Rule course and has a writing requirement of 6,000 words.

IV. Natural Environment (minimum of 6 to 7 semester hours)

The natural environment courses are intended to provide a basic knowledge of biological and physical sciences by offering students the opportunity to become acquainted with the basic concepts, language and problem-solving skills necessary to scientific inquiry. The courses provide a fundamental basis for the developing relationship between the natural environment and the other academic disciplines necessary for universal understanding and survival.
A. Choose one of the following pairs of courses:

<table>
<thead>
<tr>
<th>Course 1</th>
<th>Course 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSC 2085C</td>
<td>Human Anatomy and Physiology I and</td>
</tr>
<tr>
<td>BSC 2086C</td>
<td>Human Anatomy and Physiology II</td>
</tr>

<tr>
<td>PHY 2054C</td>
<td>General Physics II</td>
</tr>
<tr>
<td>PSC 1341</td>
<td>Physical Science</td>
</tr>
</tbody>
</table>

* May fulfill requirement in either area but not both.

### V. Social Environment . . . . . . (minimum of 6 semester hours)

The social environment courses lead to an understanding and appreciation of our cultural heritage, whether ancient or modern, eastern or western, humanistic or technological. These courses of study seek to appreciate the values of civilization in its many parts. The courses in social environment enable students to develop their creative and analytical powers and encourage flexible thinking necessary to live in a world of continuing change.

A. Three semester hours from any of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>AMH 2010</td>
<td>United States History to 1865</td>
</tr>
<tr>
<td>AMH 202</td>
<td>United States History from 1865 to the Present</td>
</tr>
<tr>

VI. Additional Hours ................. (1 to 3 semester hours)
Students may be required to take one to three additional semester hours of personal development or cultural diversity courses in these categories to bring their General Education Requirements up to 36 hours. College Preparatory Reading students who are not exempt from the reading portion of CLAST must take REA 1105.

A. Communications

AML 2600 Introduction to African-American Literature (3 credits)
CRW 2000 Introduction to Imaginative Writing (3 credits)
ENC 2103 CLAST Review: Reading, Essay and English Language Skills (1 credit)
ENC 2105 CLAST Review: English Language Skills and Essay (1 credit)
ENC 2301 Advanced Writing (3 credits)
LIT 2000 Introduction to Literature (3 credits)
LIT 2370 The Bible as Literature (3 credits)
LIT 2380 Introduction to Women in Literature (3 credits)
LIT 2930 Special Topics in Literature: An Introduction to Multicultural Literature (2 credits)
MMC 1000 Introduction to Mass Communications (3 credits)
REA 1105 College Reading/Critical Analysis (2 credits) (Required of some students. See above.)
REA 2125 CLAST Review: Reading Skills (1 credit)
REA 2205 Reading for Speed and Comprehension (3 credits)

B. Mathematics

CGS 1003 Introduction to Using Microcomputers (2 credits)
CGS 1060 Introductory Computer Concepts (3 credits)
CGS 1100 Microcomputer Applications for Business and Economics (4 credits)
CGS 1570 Microcomputer Application Software (3 credits)
CGS 2555 Introduction to the Internet (4 credits)
MGF 2204 Topics in Finite Mathematics (1 credit)

C. Natural Science

HLP 1081 Health Analysis and Improvements (2 credits)

D. Humanities

ART 1001C Studio Art for Beginners and Non-Majors (3 credits)
ART 1201C Design I (3 credits)
ART 1300C Drawing I (3 credits)

ARH 2004 Introduction to Non-Western Art (3 credits)
FRE 2200 Intermediate French I (3 credits)
GER 2200 Intermediate German I (3 credits)
HUM 2410 Humanities of Asia (3 credits)
HUM 2472 Intercultural Explorations (3 credits)
PHI 2600 Moral and Political Philosophy (3 credits)
REL 2300 World Religions (3 credits)
RUS 2200 Intermediate Russian I (3 credits)
SPN 2200 Intermediate Spanish I (3 credits)
TPP 2110 Acting I (3 credits)

E. Social Science

AMH 2092 African-American History and Culture (From African Origins through Reconstruction) (3 credits)
AMH 2093 African-American History and Culture (From World War I to the Present) (3 credits)
ANT 2410 Cultural Anthropology (3 credits)
FAD 1230 Family Dynamics (3 credits)
GEO 2420 Cultural Geography (3 credits)
HUN 1201 Human Nutrition (3 credits)
LAH 2000 History of the Americas (3 credits)
SLS 1201 Personal Development (3 credits)
SOP 1502 Dynamics of Behavior (3 credits)
WST 2010 Introduction to Women’s Studies (3 credits)

Total hours required from Areas I-VI ......................... 36 semester hours

Major Prerequisites

The additional semester hours (maximum of 24) required (beyond the General Education Requirements for the associate in arts degree) may be selected from courses listed in the College catalog with a (Y) designator. These courses should be part of a program designed for a major to transfer to an upper-level college/university. Students are advised to see a counselor for guidance in the selection of these courses.

In addition to addressing the field of study of an intended major at the upper-level university, students are encouraged to include in these courses from the general areas noted below.

Foreign Language

Students who plan to transfer to a Florida public university should complete a minimum of eight semester hours in a foreign language at FCCJ or have completed two high school credits. Courses are offered in Chinese (CHI 1120 and CHI 1121), French (FRE 1120 and FRE 1121), Spanish (SPN 1120 and SPN 1121), German (GER 1120 and GER 1121) and Russian (RUS 1120 and RUS 1121) that fulfill this eight semester hours requirement.

Total for major prerequisites . . . . . . . . . . . . . . . . . . . . . . . . . . . . 24 semester hours
Total for the associate in arts degree ............. 60 semester hours

Conditions:
1. Not more than four of the 24 semester hours in the following music, speech and drama activity courses may be applied toward the associate in arts degree: MUO 1001, MUN 1130, MUN 1280, MUN 1340, MUN 1380, MUN 1410, MUN 1450, MUN 1710, MUN 1711, MUNA 1310, MUNB 1310, SPC 2594, THE 2945.
2. Not more than nine semester hours of credit earned in English as a Second Language courses may be applied toward the associate in arts degree. These nine hours can come from level II or level III.

Gordon Rule

Writing and Mathematics Requirements (State Board of Education Rule 6A-10.30 - Gordon Rule)

The state of Florida requires that all students pursuing an associate in arts degree complete coursework that includes a specified amount of writing (24,000 words) and mathematics.

Writing: Florida Community College at Jacksonville has distributed the writing requirement throughout its general education core as follows: 12,000 words shall be completed in the two English composition courses from section A of communications, ENC 1101 English Composition I and ENC 1102 English Composition II; 3,000 words in one oral communications course from section B of communications; 7,000 words in two humanities courses (either two courses from section A or one course from section A and one course from section B); and 2,000 words in social sciences (any one course from section A). In all writing courses, a grade of “C” or better is required to meet the A.A. degree requirements.

Mathematics: Students must complete six semester hours of mathematics coursework at the level of college algebra or higher. For the purposes of this rule, a grade of “C” or higher shall be considered successful completion.

College Level Academic Skills Test

College-Level Academic Skills Test (CLAST) is a state-wide test of college-level communications and mathematics skills developed by the State of Florida.

The CLAST is designed to test the communications and mathematics skills that are judged by state university and community college faculty to be generally representative of the sophomore level of achievement. The test is required, for those students who are not eligible for CLAST exemptions, by Florida statutes and rules of the State Board of Education.

The CLAST is administered three times per year to community college students who:
1. plan to complete the associate in arts degree or
2. plan to complete the associate in science degree and transfer to Florida public universities.

The CLAST requirement also applies to students transferring to community colleges from private colleges in Florida and from out-of-state colleges.

The following guidelines apply to those students who are required to take CLAST:
1. Students who do not achieve satisfactory scores on the CLAST will not be awarded the associate in arts degree.
2. Students who have passed three of the four CLAST sub-tests may (at university discretion) enroll in a state university for up to 36 semester credits in upper division before being required to pass the fourth subtest.
3. Students seeking to participate in intercollegiate athletics at senior institutions may be required to have graduated to be eligible to participate. Questions regarding athletic eligibility may be directed to the director of athletics and physical education.

Students failing any portion of CLAST will be prohibited from subsequent CLAST registration without documented proof of remediation. All remediation procedures must begin with the appropriate campus CLAST resource specialist. To obtain additional information about the CLAST resource specialists and retesting requirements and procedures, contact the CLAST coordinator’s office or the assessment services office.

Current passing scores on the CLAST are as follows: essay - 6, English language - 295, reading - 295 and mathematics - 295.

Effective with the October 1995 CLAST, students are eligible to register for the CLAST provided the following criteria have been met:
1. at least 18 semester hours of college level coursework have been completed satisfactorily, and
2. the CLAST-related General Education Requirements have been completed successfully with a grade of “C” or better (For the communications portion: ENC 1101, ENC 1102, and if required, REA 1105; for mathematics: 6 hours of mathematics as stated in the college catalog under “General Education Requirements for A.A. Degree.”) Exceptions to this policy must be approved by an instructional dean.

Students have the option of taking the complete CLAST or splitting the test into two separate sessions: one for the communications portion (essay, English language and reading) and one for the mathematics portion. Coursework requirements for split testing (communications and mathematics) must adhere to the criteria outlined in 1 and 2 above.

Students who have completed the General Education Requirements in communications and/or mathematics but want additional preparation for the CLAST should take ENC 2105 CLAST Review: English Language Skills and Essay, ENC 2103 CLAST Review: Reading, Essay and English Language Skills, REA 2125 CLAST Review: Reading, and/or MGF 2204 Topics in Finite Mathematics.

Provisions have been made for the College to consider waiver requests from students who have attempted and failed any portion of the CLAST at least four times.

Students with a disability may request assistance to complete the CLAST. Assistance is obtained through the disabled student specialist on any campus. For any portion of the CLAST in which the disability interferes with the performance on the test even with assistance, students may contact any disabled student specialist for waiver
request forms and procedures. All requests must be accom-
panied with appropriate documentation.

Additional information on CLAST is available in the
CLAST coordinator’s office, the campus registration office
and the assessment services office.

**Eligibility for CLAST Alternative Exemption**

In accordance with Florida statutes dealing with the
College-Level Communications and Computation skills Test
(CLAST), students who meet certain conditions, as
explained below, may be exempt from having to pass
CLAST in order to fulfill their associate in arts (A.A.)
degree requirements.

Students who meet any of the following alternatives
may be exempt from the communications portions of
CLAST (essay, English language skills and reading) to
fulfill A.A. degree requirements:

1. a score of 500 or above on the verbal section of the
   Scholastic Aptitude Test (SAT-I)
2. a score of 21 or above in English on the Enhanced
   American College Testing Program (ACT) and a score of
   22 or above in reading on the Enhanced American College
   Testing Program (ACT)
3. a 3.0 grade point average for two English composi-
   tion courses, ENC 1101 and ENC 1102

Students who meet any of the following alternatives
may be exempt from the mathematics portion of CLAST to
fulfill A.A. degree requirements:

1. a score of 500 or above on the quantitative section
   of the Scholastic Aptitude Test (SAT-I)
2. a score of 21 or above in mathematics on the
   Enhanced American College Testing Program (ACT)
3. a 3.0 grade point average for any two mathematics
   courses from the General Education Requirements for
   mathematics (NOTE: MAT 0025 and MAT 1033 cannot be
   used to determine this average.)

Students who meet any of the alternatives listed above
for both the communications and mathematics portions of
the CLAST may be exempt from having to take any portion
of CLAST to fulfill A.A. degree requirements.

Students will need to supply any documentation not
already on file with FCCJ to verify these conditions.

These alternative exemptions for CLAST apply to both
first-time takers as well as re-takers of CLAST.

Students who feel they meet any of the alternatives
specified above must apply for CLAST exemption by con-
tacting one of the campus counseling/advising centers for
student affairs.

The skills on the next page are measured by CLAST.
COMMUNICATION SKILLS
CLAST skills are required in these broad categories:

READING:
- Recognizes main ideas in a given passage
- Identifies supporting details
- Determines meanings of words on the basis of context
- Recognizes stated relationships between words, sentences and ideas
- Recognizes the author's purpose
- Distinguishes between statements of fact and statements of opinion
- Detects bias and prejudice
- Recognizes author's tone
- Perceives implicit as well as explicit relationships between words, sentences and ideas
- Recognizes valid arguments and draws logical inferences and conclusions

LISTENING:
- Recognizes main ideas
- Identifies supporting details
- Recognizes explicit relationships among ideas
- Recalls basic ideas and facts
- Perceives the speaker's purpose and organization of ideas and information
- Discriminates between statements of fact and statements of opinion
- Distinguishes between emotional and logical arguments
- Detects bias and prejudice
- Recognizes the speaker's attitude
- Synthesizes and evaluates by drawing logical inference and conclusions
- Recalls the implications and arguments

WRITING:
- Selects a subject which lends itself to expository writing
- Determines the purpose for writing
- Limits the subject to a topic which can be developed adequately within the requirements of time, purpose and audience
- Formulates a thesis statement which reflects the purpose
- Develops the thesis statement
- Demonstrates effective word choice
- Employs conventional sentence structure
- Employs effective sentence structure
- Observes the conventions of standard American English grammar and usage
- Uses standard practice for spelling, punctuation and capitalization
- Revises, edits and proofreads units of written discourse to assure clarity, consistency and conformity to the conventions of standard American English

SPEAKING:
- Determines the purpose of the oral discourse
- Chooses a topic and restricts it according to purpose
- Fulfills the purpose of the discourse
- Employs vocal variety in rate, pitch and intensity
- Articulates clearly
- Employs the level of American English appropriate to the designated audience
- Demonstrates nonverbal behavior which supports the verbal message
COMPUTATIONAL SKILLS

CLAST mathematics examination items and score reports are provided in these broad categories:

MATHEMATICS SKILLS

Arithmetic Skills:
- Adds and subtracts rational numbers
- Multiplies and divides rational numbers
- Adds and subtracts rational numbers in decimal
- Multiplies and divides rational numbers in decimal form
- Calculates percent increase and percent decrease
- Solves the sentence a% of b is c, where values for two of the variables are given
- Recognizes the meaning of exponents
- Recognizes the role of the base number in determining place value in the base-ten numeration system
- Identifies equivalent forms of positive rational numbers involving decimals, percents and fractions
- Determines the order relation between real numbers
- Identifies a reasonable estimate of a sum, average or product of numbers
- Infers relations between numbers in general by examining particular number pairs
- Solves real-world problems which do not require the use of variables and which do not involve percent
- Solves real-world problems which do not require the use of variables and which do require the use of percent
- Solves problems that involve the structure and logic of arithmetic

Geometry and Measurement Skills:
- Rounds measurements to the nearest given unit of the measuring device used
- Calculates distances
- Calculates areas
- Calculates volumes
- Identifies relationships between angle measures
- Classifies simple plane figures by recognizing their properties
- Recognizes similar triangles and their properties
- Identifies appropriate units of measurement for geometric objects
- Infers formulas for measuring geometric figures
- Selects applicable formulas for computing measures of geometric figures
- Solves real-world problems involving perimeters, areas, volumes of geometric figures
- Solves real-world problems involving the Pythagorean property

Logical Reasoning:
- Deduces facts of set inclusion or set non-inclusion from a diagram
- Identifies statements equivalent to the negations of simple and compound statements
- Determines equivalence or nonequivalence of statements
- Draws logical conclusions from data
- Recognizes that an argument may not be valid even though its conclusion is true
- Recognizes valid reasoning patterns as illustrated by valid arguments in everyday language
- Selects applicable rules for transforming statements without affecting their meaning
- Draws logical conclusions when facts warrant them
MATHEMATICS SKILLS (continued)

Algebra Skills:
- Adds and subtracts real numbers
- Multiplies and divides real numbers
- Applies the order-of-operations agreement to computations involving numbers and variables
- Uses scientific notation in calculations involving very large or very small measurements
- Solves linear equations
- Solves linear inequalities
- Uses given formulas to compute results when geometric measurements are not involved
- Finds particular values of a function
- Factors a quadratic expression
- Finds the roots of a quadratic equation
- Solves a system of two linear equations in two unknowns
- Uses properties of operations correctly
- Determines whether a particular number is among the solutions of a given equation or inequality
- Recognizes statements and conditions of proportionality and variation
- Identifies regions of the coordinate plans which correspond to specified conditions and vice versa
- Uses applicable properties to select equivalent equations and inequalities
- Solves real-world problems involving the use of variables aside from commonly used geometric formulas
- Solves problems that involve the structure and logic of algebra

Statistics Skills, Including Probability:
- Identifies information contained in bar, line and circle graphs
- Determines the mean, median and mode of a set of numbers
- Uses the fundamental counting principle
- Recognizes properties and interrelationships among the mean, median and mode in a variety of distributions
- Chooses the most appropriate procedure for selecting an unbiased sample from a target population
- Identifies the probability of a specified outcome in an experiment
- Infers relations and makes accurate predictions from studying statistical data
- Interprets real-world problems involving frequency and cumulative frequency tables
- Solves real-world problems involving probabilities
The State of Florida Statute 6A-10.024
STATE ARTICULATION AGREEMENT

Florida’s state articulation agreement provides specific guarantees for associate in arts graduates. In essence it provides a 2 + 2 agreement between the 28 Florida community colleges and the nine state universities. The 2 + 2 articulation agreement states that associate in arts (A.A.) degree graduates of a state-approved Florida community college must be admitted as a junior to any state university as long as the university has space, money and the curriculum to meet the students’ needs. This is a student’s “right.” However, the articulation agreement does not guarantee entrance into a specific major, should that major be “limited access.” Most universities are divided into different colleges (e.g. College of Education, College of Business, College of Engineering), each of which establishes its own admission requirements. So whether students spend their first two years at a community college or the university, they still must meet specific admission requirements for that major, usually beginning with the junior year.

The state of Florida has given students certain rights and responsibilities. The following is a brief outline of the articulation agreement.

1. General Education Core

Each state university and community college must require at least 36 semester hours in the liberal arts and sciences, these hours are collectively termed the “general education core curriculum.” Once students have been certified by the community college on an official transcript as having satisfactorily completed the prescribed core curriculum, with or without the completed associate in arts (A.A.) degree, no other state institution to which they may transfer can require further general education core curriculum. If they do not complete the general education core curriculum before transferring, the General Education Requirements must be satisfied according to the requirements of the new institution.

2. Associate in Arts Degree

The associate in arts (A.A.) degree is awarded according to the following conditions:

a. completion of at least 60 semester hours - these hours include the 36 semester hours of general education core curriculum, prerequisites and electives that have prior approval by the state university system, and

b. a minimum 2.0 GPA in all attempted courses that comprise the A.A. degree and all such courses taken at the community college awarding the degree - only the final grade received is used to compute this average. A grade of “D” will transfer and count toward the baccalaureate degree provided the institution to which students transfer does the same for native students. Individual departments determine whether courses with “D” grades will be accepted toward any major.

3. Accelerated Programs

One of the goals of articulation is to allow students to advance easily, equitably and rapidly through the educational system. There are seven acceleration methods, beginning at the high school level and proceeding upward through the system: Dual Enrollment, Advanced Placement, International Baccalaureate Program, Early Admission, College-Level Examination Program (CLEP), Defense Activity for Non-Traditional Education Support (DANTES) and the Proficiency Examination Program (PEP).

4. College Level Examination Program (CLEP)

Credits awarded on the basis of scores achieved on examinations in the College Level Examination Program (CLEP) are transferable. Credits earned by general examinations and subject examinations must be accepted by the upper division institution. However, no more than six semester credits can be transferred from each of five areas: English, humanities, mathematics, natural sciences and social sciences/history. A total of 45 CLEP credits is the maximum that may be accepted in transfer.

5. Advanced Placement (AP) Credits

Credits awarded on the basis of the College Board Advanced Placement (AP) are transferable. The credits are awarded based on College Board AP scores of three, four or five on any of the examinations in the program. College Board AP credit that duplicates CLEP credit shall not be awarded or accepted in transfer.

6. The Defense Activity for Non-Traditional Education Support (DANTES)

Credits awarded on the basis of the Defense Activity for Non-Traditional Education Support (DANTES) program are transferable.

7. Proficiency Examination Program (PEP) Credits

Credits awarded on the basis of the Proficiency Examination Program (PEP) are transferable.

8. Electives for Major

The state university that awards the baccalaureate degree will determine which elective courses taken at the community college can apply toward a specific major.

9. Limited Access

Limited access enrollment criteria must be established and published by the university in catalogs, counseling manuals and other appropriate publications. Community college transfer students shall have the same opportunity to enroll in university limited access programs as native university students. (Limited access programs must be approved by the Board of Regents and registered with the articulation coordinating committee. It is required that the university denying students admission to a limited access program inform students of other educational options.)

10. Catalog Year

The catalog year (e.g., 1998 - 1999) in which a student initially entered the College is also the catalog that is in effect when students enter the university, provided they maintain continuous enrollment as defined in the university catalog. Because course requirements change from year to year, a university catalog should be obtained for the academic year that a student first entered the community college in order to determine the upper division prerequisites for the individual majors.

11. Common Course Numbering System

Credits earned in the state community college system are identical to those at the state university as long as the common course designation has the same prefix and last three digits. Transferred credits are used on the same basis as those of native university students.

12. Articulated Programs

The articulation coordinating committee, appointed by the Commissioner of Education, oversees the articulation agreement. This committee makes sure that students rights are safeguarded. The members of the committee
can review individual cases of student transfer and admissions difficulties, and then recommend resolutions. Committee members also recommend policies and procedures to improve articulation systemwide.

For more information concerning student rights and the articulation agreement, contact a counselor or the university articulation officer.

STUDENT BILL OF RIGHTS

Florida Community College at Jacksonville associate in arts graduates are guaranteed the following rights under the Statewide Articulation Agreement (State Board of Education Rule 6A-10.024):

1. admission to one of the nine state universities, except to limited access programs which have additional admission requirements,
2. acceptance of at least 60 credit hours by the state universities toward the baccalaureate degree,
3. adherence to university requirements and policies based on the catalog in effect at the time the student first entered a community college, provided the student maintains continuous enrollment,
4. transfer of equivalent courses under the Statewide Course Numbering System,
5. acceptance by the state universities of credit earned in accelerated programs (e.g., CLEP, AP, PEP, Dual Enrollment, Early Admission and International Baccalaureate),
6. no additional General Education Requirements,
7. advance knowledge of selection criteria for limited access programs, and
8. equal opportunity with native university students to enter limited access programs.

Should any guarantee be denied, students have the right of appeal. Each state university and community college shall make available established appeal procedures through the respective articulation officers.

Independent Colleges and Universities of Florida (ICUF)

Statewide Agreement

In November 1992, the signing of an articulation agreement took place between the State Board of Community Colleges and the Independent Colleges and Universities of Florida. Florida has long been a leader in the articulation of students between Florida’s Community College System and the public State University System and, once again, Florida has taken the lead by the signing of a statewide agreement between the Community College System and the private colleges and universities.

The intent of the agreement was to establish “an effective and orderly transfer process for students entering a state community college, completing an associate in arts degree and transferring to an independent college or university.” Under the agreement, community college students holding an associate in arts degree are guaranteed junior standing, recognition of the general education core and the application of a minimum of 60 credits hours toward the baccalaureate degree. Currently 14 private colleges and universities have signed the articulation agreement. For each college and university, a counseling manual is available in the student affairs office on each campus. The manual contains admission and course prerequisite information to properly advise students planning to transfer to these institutions.

Articulation Agreement with Savannah State College

FCCJ seeks to assist its associate degree graduates who desire to complete the baccalaureate degree in a college or university outside the state of Florida. This opportunity is best served by establishing articulation agreements with out-of-state colleges and universities that define the guarantees in the transfer process. Several agreements are currently in process. One such agreement that has been negotiated is with Savannah State College. For more information contact a counselor or adviser on any campus.
The Associate in Arts Degree
Programs of Study

The state of Florida has adopted common prerequisites for each major that are required at all ten state universities. These courses should be completed as part of the associate in arts degree (A.A.). It is also important to note that for all the same majors, each university may have different admission requirements in addition to the common prerequisites. In some universities, common prerequisites must be completed in order to be admitted into a program. These programs are identified as Limited Access. Contact a counselor or adviser for more information about each major.

To meet the A.A. degree requirements and course/admission requirements to a university, it is important that each A.A. student identify a major and transfer institution as soon as possible. Admission to a university is based on proper selection of the required courses and meeting the admission criteria. Students transferring to a Florida university should complete the associate in arts degree (36 credits of general education/CLAST), the common prerequisites (some common prerequisites may also meet general education requirements), and obtain the admission criteria to be successful in the transfer process.

Below are two examples of majors transferring to the University of North Florida. Remember, even though there are common prerequisites, the admission criteria for the same major may be different at each institution.

Business Administration (102)
Associate in Arts
1. Completion of FCCJ’s Associate in Arts degree
   36 credits of general education
   24 credits of common prerequisites
   CLAST

2. Common prerequisites

</tr>
</tbody>
</table>

*These courses also meet the social environment and mathematics general education requirements.

Admission Requirements (UNF)
1. A grade of “C” or above is required for all prerequisites.
2. Prerequisites must be completed within five years of beginning continuous enrollment at UNF.
3. Please be aware of the immunization, foreign language (eight credits in college or two years in high school), and continuous enrollment policies.

4. Prerequisites should be taken as part of the community college program. Students not meeting the prerequisites may be admitted to the college after arranging a program of study that includes the deficiencies.

Elementary Education (126)
Associate in Arts
1. Completion of FCCJ’s associate in arts degree
   36 credits of general education
   24 credits of common prerequisites
   CLAST (note: CLAST is required for teacher certification)

2. Common prerequisites

Admission Requirements (UNF)

Please be aware of immunization, foreign language (eight credits in college or two years in high school) and continuous enrollment policies of the university.

Undergraduate Teacher Education Admission Criteria Effective Fall 1996 Semester

The following are the three categories of admission criteria by which students will be directly admitted into COEHS teacher education programs:
1) Cumulative GPA of 2.5 and a 40th Percentile on the SAT or ACT:

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>SAT</td>
<td>840</td>
<td>3/31/95</td>
</tr>
<tr>
<td>SATI</td>
<td>950</td>
<td>4/1/95</td>
</tr>
<tr>
<td>ACT</td>
<td>19</td>
<td>9/30/89</td>
</tr>
<tr>
<td>ACTE</td>
<td>20</td>
<td>10/1/89</td>
</tr>
</tbody>
</table>

2) Cumulative GPA of 3.0 or Higher and a Minimum Test Score on One of the Following Tests:

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>SAT</td>
<td>740</td>
<td>3/31/95</td>
</tr>
<tr>
<td>SATI</td>
<td>870</td>
<td>4/1/95</td>
</tr>
<tr>
<td>ACT</td>
<td>17</td>
<td>9/30/89</td>
</tr>
<tr>
<td>ACTE</td>
<td>18</td>
<td>10/1/89</td>
</tr>
</tbody>
</table>

3) Students Who Have Completed a Bachelors Degree from a Regionally Accredited Institution with a Minimum GPA of 2.5

The following prerequisites are required for admission to the program and should be taken at the community college. However, students may still be admitted to the university prior to completion of the prerequisites. A grade of "C" or above is required for prerequisites.

NOTE 1: Lower division requirements must include at least nine credit hours of coursework with an international or diversity focus. The eligible courses will be determined by the receiving institution. EDF 2085, Teaching Diverse Populations satisfies three hours of this requirement. The remaining six credits can be satisfied by selecting any two of the following courses:

- AMH 2092 African American History and Culture (from African Origins through Reconstruction)
- AMH 2093 African American History and Culture (from World War I to the Present)
- ANT 2410 Cultural Anthropology
- CPO 2002 Introduction to Comparative Government
- GEA 1000 World Geography
- GEO 2420 Cultural Geography
- HUM 2410 Humanities of Asia
- HUM 2472 Intercultural Explorations
- INR 2002 International Relations
- LAH 2000 History of the Americas
- LIT 2100 Great Ideas in World Literature
- LIT 2380 Introduction to Women in Literature
- REL 2300 World Religions

NOTE 2: At least one course taken to meet the natural science requirements in General Education and/or General Program Prerequisites must include a laboratory component.

NOTE 3: A course in human growth and development can be used to meet the psychology requirement.

Plan ahead to avoid paying for excess credits or being denied admission to a university. Contact a counselor or adviser for more information about each major.

Psychology (129)

**Associate in Arts**

1. Completion of FCCJ’s associate in arts degree
   - 38 credits of general education
   - 24 credits of common prerequisites
   - CLAST

2. Common prerequisites* Hours

- PSY 2012 Introduction to Psychology 3
- Any one psychology course from the following prefixes: 3
  - (PSY/DEP/CLP/EAB/EXP/INP/PCO/SOP/EDP/PP/LPSB/SPS)
  - Select one biology course from the following prefixes: 3
  - (BSC/200)
- OR
- STA 2023 Elementary Statistics 3

A grade of “C” or better is required in prerequisites prior to full admission to degree program.

Foreign Language/Foreign Culture

Graduation Requirement

All Bachelor of Arts (B.A.) majors in the UNF College of Arts and Sciences must complete the foreign language/foreign culture requirement prior to graduating from UNF. This requirement must be satisfied even if two years of foreign language was completed at the high school level; however, students needing to fulfill the state language requirement may not select foreign culture courses. All foreign language/foreign culture courses must be completed with grades of “C” or above. The requirement can be completed in one of the following ways:

- Foreign Language (in same area) 8 hours or
- Foreign Cultures (offered at UNF) 9 hours or
- American Sign Language 8 hours or

Demonstrated proficiency in a foreign language equivalent to eight semester hours of study.

*Please note these common prerequisite courses may also meet general education requirements, thereby providing for additional electives in this area.

All Bachelor of Fine Arts (B.F.A.) students must only satisfy the state language requirement of two years of foreign language in high school. The College of Arts and Sciences of foreign language/foreign culture requirement applies only to B.A. students.

Admission Requirements to the University Program of Study

Please be aware of the immunization, foreign language, and continuous enrollment policies of the university.

Computer and Information Science

**Information Systems Track** Associate in Arts

1. Completion of FCCJ’s Associate in Arts degree
   - 36 credits of general education
   - 24 credits of common prerequisites
   - CLAST
2. Common Prerequisites*  

<table>

</tr>
<tr>
<td>SPC 2600    Fundamentals of Speech Communications</td>
<td>3</td>
</tr>
</tbody>
</table>

*Please note these common prerequisite courses may also meet general education requirements, thereby providing for additional electives in this area.

Final acceptance to the Electrical Engineering Program requires an overall 2.5 GPA along with specific 2.5 GPA in both Calculus and Physics/Calculus sequences.

Admission Requirements to the University Program of Study

Please be aware of the immunization, foreign language, and continuous enrollment policies of the university.
The Associate in Science Degree

Preparation for a Career

Florida Community College at Jacksonville offers a comprehensive series of business, health, engineering and industrial related, fashion marketing, interior design, distributive, public service and other programs designed to fulfill the career education needs of the community’s citizens and employers.

The career and technical education programs are designed to prepare students who, at the completion of a program of study listed in this section of the catalog, are planning to enter a chosen career at the semi professional level. The program may also transfer to a senior institution offering the bachelor degree in a related field of study based on completion of additional requirements as set forth in the section on university transfer requirements page 45 and/or on specific program articulation agreements with state universities.

Advisory committees help Florida Community College at Jacksonville create programs and courses to prepare today’s youth and adults for the world of work. The advisory committees are made up of civic-minded representatives of business, industry, government, health agencies, public service and labor.

Individuals who seek to pursue a career at the technician or at the para-professional level may enroll in a two-year college credit program leading to the associate in science (A.S.) degree. For those individuals desiring to spend less than two years in preparation, college credit technical certificate programs are available in several areas.

The program manager or program chairperson with the approval of the dean of instruction may prescribe deficiency courses which are necessary for successful completion of the associate in science degree. If students are veterans, a copy of the recommendation must be submitted to the FCCJ Veterans Affairs Office for certification completion.

The program manager or program chairperson with the approval of the dean of instruction may approve another elective or professional course not listed as an approved elective in the associate in science degree curriculum, which will apply toward associate in science degree completion. If students are veterans, it is necessary that such course substitution be submitted to the Veterans Affairs Office for certification completion. A record of the approval will be maintained in their file.

Program Location

Not all of the career and technical education A.S. degree programs are available at each of the College’s four campuses. However, the General Education Requirements and many of the elective, professional and other required courses are available at all campuses as well as at selected off-campus centers and sites.

Graduation Requirements

In order to be awarded the associate in science degree, students must have met the following requirements:

1. earned a Florida Community College at Jacksonville cumulative grade point average of 2.0 (C) at FCCJ on all courses attempted,
2. earned an all-college cumulative grade point average of 2.0 (C) on all courses attempted, including transferred credits,
3. completed at least 25 percent of credit semester hours of the required program at FCCJ, and
4. completed the General Education Requirements and required courses as set forth in the College catalog or as approved by the assistant dean of instruction. (The health education programs of study may require a “c” grade or better in professional courses.)

A minimum of 60 semester hours is required for this degree, of which at least 15 semester hours must be General Education Requirements.

NOTE: Students are cautioned to pay particular attention to the following statements.

1. Graduation dates will be the date at the end of the college term in which the students complete the academic requirements for the degree or certificate for which students are applicants. (The removal of an incomplete grade does not affect students’ graduation dates, since the grade change is effective as of the end of the term in which the incomplete grade was assigned rather than the term in which the incomplete work was made up.)
2. Students who expect to complete the coursework under the terms of the catalog in effect during the term of their first registration must graduate within four years after the year of first registration in a college credit program. A total of five years is allowed. Accordingly, students who enter under this catalog must graduate by the end of the Summer Term 2003, or they will be expected to meet the requirements of subsequent years. Changes to requirements as may be mandated by law or by rule of the FCCJ District Board of Trustees may supersede this provision.
3. Not more than 24 semester hours of credit earned in courses offered via television may be applied towards the associate in science degree.
4. The General Education Requirements may be taken on any FCCJ campus or center.
5. Many courses in this catalog have prerequisite and/or corequisite courses which are listed in the course descriptions. Students are advised to be guided by these requirements.
6. Students who place into college preparatory courses are required to complete designated college preparatory courses with a grade of “c” or better regardless of program of study.
7. Degree-seeking students whose native language is not English and who fall below a designated cutoff score on the English as a Second Language (ESL) entry placement
test, will be required to take ESL courses prior to registering for other college credit classes. The level of these courses will be determined by the entry placement scores. Individual exceptions will be determined by the ESL program manager.

Degree-seeking students identified as non-native speakers must take an English as a Second Language (ESL) placement test prior to taking the College’s standard course placement test. Students who place into ESL, as determined by the test, must complete ESL courses before registering for other college credit classes. Non-degree seeking college credit students who plan to take English or reading courses must also meet these requirements. Exceptions to these requirements can be made by the ESL program manager or designee.

General Education Requirements

1. A minimum of 15 semester hours of general education is required for all associate in science degree programs of study.
2. The following subject areas shall be included in each program in the manner specified:

I. Communication .................. Three semester hours
ENC 1101 English Composition I

II. Social and Behavioral Sciences .................. Three semester hours

Area A
DEP 2004 Human Growth and Development
DEP 2401 Adult Psychology
PSY 1012 General Psychology
SOP 1002 Human Relations
SOP 1502 Dynamics of Behavior
SYG 2000 Introductory Sociology
SYG 2010 Social Problems

Area B
AMH 2010 United States History to 1865
ISS 1120 Origins of American Society (Economic
Political and International Institutions)
POS 2041 American Federal Government

III. Mathematics ......................... Three semester hours
MAT 1033 Intermediate Algebra
MGF 1202 Finite Mathematics
MAC 1102 College Algebra
MAC 1140 Precalculus Algebra
MAC 1114 College Trigonometry
MAC 2233 Calculus for Business and Social Sciences
MAC 2311 Calculus with Analytic Geometry I

IV. Humanities ......................... Three semester hours
HUM 2401 Humanities of Asia
HUM 2410 Humanities in the Americas
HUM 2450 Humanities in the Americas
HUM 2472 Intercultural Explorations

V. General Education Elective ..... Three semester hours

Area A

Computer Sciences:
CGS 1060 Introductory Computer Concepts
CGS 1570 Microcomputer Application Software

Area B

Communication:
ENC 1102 English Composition II
ENC 2210 Technical Report Writing
OST 2335 Applied Business Communications
SPC 2600 Fundamentals of Speech Communication

Area C

Biological Sciences:
BSC 1005 Life in Its Biological Environment
BSC 2085C Human Anatomy and Physiology I
BOT 1010C Botany
BSC 2010C Principles of Biology I
PCB 2033 General Ecology

Area D

Physical Sciences:
AST 1002 Introduction to Astronomy
CHM 1020 Chemistry for Liberal Arts
CHM 1025C Introduction to General Chemistry
CHM 1032C Principles of General Chemistry
CHM 2045C General Chemistry and Qualitative Analysis I
GLY 1001 Earth and Space Science
GLY 1010 Physical Geology
ISC 1001 Fundamentals of Natural Science
MET 1010 Meteorology
PHY 2048C Physics I with Calculus
PHY 2053C General Physics I
PSC 1341 Physical Science

VI. Specialization and Related Contextual Course/ Competencies (minimum of 45 semester credits)

consisting of specialization courses/competencies, which may include technical knowledge (theory), technical skills (lab) and/or advanced and professional courses.

A minimum of 60 semester hours is required for the associate in science degree. Most programs require more.

Lists of additional courses required are set forth in individual associate in science degree programs. The total credit hours listed for each individual program are minimum hours required for program completion.

General Electives for Associate in Science Degree Program

The following is a list of general electives, which are applicable to a number of programs.

ACG 2021 Financial Accounting
ADV 2000 Advertising
APA 1001 Applied Accounting
BAN 2501 Money and Banking
BUL 2130 Business Law I -The Legal Environment of Business
Business Law II
CGC 2250 Constitutional Law
CGS 1003 Introduction to Using Microcomputers
CGS 1060 Introductory Computer Concepts
CGS 1100 Microcomputer Applications for Business and Economics
CGS 1564 Introduction to Windows
CGS 1570 Microcomputer Application Software
CGS 1580 Introduction to Desktop Publishing
CGS 2512 Spreadsheet Concepts and Practices
CGS 2525 Introduction to Multimedia
CGS 2542 Database Concepts for Microcomputers
CIS 2321 Information Systems
ECO 2013 Principles of Economics I
ECO 2023 Principles of Economics II
ENC 1102 English Composition II
ENC 2210 Technical Report Writing
FIN 2000 Principles of Finance
FIN 2100 Personal Finance
GBE 1011 Introduction to Business
MAC 2233 Calculus for Business and Social Sciences
MAN 2021 Principles of Management
MAN 2300 Human Resources Management
MAN 2522 Quality Management
MAN 2590 Materials Management
MAR 1011 Principles of Marketing
MKA 1021 Salesmanship
OST 1051 Personal Preparation for Business Careers
OST 1100 Keyboarding/Introduction to Word Processing
OST 1108 Keyboard Skill/SPEED Building
OST 1324 Business Mathematics Using Calculators
OST 1355 Introduction to Records Management
OST 1384 Introduction to Customer Service
OST 1581 Professional Development in the Work Environment
OST 2335 Applied Business Communications
OST 2771 Word Processing for Windows I
OST 2773 Word Processing for Windows II
OST 2821 Desktop Publishing using Word Processing
QMB 2100 Business Statistics
RMI 1521 Principles of Insurance
STA 2023 Elementary Statistics
TRA 1010 Principles of Transportation

Selective Access Programs

Dental hygiene, emergency medical services (EMS) technology, emergency medical technology (EMT), histotechnology, medical laboratory technology, nursing, paramedic, physical therapist assistant and respiratory therapy programs are selective access programs and have special selection and admission criteria and procedures which may be obtained from the program office as listed in this catalog.

University Transfer

Students who intend to transfer to a state university upper division upon receipt of the associate in science degree must satisfy certain additional requirements before being accepted for transfer. These requirements do not affect the award of the associate in science (A.S.) degree by Florida Community College at Jacksonville but do affect the ability of the senior institution to accept students with the A.S. degree.

Students with AS. degrees who plan to transfer to a state university should contact a counselor to determine the additional requirements necessary for transferring.
College Credit Technical Certificate

Preparation for Specialized Employment

Florida Community College at Jacksonville provides a number of educational programs of less than two years duration for which technical certificates are awarded upon satisfactory program completion.

In some cases, the technical certificate can be an intermediate step toward the associate in science degree in the particular area of study. Students can then build upon that technical certificate to accomplish the A.S. degree.

Graduation Requirements

In order to be awarded a college credit technical certificate, students must have met the following requirements:

1. earned a grade point average of 2.0 (C) on all courses attempted at FCCJ,
2. completed the required courses as set forth in the College catalog or as approved by the assistant dean of the area,
3. completed designated college preparatory courses with a grade of "C" or better regardless of program of study, (for those in college prep courses only), and
4. completed at least one-fourth of the total hours required for a certificate in residence at FCCJ

Before students may graduate, they must have fulfilled all financial obligations to the College.

NOTE: Students are cautioned to pay particular attention to the following statements:

1. Graduation dates will be the date at the end of the College term in which students complete the academic requirements for the degree or certificate for which they are applicants. (The removal of an incomplete grade does not affect students’ graduation dates, since the grade change is effective at the end of the term in which the incomplete grade was assigned rather than the term in which the incomplete work was made up.)

2. Students who expect to complete the coursework under the terms of the catalog in effect during the term of their first registration must graduate within four years after the year of first registration in a college credit program. Accordingly, students who enter under this catalog must graduate by the end of the Summer Term 2002, or they will be expected to meet the requirements of subsequent years. Changes to requirements as may be mandated by law or by rule of the FCCJ District Board of Trustees may supersede this provision.
Program Areas

Each associate in science degree and technical certificate program listed in the following pages has a group of initial (pre-program) courses listed. These are foundation courses for the program, and they are the ones that should be taken first.

A.S. - Associate in Science Degree
T.C. - Technical Certificate
D - Downtown Campus
K - Kent Campus
N - North Campus
S - South Campus
URC - Urban Resource Center
Accounting Technology (22010)
Associate in Science

The accounting technology program is primarily designed for those students who intend to seek immediate employment in some area of accounting. The program is also intended for, and most beneficial to, those individuals who are presently using accounting and/or accounting information in their employment. The aim of the A.S. accounting technology program is to prepare students for positions in industry; federal, state and local government; and public accounting. The professional certified public accountant candidate should follow the associate in arts degree for the business administration program of studies.

The accounting technology program is based upon the development of a thorough knowledge of accounting principles and theory, and then seeks to develop the student’s ability to apply this knowledge to problem situations. An intensive study of accounting and related business subjects is combined with general education courses to provide a well-balanced program.

The department chairperson, with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

***ACG 2021 - Financial Accounting
*Social and Behavioral Sciences Area A

Architectural Design and Construction Technology (22020) Associate in Science

The architectural design and construction technology program is designed to prepare students for entry-level positions as architectural drafters or assistants. Typical places of employment are architectural or engineering firms and construction contractors.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Automotive Service Management Technology (22360)  
Associate in Science

The two-year automotive service management technology program is designed to prepare students for employment as automotive/light truck technicians at area dealerships, independent garages or other automotive repair facilities.

Instruction is provided in the diagnosis, repair and service of engines, fuel and emission systems, brakes, drive trains, steering and suspension systems, transmissions, electrical systems, electronic engine controls and automotive computer control systems. The program also includes instruction in safe and efficient work practices, troubleshooting skills and service and maintenance of automobiles. Students will also be instructed in techniques to develop the "people" skills essential for job success. Classroom instruction and shop experiences will be the primary delivery systems.

The program manager may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Aviation Administration, (22530)  
Associate in Science

The aviation administration program provides students with the entry-level knowledge and skills required to prepare for aviation careers in civilian aviation as aviation business managers, in government aviation as Federal Aviation Administration (FAA) air traffic controllers or managers, or in military aviation as commissioned officers and pilots (e.g. Navy NAVCAD program).

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

ASC 1010 - History of Air Transportation/National Airspace System  
ENC 1101 - English Composition I  
*Social and Behavioral Sciences Area A  
MAC 1102 - College Algebra  
OR  
***MAT 1033 - Intermediate Algebra

Biomedical Equipment Engineering Technology (22710)
Associate in Science

The biomedical equipment engineering technology program is designed to prepare students for entry-level positions related to biomedical equipment. These technically trained individuals are prepared to assist engineers or scientists or take positions as biomedical equipment technicians or technical sales representatives. Hospitals, equipment manufacturers and service contractors are typical places of employment.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Building Construction Technology (22340)  
Associate in Science

The building construction technology program is designed to prepare students for entry-level positions in either residential or commercial construction. These technically trained individuals are prepared to assist architects, professional engineers, and contractors in planning, supervising or inspecting the erection of buildings. Other opportunities for employment would include cost estimating and technical sales of construction materials and equipment.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

## Business Administration and Management (22130 or 22131)

Associate in Science

The two-year business administration and management program is designed to prepare students for advancement in the business profession. The emphasis of the course selections is on business courses with five General Education Requirements. It is important to note that this program is not intended to be a substitute for the four-year business administration program.

The program manager or department chairperson, with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

**NOTE:** This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who do decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

### Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

- *General Education Elective Area A*
- ENC 1101 - English Composition I
- FIN 2000 - Principles of Finance
- GEB 1011 - Introduction to Business

Business Data Processing (63920)
Technical Certificate

The technical certificate in business data processing is an abbreviated program recommended for those students with previous college level coursework and/or business experience. It is a one-year course of study for those who wish to be gainfully employed as programmer trainees or programmer analyst trainees.

Students may enter the program in any term. However, summer course offerings are not as plentiful as fall and spring. Part-time students may take twice as long to finish the required coursework for graduation, depending on the course load carried each term. Most of the courses are also offered in the evenings for convenience of students who work during the day.

Special Notes

Based on placement test results, students may be required to take additional courses in the areas of reading, writing and mathematics.

SPECIAL NOTE: Students are expected to have keyboarding skills. Twenty-five words per minute is considered to be a basic level of keyboarding proficiency. OST 1100 Keyboarding/Introduction to Word Processing is recommended to students who need to acquire keyboarding skills.

Child Care Center Management (22030)
Associate in Science

The child care center management program is designed to prepare students for careers working with young children in child care centers and family day care homes. Individuals entering this program should be in good physical and mental health. Career opportunities exist in both private industry and government units as child care center managers, lead teachers, teachers, assistant teachers, teacher's aides and/or related positions.

Effective Jan. 1, 1993, graduates of the Duval County School District secondary child care assisting and child care supervision programs and graduates of the St. Augustine Technical Center child care assisting and supervision programs may be eligible for some transfer credits.

The department chairperson, with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Computer Information Systems Analysis  
(Computer Network Technology) (22681)  
Associate in Science

The computer network technology specialization degree provides the necessary coursework to enable graduates to administer and manage complex local area networks. Emphasis will be placed on administering, troubleshooting, connecting, planning and maintaining local area networks. The program prepares graduates for roles of network administrators in the corporate environment. This program of study provides a foundation for persons preparing for various certification examinations in networking.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

ENC 1101 - English Composition I  
*Mathematics
CGS 1060 - Introductory Computer Concepts  
COP 1000 - Introduction to Programming and  
Algorithm Design

Computer Information Systems Analysis  
(Integrated Systems Specialist) (22680)  
Associate in Science

The integrated systems specialist program is designed to be as "people oriented" as it is "machine oriented." Students will be trained to be problem solvers in the areas of microcomputer systems and micro/mainframe integrated systems. Communication and interpersonal skills will be emphasized throughout the curriculum. These skills will be developed through traditional classroom instruction and through less traditional modes such as role playing, internships and seminars.

Students graduating from this program should be qualified to fill entry-level jobs in any size company. Common job titles for which this degree prepares students include: product specialist, microcomputer specialist, network manager, problem desk worker, and microcomputer and networking analyst.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelor's degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

***A minimum of three hours must be selected from the A.S. degree General Electives.
The computer programming and applications program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue the bachelor's degree. The associate in science degree is a two-year course of study to prepare students for a variety of positions in computer and information systems. Common job titles for which this degree prepares students include: programmer trainee, junior programmer, programmer-analyst trainee and control analyst.

This is a SOCNNAV Network program. Refer to SOCNNAV description on page 21.

Students may enter the program in any term. However, summer course offerings are not as plentiful as fall and spring. Part-time students may take twice as long to finish the required coursework for graduation, depending on the course load carried each term. Most of the courses are also offered in the evenings for convenience of students who work during the day.

Special Notes

Based on placement test results, students may be required to take additional courses in the areas of reading, writing and mathematics.

SPECIAL NOTE: Students are expected to have keyboarding skills. Twenty-five words per minute is considered to be a basic level of keyboarding proficiency. OST 1100 Keyboarding/Introduction to Word Processing is recommended to students who need to acquire keyboarding skills.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelor's degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

- CGS 1060 - Introductory Computer Concepts
- COP 1000 - Introduction to Programming and Algorithm Design
- ENC 1101 - English Composition I
- GEB 1011 - Introduction to Business

The criminal justice technology program is under the guidance of an advisory committee composed of community leaders and administrators from local criminal justice agencies. This assures that students will receive modern, up-to-date instruction that is relevant to current practices in the field.

Corrections and general education courses are offered on a day and evening interchangeable basis.

The program director may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelor's degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Criminal Justice Technology  
(Academy Track) (22392)  
Associate in Science

This program is designed for students who seek an associate in science degree and officer certification. This will prepare students for employment in the criminal justice field upon graduation. Graduates of this program will simultaneously complete requirements for their degree and the criminal justice standards and training commission basic recruit training. The graduates will then be eligible to sit for the state’s certification examination for law enforcement officer.

This program is restrictive as to who can enter and certain prerequisites exist, as they currently do for academy entry. Contact the director of the public services program concerning admission to the program.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Culinary Management (22590)
Associate in Science

**Mission:** The Institute of the South for Hospitality and Culinary Arts is dedicated to the meaningful learning and excellent teaching that enables our students to achieve their full potential in the hospitality, dietetics and food service industries. Our long term goal is to empower students to become leading partners in a dynamic prosperous community.

This competency-based culinary management program is designed to prepare students for employment in production line and supervisory positions in the culinary arts industry as station chefs, sous chefs, second or first cooks, or lead cooks. The long range goal is to provide students with occupational preparation in becoming chefs in restaurants, hotels, clubs and large industrial kitchens. Competencies are developed by students through theory, laboratory, retail restaurant experience in the College-operated food facilities and internships in local restaurant and hotel kitchens.

Prospective students must be advised by a Culinary Arts Professor immediately upon enrolling at FCCJ and before the first semester classes are selected, to ensure proper sequence. Students will also be advised by a counselor for general academic and financial direction. The program manager, with the approval of the academic dean, may require additional courses or make substitutions to meet the individual student needs. This program is offered at North Campus during the day and evening.

A culinary/dietetics option is available for students desiring multi-disciplinary training. This option will enable graduates to use culinary arts, nutrition and food service management skills in a variety of traditional and non-traditional job settings. Successful completion of this program qualifies graduates to take the national registration examination of the American Dietetic Association. Please see the dietetic technician program.

The culinary management program is offered at Naval Air Station Jacksonville and Naval Station Mayport to navy personnel and dependents. For more program information at the naval bases, call 766-6652.

Students enrolled in food production courses are required to purchase a knife set, and approved chefs uniform and black non-skid shoes. Text books are required for a majority of the courses.

Students must supply their own health insurance coverage while enrolled in the program. The companies who provide internships require students to have insurance coverage while on their premises.

Not all core courses are offered every term. There is a specified order in which many courses must be completed. The recommended sequence is available in a student handbook.

For further information on this program contact: Program Manager, Institute of the South for Hospitality and Culinary Arts, North Campus, Room D-316, 766-5563.

**NOTE:** This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Dental Hygiene (22330)
Associate in Science

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through lifelong learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: Dental hygienists are licensed preventive oral health professionals who provide educational, clinical and therapeutic services. They support total health through the promotion of optimal dental health.

A dental hygienist clinician works with the licensed dentist and other dental auxiliaries as a member of an oral health care team. A dental hygienist must obtain a license by completing both a written and a clinical examination before practicing.

THE PROGRAM: This limited access associate degree program in dental hygiene requires a minimum of two years of college education. The program is accredited by the American Dental Association Commission on Dental Accreditation. Because the dental hygiene program includes dental and basic science courses, high school preparation should include biology and chemistry. In addition, the program includes courses in liberal arts (such as English and social psychology), basic sciences (such as anatomy, microbiology and pathology) and clinical sciences (such as dental hygiene, dental radiology and dental materials). Students are strongly advised to take the basic sciences before applying for the program.

PREREQUISITES: Four courses should be completed prior to submitting an application to the program:

ENC 1101 - English Composition I
CHM 1032C - Principles of General Chemistry
BSC 2085C - Human Anatomy and Physiology I
BSC 2086C - Human Anatomy and Physiology II

APPLICATION PROCEDURE: Dental hygiene is a selective access program and continuance in the program is limited and based upon academic performance and other criteria.

1. completion of FCCJ admission application
2. completion of dental hygiene program application
3. completion of California Achievement Test (CAT)
4. forwarding of official college transcripts

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

**BSC 2085C - Human Anatomy and Physiology I
**BSC 2086C - Human Anatomy and Physiology II
**CHM 1032C - Principles of General Chemistry
ENC 1101 - English Composition I

**Minimum grade of “C” is required in all dental hygiene and in all science courses.

NOTE: PRIOR TO CONTACT WITH PATIENTS OR PATIENT SPECIMENS, STUDENTS MUST FURNISH PROOF OF CHILDHOOD IMMUNIZATIONS AND HEPATITIS B IMMUNIZATION. CONTACT PROGRAM CHAIRPERSON FOR ADDITIONAL INFORMATION.
Diagnostic Medical Sonography Technology (22930)  
Associate in Science

This program is designed to benefit students who have acquired (or plan to acquire) a certificate in medical sonography. The courses offered in this program will not train students in sonography but will allow them to earn the A.S. degree in diagnostic medical sonography technology.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

ENC 1101 - English Composition I  
*Social and Behavioral Sciences  
*Mathematics  
*Humanities

Dietetic Technician (22600 and 22601)  
Associate in Science

Mission: The Institute of the South for Hospitality and Culinary Arts is dedicated to the meaningful teaching and excellent teaching that enables our students to achieve their full potential in the hospitality, dietetics and food service industries. Our long term goal is to empower students to become leading partners in a dynamic prosperous community.

The dietetic technician program prepares students to function at the generalist level of dietetic care under the supervision of a registered dietitian. Typical duties include supervision of employees, menu planning, patient interviewing, diet instruction for routine modification, employee training, food purchasing and supervision of food production. The dietetic technician is an integral part of the health care team in an occupation offering both personal and financial rewards. Upon completion of the dietetic technician program, students may apply for membership in the American Dietetic Association. Graduates of this American Dietetic Association approved program meet licensure requirements under Public Law 59A-4.100. Successful completion of the program qualifies graduates to take the national registration examination administered through the Commission of Dietetic Registration. Passing of this examination certifies candidates as Dietetic Technicians, Registered (D.T.R.).

A culinary/dietetics option is available for students desiring multi-disciplinary training. This option will enable graduates to use culinary arts, nutrition and food service management skills in a variety of traditional and non-traditional job settings. Successful completion of this program qualifies graduates to take the national registration examination.

The program manager, with the approval of the dean of instruction, may require additional courses or make substitutions required to meet the needs of students.

Students enrolled in the food production courses are required to purchase a basic knife set and an approved chef’s uniform and black non-skid shoes. Textbooks are required for a majority of courses.

Students must supply their own health and professional liability insurance coverage while enrolled in the program. The companies, who provide internship sites, require students to have health and professional liability insurance coverage while on their premises.

Not all core courses are offered every term. There is a specified order in which some courses must be completed. The recommended sequence is available in a student handout.

See the program adviser for specific provisions.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

For further information on this program contact: Program Manager, Institute of the South for Hospitality and Culinary Arts, North Campus, Room D-316, 766-5563.

Initial Advising Courses

After enrolling at FCCJ and completing general testing and counseling, students must meet with the dietetic professor or program manager to initiate “The Steps For Successful Completion of Core Courses.”

1. Placement test scores shall meet minimum requirements for entrance into college-level English and mathematics courses, or the proper remediation courses must be taken. Students cannot enroll in further dietetic technician core courses until remedial courses are completed.

2. First semester students must complete core courses HUN 1201 and FSS 1202 with a “C” or higher. If presently enrolled in these courses, mid-term grades will be used and continuation in the program will be conditional upon completion of courses with “C” or higher.

3. Students must follow the dietetic technician program course sequence. Many core courses offered in sequence meet only once a year.

By November 1, students will submit a completed application for successful continuation in the program courses to the Institute for the South office.

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed. A grade of “C” or higher must be earned in all core courses in order to continue in the program.

Drafting and Design Technology (CADD) (22060)
Associate in Science

The drafting and design technology program is designed to prepare students for entry-level positions as drafters. These technically trained individuals are prepared to detail the designs of engineers and architects or to assist in various other functions associated with engineering and construction. Emphasis in this program is on the use of computer-aided drafting and design technology and its applications.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Electronics Engineering Technology (22740)
Associate in Science

The electronics engineering technology program is designed to prepare students for electronics related entry-level positions. These technically trained individuals are prepared to assist engineers or scientists or take positions as engineering technicians, technical managers or technical sales representatives. Some examples of industries offering employment opportunities are: computer and office equipment, biomedical equipment, telecommunications equipment and industrial control equipment.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on, page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

- EET 1035 - Fundamentals of DC/AC Electricity
- ETD 1100 - Engineering Drawing
- MAC 1102 - College Algebra
- OR
- MAC 1140 - Precalculus Algebra
- CET 1461 - Computer Applications in Engineering

EMERGENCY MEDICAL SERVICES (EMS) (ASSOCIATE DEGREE) (22510)
ASSOCIATE IN SCIENCE

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through lifelong learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: An emergency medical services system consists of many different components. Paramedics provide advanced life support and transportation for the sick and injured. Attainment of the EMS degree may help the graduate in career advancement opportunities.

THE PROGRAM: This limited access A.S. degree program in EMS is accredited by the Commission on Accreditation of Allied Health Education Programs and is a combination of general education and EMS courses. Graduates of the program are prepared to function as entry-level paramedics. Upon completion of the program, graduates are awarded an associate in science degree in EMS and are eligible to apply to sit for the Florida state board exam to qualify for certification as a paramedic in the state of Florida. The EMS field requires specific physical capabilities, please contact any disabled student services office if you have specific questions.

Emergency medical services (EMS) technology courses must be taken in sequence with the designated prerequisite and corequisite courses. A grade point average of 2.0 must be earned in each professional core course, BSC 2085C and BSC 2086C Human Anatomy and Physiology I and II, and MCB 2013C Microbiology.

PREREQUISITES: Prior to being admitted to the program an applicant must complete:
- EMS 1059 - First Responders: Emergency Care Training
- EMS 1119 - Fundamentals of Emergency Medical Care
- EMS 1401 - Fundamentals of Emergency Medical Care Clinical Experience
- BSC 2085C - Human Anatomy and Physiology I
- BSC 2086C - Human Anatomy and Physiology II

APPLICATION PROCEDURE: EMS is a selective access program and continuance in the program is limited and based upon academic performance and other criteria. A brochure outlining costs, requirements, deadlines and procedures is available from the EMS department, North Campus.

Minimum requirements that must be met for consideration for acceptance to the EMS program are as follows.
1. All applicants for admission to this program must be at least 18 years of age.
2. Students must have earned a high school diploma or GED diploma.
3. Incomplete or late applications will not be considered. (Contact the EMS office for application deadline.)
4. Applicants must document all eligibility requirements:
   a) FCCJ student number and classification as degree-seeking (NOTE: EMT and paramedic are technical certificate programs and require degree-seeking status.)
   b) Notarized character statement
   c) Florida EMT certification or board eligible (Applicants must pass the first exam they are eligible for or they will be dropped from the program.)
   d) Current HCP-BLS card
   e) Satisfactory scores on all portions of admission test or successful completion of required prep courses
   f) Proof of PIP car insurance,
   g) Copy of drivers license
   h) Original photograph
   i) Completion of BSC 2085C Human Anatomy and Physiology I and BSC 2086C Human Anatomy and Physiology II with a grade of “C” or better
5. CPTS will have to be taken by those students not having a grade for EMT: Applicants will be ranked according to the quality points earned in EMT, and BSC 2085C and BSC 2086C Human Anatomy and Physiology I and II. (Quality points are calculated by multiplying the credit hour value of the class by the grade factor, A=4, B=3, C=2.) Students who do not have grades for EMT will receive quality points based on their CPTS score. These CPTS scores will not replace placement results that were determined by other testing options.
6. Applicants who document recent work experience as EMTs (minimum six months full-time at time of application) will receive three points per year up to a maximum of nine points. This will be the applicant’s responsibility to provide this documentation.
7. The top 24 ranked students will be notified by mail of their acceptance into the program and will be notified of the special registration requirements of the program. Those accepted who fail to register and pay for their classes at the designated time will forfeit acceptance into the class. In case of forfeiture, the next highest ranked student will be notified of acceptance.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

NOTE: Non-degree seeking students may refer to the paramedic technical certificate program on page 113 of the catalog.

***Students who have successfully completed the health care core may substitute the core for EMS 1059.

NOTE: PRIOR TO CONTACT WITH PATIENTS OR PATIENT SPECIMENS, STUDENTS MUST FURNISH PROOF OF CHILDHOOD IMMUNIZATIONS. HEPATITIS B VACCINATION IS STRONGLY RECOMMENDED. HEALTH INSURANCE MUST BE MAINTAINED THROUGHOUT CLINICAL TRAINING. CONTACT PROGRAM CHAIRPERSON FOR ADDITIONAL INFORMATION.
Emergency Medical Technician (EMT) (63940)
Technical Certificate

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: An emergency medical services system consists of many different components. Emergency medical technician is the basic entry-level for work in the EMS field. EMTs provide basic life support and transportation for the sick and injured.

THE PROGRAM: This limited access program prepares graduates to function as entry-level emergency medical technicians. Upon completion of the program, graduates are awarded a technical certificate and are eligible to apply to sit for the Florida state board exam to qualify for certification as an EMT in the state of Florida.

PREREQUISITES: Prior to being admitted to the program an applicant must complete:
EMS 1059 - First Responders: Emergency Care Training

APPLICATION PROCEDURE:
1. All applicants for admission to this program must be at least 18 years of age.
2. Students must have earned a high school diploma or GED diploma.
3. Incomplete or late applications will not be considered. (Contact EMT office for application deadlines.)
4. Applicants must document all eligibility requirements:
   (a) FCCJ student number and classification as degree-seeking (NOTE: EMT and paramedic programs are technical certificate programs and require degree-seeking status.)
   (b) Notarized character statement
   (c) First Responder or acceptable medical experience
   (d) Current HCP-BLS card
   (e) Satisfactory scores on admission test and successful completion of any required prep courses (Students will not be considered for admission before they have completed all required reading and English prep courses; students admitted before completing mathematics prep courses must enroll in, and successfully complete, mathematics along with EMT.)
   (f) Proof of PIP car insurance
   (g) Copy of drivers license
   (h) Original photograph
5. CPTS will be required of all EMS program applicants for admission purposes. Applicants will be ranked according to their CPTS scores (CPTS scores used: reading, English, elementary algebra). These CPTS scores will not replace placement results that were determined by other testing options. Students who are placed in prep classes may retake the CPTS one time, after the completion of all required prep courses. Request for re-test forms are available in the EMS office.
6. Applicants will be separated into day and night classes by their designated choice. The top 24 ranked students in each class will be notified by mail of their acceptance into the program and will be notified of the special registration requirements for the program. Those accepted who fail to register and pay for their classes at the designated time will forfeit acceptance into the class. In case of forfeiture, the next highest ranked student will be notified of acceptance.

NOTE: A physical examination will be required upon acceptance to the program.

This fashion marketing management program is designed to prepare students for entering the fashion industry. Employment may be secured in assistant designers, pattern makers and sample makers. The program will include instruction in basic retailing, promotion, visual merchandising, general business practices and procedures, general education and special technical courses geared to the students’ career choice. Additionally, students will intern in local businesses to gain practical on-the-job work experience.

This associate in science degree program will also include safety, consumer and economic education, instruction related to rules, regulations and legislation, and oral communication.

The program chairperson, with the approval of the instructional dean, may require additional courses or make substitutions as required to meet the needs of students.

NOTE: For Fashion Marketing, Promotion, or Retail Management see Marketing Management program.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

*Refer to A.S. degree General Education Requirements.
**Students exempted from CTE 1310 will take CTE 2712 Designing for Special Needs.
The two-year program in financial services (banking) is structured to provide students with both the general and specialized skills and competencies needed to embark upon a profitable and rewarding banking career. Jacksonville is a hub of financial activity, and financial institutions such as banks are looking for qualified and motivated degree students to enter their training programs. Opportunities in financial services are especially good because of the variety of departments, such as business development, public relations, installment credit, international trade development, commercial services, loans and securities.

The program is designed to serve students who are interested in the financial services industry. Besides providing college credit, the completed banking courses may count toward the American Institute of Banking (AIB) certificate programs. Such an arrangement must be approved by the local AIB chapter.

The program manager, with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

NOTE: Students are expected to have keyboarding skills. Tests are available to those students who wish to determine their keyboarding skill level. Twenty-five words per minute is considered to be basic level of keyboarding proficiency. OST 1100 Keyboarding/Introduction to Word Processing is recommended to students who need to acquire keyboarding skills.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who desire to pursue a university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

Fire Science Technology (22110)
Associate in Science

The fire science technology program is designed to provide training for individuals who desire to enter the fire service, who seek employment in industrial fire protection, insurance companies or with fire protection equipment companies, or to upgrade the professional status and intellectual competence of those currently employed in fire service.

The program is under the guidance of an advisory committee composed of community leaders and administrators from local fire departments. This assures that students will receive modern, up-to-date instruction that is relevant to current practices in the field.

Fire science and general education courses are offered on a primary night and alternate night or day basis. The program director may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Graphic Arts Technology (22400)  
(Printing)  
Associate in Science

The two-year program in graphic arts technology is designed to provide students with a working knowledge of each of six major areas of the printing industry and develop occupational skills in the areas or processes in which students demonstrate aptitude and interest.

Lecture courses and hands-on laboratory experience will be provided for training in hand and machine composition and form make-up, letter press operation and form lockup, cold typesetting and paste-up, camera operation and film processing, negative stripping and offset platemaking, and offset press operation and related bindery functions.

The program director, with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Graphic Design Technology (22670)  
Associate in Science

The graphic design technology program prepares students for employment in the graphic design and visual communication profession. A broad based program in both theory and practice provides students with a foundation in the elements and principles of graphic design, the practical and conceptual application of typography, and the necessary computer skills for producing art and illustration. The program includes career orientation, instruction in professional practice, human relations, and verbal and written communication for the graphic designer.

Prospective students should be advised by a graphic design professor to ensure proper sequence. Graduates may find employment in a design or advertising agency, corporation, or be self-employed.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Health Information Management (22770)  
Associate in Science

**MISSION STATEMENT:** Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

**THE CAREER:** Health information management represents a continuum of practice concerned with health related information and the management of systems to collect, store, process, retrieve, analyze, disseminate and communicate information related to the research, planning, provision, financing and evaluation of health care services.

Graduates of this program are known as health information technicians. Entry-level health information technicians may be employed in a variety of settings, and they may assume a variety of job titles depending upon their education, work experience and place of employment. Some of the common job titles include: coder, supervisor and medical record technician. Opportunities for practice include physician’s office settings, long-term care facilities, home healthcare agencies, ambulatory settings, federal healthcare agencies, behavioral healthcare organizations, insurance companies and acute care hospitals.

For additional information about the health information management profession, call or write: American Health Information Management Association 919 N. Michigan Avenue, Suite 1400 Chicago, IL 60611-1683 (312) 787-2672

**THE PROGRAM:** The health information management program is a combination of general education and professional courses including lecture, laboratory and clinical education components. Graduates of the program are prepared to function as entry-level practitioners. Upon successful completion of the program, graduates are awarded an associate in science degree. Graduates are then eligible to take the national examination in order to become an accredited record technician. The health information management program is accredited by the Commission on Accreditation of Allied Health Programs in conjunction with the American Health Information Management Association.

Admission to this program is limited and is based on completion of specific prerequisite courses (see application procedure below) with a grade of “C” or better. One class of 20 is admitted each fall term. Applications to the program must be received by June 15 each year. Students may find it difficult to work during the professional phase of the program due to clinical demands.

**APPLICATION PROCEDURE:**
1. Applicants must have a valid FCCJ student number  
2. they must complete, with a “C” or higher BSC 2085C, BSC 2086C, *mathematics and ENC 1101  
3. Applicants must have CPTS scores  
4. they must turn in completed program application by the deadline

Students will be ranked on the quality points earned in the four courses listed in number two above. Students who verify work experience in health information management will earn two points per year, up to a maximum of six points. In the event of a tie, the college placement test scores (English, reading and elementary algebra) will be used as a tie-breaker.

The top 20 ranked students will be notified by mail of acceptance. Those not responding to the letter will be replaced by students on the waiting list.

A physical examination will be required upon acceptance to the program.

**NOTE:** This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Credit Hours 52

Total Credit Hours 67

*Refer to A.S. degree General Education Requirements.

**Students considering university transfer should not select MAT 1033.
**MISSION STATEMENT:** Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

**THE CAREER:** Histologic technology professionals develop skills that reach into a variety of fields. Most commonly, these highly skilled individuals will be found working in hospitals or private pathology laboratories, playing an integral role in preparing tissue specimens for the microscopic diagnosis of disease. Additionally, histology, the science of demonstrating a multitude of cellular characteristics, will be used in medical, pharmaceutical and industrial research settings. The field of histologic technology is rapidly advancing, as more and more sophisticated diagnostic tools are being developed.

For additional information about a rewarding career as a histologic technician or technologist, write:
National Society for Histotechnology
5900 Princess Garden Parkway, Suite 805
Lanham, Maryland 20706

**THE PROGRAM:** This limited access program, fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) at 8410 West Bryn Mawr Avenue, Suite 670, Chicago Illinois 60631-3415, enables the graduate to sit for the State of Florida, Board of Clinical Laboratory Personnel licensure examination and the ASCP Histologic Technician examination. Students are evaluated for acceptance into the program based on academic criteria (completion of prerequisite courses) and interview. Selected histologic technology courses are formatted for Web-based delivery; therefore, computer skills with Internet access is a program requirement. Students may find it difficult to work during the practicum phase of the education (last two semesters) due to the number of required contact hours per week. Students will be expected to perform in a professional manner during the campus and practicum phases and must have excellent coordination skills.

Students must earn a grade of “C” or better in the histologic technology courses and complete all campus-based courses with a grade point average of 2.0 or better before entering the practicum phase of their education. Placement in the clinical practicum is on a space available basis; a GPA ranked waiting list will determine placement should space become limited for reasons beyond the control of the program.

**APPLICATION PROCEDURE:**
1. Complete 12 credits of college credit coursework applicable to the A.S. histologic technology degree, to include ENC 1101, MAC 1102, and either BSC 2010C or BSC 2085C.
2. Submit completed application form to the HT program.
3. Complete required interview process with the HT education coordinator and program director.

**NOTE:** A physical examination will be required upon acceptance to the program.

**NOTE:** This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

**Initial Advising Courses**

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

- ENC 1101 - English Composition I
- HSC 1531 - Medical Terminology
- MAC 1102 - College Algebra
- CHM 1025C - Introduction to General Chemistry
- BSC 2010C - Principles of Biology I

*Refer to A.S. degree General Education Requirements.
NOTE: PRIOR TO CONTACT WITH PATIENTS OR PATIENT SPECIMENS, STUDENTS MUST FURNISH PROOF OF CHILDHOOD IMMUNIZATIONS AND HEPATITIS B IMMUNIZATION. CONTACT PROGRAM CHAIRPERSON FOR ADDITIONAL INFORMATION.
**Mission:** The Institute of the South for Hospitality and Culinary Arts is dedicated to the meaningful learning and excellent teaching that enables our students to achieve their full potential in the hospitality, dietetics, and food service industries. Our long-term goal is to empower students to become leading partners in a dynamic prosperous community.

The hospitality management program is designed to provide career-oriented students with basic hospitality management principles and training for supervisory/management positions in the hotel, motel, lodging, and tourism industry. The program provides students with a foundation for building a rewarding career in a dynamic, growing industry. The hospitality industry is the second largest and fastest-growing business in Florida. Associate in science degree students with an educational background in this business are in demand.

Educational coursework includes emphasis on communication, management, human relations, and leadership skills. Through the internship program, hospitality management students gain college credit and valuable, profitable work experience.

Immediately upon enrolling and before selecting first semester courses, prospective students must be advised by the hospitality management professor to ensure proper course sequencing. They will be advised by College counselors for general academic and financial direction. The program coordinator, with the approval of the dean of instruction, may require additional courses or make substitutions to meet the needs of the students. This program is offered at North Campus during the day and evening.

Students enrolled in food production courses are required to purchase a knife set and an approved chef's uniform and black non-skid shoes. Students enrolled in dining room courses will be required to purchase dining room uniforms. Textbooks are required for a majority of the courses.

Students must supply their own health insurance coverage while enrolled in the program. Companies who provide internship sites require students to have insurance coverage while on their premises.

Not all courses are offered every term. There is a specific order in which many courses must be completed. The recommended sequence is available in a student handout.

For further information on this program contact: Program Manager, Institute of the South for Hospitality and Culinary Arts, North Campus, Room D-304, 766-5563.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Human Services (22910)
Associate in Science

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: Graduates of this A.S. degree program are eligible to apply for entry-level positions in the addictions treatment field. Typical job titles include program assistant, mental health technician and counselor-in-training.

THE PROGRAM: This program is designed to meet the didactic requirement for admission to the CAAP-1 exam, however, admittance to the exam also requires the applicant to document approximately 3,000 hours of applicable job experience. For specifics concerning the CAAP-1 exam, please contact the Certification Board for Addictions Professionals of Florida, 1715 South Gadsden Street, Tallahassee, Florida, 32301. The program admits students each fall term. Admission is limited because of clinical placement concerns. All courses prefixed with HUS are offered at night on the Kent Campus.

APPLICATION PROCEDURE:
To apply to the program, students must:
1. Have a valid student number issued by FCCJ
2. Satisfactorily complete all college preparatory courses needed
3. Complete a program application (obtained for the Health Services Office, 766-6724) prior to July 1.
4. Complete the California Achievement Test
5. Complete, with a minimum grade of "C", PSY 1012, SYG 2000 and ENC 1101
6. Via student affairs, ensure they are degree-seeking and majoring in program of Human Services (291)

Initial Advising Courses
During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.
ENC 1101 - English Composition I

Industrial Management Technology
(Military) (22780)
Associate in Science

The industrial management technology (military) program is designed to provide opportunities for those with military service experience and training to apply those competencies to obtain college credit towards an associate in science degree. Applicable credits will be awarded after an evaluation of the DD-295, following the recommendations of the American Council on Education Guide (ACE Guide).

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Industrial Management Technology
(Naval Nuclear Power Operations) (22789)
Associate in Science

This is a limited access program and is intended for military personnel who either have been or will be trained at the Naval Nuclear Power School. Civilians who wish to enter this program should make prior contact with the Navy concerning enlistment and further training and should plan to complete the program no later than their 25th birthday. Military personnel who have completed training at the Naval Nuclear Power School may receive college credit toward this degree by submitting appropriate documentation to the Registrar and the Program Manager for Engineering Technologies. All persons wishing to enter this program must schedule an orientation session with the program advisor prior to admission.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

**Credits granted for completion at the Naval Nuclear Power School in Charleston SC.
This program is designed to prepare students for entry-level positions in the pulp and paper industry. It does not provide the skills for a particular position, but is general in nature and accommodates many of the technical positions at the entry-level. Although employment cannot be guaranteed, the participating companies have agreed to seek their new hires from among those who have completed this degree program.

NOTE: To obtain a certificate of completion for the pulp and paper core courses, students must successfully complete all college preparatory courses that they test into plus the 30 semester hours of courses that are designated below with the double asterisk. It will be students' responsibilities to notify the program adviser when these requirements have been met.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelor's degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Insurance Management (22160)
Associate in Science

The insurance management program’s objective is to provide students with the necessary coursework that can lead to profitable and rewarding careers in the insurance industry - life, health, property and casualty. Emphasis is placed on job preparation for affiliation with insurance agencies and home office operations. Jacksonville, the “Insurance Capital of the South,” offers great opportunity to qualified associate in science degree insurance graduates.

Courses are made available to those individuals already employed for career advancement opportunities. These include Chartered Life Underwriters (CLU), Accredited Advisor in Insurance (AAI) and Insurance Institute of America (IIA). Courses leading to licensing requirements for property and casualty general agents, customer representatives and adjusters are also available.

The program manager may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who desire to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

The interior design technology program includes a combination of theory, laboratory and community experiences for the development of competencies in all phases of interior design technology. Concepts of the program include characteristics and performance of textiles; selection; arrangement and maintenance of furniture and accessories; art principles; decorating and design skills; space planning; materials and sources; graphic presentation and architectural design; history of interiors and business management techniques. The associate in science degree program will also include safety, consumer and economic education; communication, computation and human relations skills; and instruction related to rules, regulations and legislation.

Graduates may secure entry-level positions with architectural firms, interior design studios or with related businesses specializing in interior furnishings. Types of employment include interior designer, design assistant, sales representatives, interior decorator, salesperson and space planner. The State of Florida requires the minimum of an associate in science degree and an additional four years of work experience before one can apply for state licensing.

It is essential that students contact an academic adviser for course information. Not all design courses are offered every term, and there are many prerequisites. Design packets are available to aid in advising.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 4.5 of the catalog.

NOTE: The following are offered by the consumer and human services department and may be taken for non-college credit: HEC 0110 Home Accessories Construction, HEC 0084 Drapery Construction and HEC 0098 Introduction to Upholstery.

Interpreter Training Program for Hearing Impaired (221A0) Associate in Science

This program prepares students for employment as interpreters for the deaf, and provides supplemental training for persons previously or currently employed in occupations such as nursing education and human services agencies, etc. Students learn vocabulary and linguistic principles of the language and the process for interpreting into both English and American Sign Language (ASL). Students will also study the ethical and professional considerations of working in this field. Finally, cognitive information is presented which deals with aspects of deaf culture and the phenomenon of deafness itself. For information call 646-2111.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

- EHD 1000 - Orientation to Deafness
- ENC 1101 - English Composition I
- SPA 1332 - American Sign Language I
- SPC 2600 - Fundamentals of Speech Communication

# Legal Assisting (22990)
## Associate in Science

The legal assisting program is for students who wish to seek employment in the legal or criminal justice field as paraprofessionals or for legal secretaries presently employed who wish to assume paraprofessional duties in their field.

FCCJ’s program is structured to meet the needs of the legal profession in the state of Florida, as developed in response to a survey of local attorneys which showed a great need for trained paraprofessional specialists in the field.

Courses are taught by practicing attorneys or other professionals skilled in their field. An advisory committee composed of attorneys and other professionals meets periodically to make suggestions and recommendations for the entire program.

NOTE: While legal assistants are not permitted by law to give legal advice, they do work under the direct supervision of attorneys, performing specifically delegated duties necessary in the effective delivery of legal services to the client.

NOTE: Students desiring to enter the legal assisting program must have a personal interview with the legal assistant coordinator prior to enrollment.

NOTE: The program culminates in a professional internship (PLA 1949 Cooperative Education Work Experience). All other professional core courses must be completed prior to enrollment in the internship. In this course, students will work not less than 120 hours in a law or law-related office. In addition, students will meet weekly to share work experiences and receive final preparation for paraprofessional practice.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Marketing Management (22500)
Associate in Science

The marketing management program provides students with a background that will assist in preparation for a career in the areas of sales management, sales promotion, advertising and market research, retailing, fashion marketing, and fashion promotion. Career opportunities in these fields exist in private industry, government and various professions.

The curriculum includes the study of activities necessary to place goods and services in the hands of household consumers and industrial users. The classroom experiences provide a broad understanding of the marketing process, as well as specialized knowledge in the various areas of marketing.

The department chairperson, with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 4.5 of the catalog.

Medical Laboratory Technology
(Associate Degree) (22200)
Associate in Science

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: Medical laboratory professionals have unlimited choices of practice settings: hospitals, for-profit laboratories, clinics, business and industry. Areas of scientific exploration open to students are the immune system, cell marker technology and cancer research. In the clinical area, drug testing, therapeutic drug monitoring and biogenetics are a few of the specialties with openings. For a qualified laboratory professional, the possibilities are as limitless as the imagination.

For additional information about a rewarding career as a medical laboratory technician, write:
Board of Registry
American Society of Clinical Pathologists
P.O. Box 12270
Chicago, IL 60612

THE PROGRAM: This limited access program, fully accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) at 8410 West Bryn Mawr Avenue, Suite 670, Chicago Illinois 60631-3415, enables graduates to sit for the State of Florida, Board of Clinical Laboratory Personnel licensure examination and the ASCP Medical Laboratory Technician examination. One class of 20 is admitted each fall and spring term. Students may find it difficult to work during the professional phase of the program due to clinical demands. Students will be expected to perform in a professional manner during the campus and clinical phases and must have excellent coordination skills.

Students must earn a grade of “C” or better in the medical laboratory courses and complete all campus-based courses with a grade point average of 2.0 or better before entering the clinical phase of their education. Placement in the clinical practicum phase of the program is on a space available basis; a GPA-ranked waiting list will determine placement should space become limited for reasons beyond the control of the program.

MLT 1022C Introduction to Health Technology must be completed or in progress prior to submitting an application to the program.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

APPLICATION PROCEDURE:
1. Enroll in MLT 1022C - Introduction to Health Technology.
2. Complete the California Achievement Test (CAT).
3. Complete the program application.
4. Submit recommendation from MLT 1022C instructor.

NOTE: A physical examination will be required upon acceptance to the program.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

MLT 1022C - Introduction to Health Technology
ENC 1101 - English Composition I
MAC 1102 - College Algebra
BSC 2085C - Human Anatomy and Physiology I
**CHM 1025C - Introduction to General Chemistry

NOTE: PRIOR TO CONTACT WITH PATIENTS OR PATIENT SPECIMENS, STUDENTS MUST FURNISH PROOF OF CHILDHOOD IMMUNIZATIONS AND HEPATITIS B IMMUNIZATION. CONTACT PROGRAM MANAGER FOR ADDITIONAL INFORMATION.
Nursing (Associate’s Degree) R.N.
(22270)
Associate in Science

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: The registered nurse is a member of the healthcare team who offers direct patient care, supervision of other members of the team, and teaching in collaboration with other members of the team. Successful completion of this program allows the individual to apply to write the National Council Licensure Examination (NCLEX) to qualify for licensure as a registered nurse.

THE PROGRAM: This National League for Nursing (NLN) accredited associate in science degree nursing program is a combination of general education and professional courses including lecture, laboratory and clinical education components. Graduates of the program are prepared to function as entry-level practitioners and are qualified to take the NCLEX to become licensed as a registered nurse (RN). Admission to the program is limited and is based on academic performance and other criteria.

The following four courses must be completed before submitting an application to this program.

- BSC 2085C - Anatomy and Physiology I
- BSC 2086C - Anatomy and Physiology II
- MCB 2013C - Microbiology
- MAC 1102 - College Algebra (or a higher level of mathematics)

All general education courses must be completed before the last term of the nursing program. A grade point average of at least 2.0 must be maintained.

APPLICATION PROCEDURE: To be considered as a qualified applicant, individuals must:

1. Be accepted for admission to Florida Community College at Jacksonville, be currently enrolled or a former student of FCCJ (with an FCCJ student number).
2. Be at least 17 years of age and have earned a high school diploma or GED diploma.
3. Have completed, by the application deadline for the term for which they are applying for continuance, a college or high school course in chemistry (minimum of one credit) with a grade of “C” or better. (When using high school chemistry, an official copy of the high school transcript must be submitted with the application.)
4. Have completed a minimum of 13 credit hours of prerequisites prior to the application deadline. The specific prerequisites to admission are Anatomy and Physiology I and II (BSC 2085C and BSC 2086C), mathematics and Microbiology (MCB 2013C). A grade of “C” or better must be achieved in science courses. A GPA of 2.0 must be maintained.
5. Have submitted current Psychological Services Bureau Revised Nursing Aptitude Exam (PSB-NAT) scores by the application deadline for the term for which he/she is applying for admission to the nursing program.
6. Provide evidence of current CPR certification (eight hour course - adult, child and infant).

NOTE: A physical examination will be required upon acceptance to the program.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed. One year of high school chemistry or any college CHM

- BSC 2085C - Human Anatomy and Physiology I
- BSC 2086C - Human Anatomy and Physiology II
- ENC 1101 - English Composition I
- SYG 2000 - Introductory Sociology

RECORD OF CONVICTION OF A CRIME

The Florida State Board of Nursing, in accordance with the rules and regulations of the Nurse Practice Act, will determine a nursing program graduate’s eligibility for licensure when there is an arrest/conviction record. Convicted felons who have not had their civil rights restored are not eligible to take the National Council Licensure Examination. Students should contact the nursing department for information regarding Florida State Board of Nursing regulations.

NOTE: It is recommended that students have a conference with a counselor or the nursing adviser prior to applying to the nursing program.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree.
MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: The registered nurse is a member of the healthcare team who offers direct patient care, supervision of other members of the team and teaching in collaboration with other members of the team. Successful completion of this program allows the individual to apply to write the National Council Licensure Examination (NCLEX) to qualify for licensure as a registered nurse.

THE PROGRAM: This National League for Nursing (NLN) accredited associate in science degree nursing program is a combination of general education and professional courses including lecture, laboratory and clinical education components. Graduates of the program are prepared to function as entry-level practitioners and are qualified to take the NCLEX to become licensed as a registered nurse (RN). Admission to the program is limited and is based on academic performance and other criteria. This track is limited to employed practical nurses with a current Florida license who have worked the equivalent of at least six months within the last two years (960 hours) as an LPN.

All required general education courses except sociology or humanities must be completed before submitting an application to this program.

APPLICATION PROCEDURE: To be considered as a qualified applicant, individuals must be eligible for continuance in FCCJ’s associate in science degree nursing program.

1. Be accepted for admission to Florida Community College at Jacksonville, be currently enrolled or a former student of FCCJ (with an FCCJ student number).
2. Be at least 17 years of age and have earned a high school diploma or GED diploma.
3. Have completed, by the application deadline for the term for which they are applying for continuance, a college or high school course in chemistry (minimum of one credit) with a grade of “C” or better. (When using high school chemistry, an official copy of the high school transcript must be submitted with the application.)
4. Have completed all required general education courses except sociology or humanities prior to the application deadline.
5. Have submitted current Psychological Services Bureau Revised Nursing Aptitude Exam (PSB-NAT) scores by the application deadline for the term for which he/she is applying for admission to the nursing program.
6. Provide evidence of current CPR certification (eight hour course - adult, child, and infant).
7. Provide evidence of licensure in the state of Florida as a Licensed Practical Nurse who has worked the equivalent of six months within the last two years as an LPN.

NOTE: A physical examination will be required upon acceptance to the program.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

One year of high school chemistry or any college CHM

RECORD OF CONVICTION OF A CRIME

The Florida State Board of Nursing, in accordance with
the rules and regulations of the Nurse Practice Act, will
determine a nursing program graduate’s eligibility for
licensure when there is an arrest/conviction record. Con-
victed felons who have not had their civil rights restored
are not eligible to take the National Council Licensure
Examination. Students should contact the nursing depart-
ment for information regarding Florida State Board of Nurs-
ing regulations.

NOTE: It is recommended that students have a confer-
ence with the nursing adviser prior to applying to the nurs-
ing program.

NOTE: This associate in science degree program is
intended primarily for students who desire to complete an
associate’s degree and become employed rather than pur-
sue a bachelors degree.
Office Management Technology (22650)  
(Executive Support)  
Associate in Science

A goal of this degree program is to allow maximum flexibility for students in designing a program that will fulfill their career objectives. The general education and professional core requirements provide a solid foundation of courses fundamental to any direction that students might choose. Possible career paths might include a proficiency in high technology areas such as information processing, desktop publishing or networking in the automated office in positions such as executive assistants, office coordinators or office managers.

To achieve the 64 credit hour requirement for the associate-in-science in office management technology degree, students must complete 15 credit hours in the specified general education courses and 38 credit hours in the professional core courses. The remaining credit hours will be chosen from the list of professional electives. All credits earned in the technical certificate program may be applied to the office management technology degree program. It is advisable that all students in this program complete at least one of the technical certificate specialties before enrolling in additional professional elective courses.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelor's degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

*Refer to A.S. degree General Education Requirements.
**Refer to A.S. degree General Electives.
Office Systems Specialist  
(63570, 63571, 63572, 63573, 63574, 63575, 63576, 63577, 63578 or 63579) 
Technical Certificate - 

The technical certificate program in office systems specialist is designed to prepare students to enter the job market with professional training in areas such as word processing, computer applications, office procedures, customer relations and human relations.

Students may choose from a comprehensive list of specialties which includes clerical, financial services, data entry, insurance, desktop publishing, word processing, information processing, medical, legal and records management. The professional core is the foundation for all specialty certificates.

The professional core courses prepare students for entry-level jobs in a wide variety of work settings. The specialties are designed to build upon the core and apply to more specific work environments.

NOTE: Successful completion of a specialty qualifies students for technical certificates in that specialty. Students may receive multiple specialties as they qualify. After students complete a technical certificate, credits may be applied to the associate in science degree in office management technology (executive support).

*Students may not enroll in this course until professional core and all other courses in their specialty have been completed. Enrollment is limited. Another course can be substituted for this with consent of program adviser.
Paramedic (63930)
Technical Certificate

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: An emergency medical services system consists of many different components. Paramedics is the advanced level for work in the EMS field. Paramedics provide advanced life support and transportation for the sick and injured.

THE PROGRAM: This limited access program is accredited by the Commission on Accreditation of Allied Health Education Programs. Graduates of the program are prepared to function as entry-level paramedics. Upon completion of the program, graduates are awarded a technical certificate and are eligible to apply to sit for the Florida state board examination to qualify for certification as a paramedic in the state of Florida. Graduates of the one-year technical certificate program may elect to continue for the associate in science degree in emergency medical services (EMS) technology.

PREREQUISITES: Prior to being admitted to the program, an applicant must complete:
EMS 1059 - First Responders: Emergency Care Training
EMS 1119 - Fundamentals of Emergency Medical Care
EMS 1401 - Fundamentals of Emergency Medical Care
Clinical Experience
BSC 2085C - Human Anatomy and Physiology I
BSC 2086C - Human Anatomy and Physiology II

APPLICATION PROCEDURE:
1. All applicants for admission to this program must be at least 18 years of age.
2. Students must have earned a high school diploma or GED diploma.
3. Incomplete or late applications will not be considered. (Call the EMS office for application deadlines.)
4. Applicants must document all eligibility requirements.
   (a) FCCJ Student number and classification as degree-seeking (note: EMT and paramedic programs are technical certificate programs and require degree-seeking status)
   (b) Notarized character statement
   (c) Florida EMT certification or board eligible (applicants must pass the first exam they are eligible for or they will be dropped from the program)
   (d) Current HCP-BLS card
   (e) Satisfactory scores on all portions of admission test or successful completion of required prep courses
   (f) Proof of PIP car insurance
   (g) Copy of driver’s license
   (h) Original photograph
   (i) Completion of BSC 2085C Human Anatomy and Physiology I and BSC 2086C Human Anatomy and Physiology II with a grade of “C” or better
5. CPTS will have to be taken by those students not having grades for EMT. Applicants will be ranked according to the quality points earned in EMT, and BSC 2085C and BSC 2086C Human Anatomy and Physiology I and II. (Quality points are calculated by multiplying the credit hour value of the class by the grade factor, A=4, B=3, C=2.) Students who do not have grades for EMT will receive quality points based on their CPTS scores. These CPTS scores will not replace placement results that were determined by other testing options.
6. Applicants who document recent work experience as EMTs (minimum six months full-time at time of application) will receive three points per year up to a maximum of nine points. This will be the applicants responsibility to provide this documentation.
7. The top 24 ranked students will be notified by mail of their acceptance into the program and will be notified of the special registration requirements of the program. Those accepted who fail to register and pay for their classes at the designated time will forfeit acceptance into the class. In case of forfeiture, the next highest ranked student will be notified of acceptance.

NOTE: A physical examination will be required upon acceptance to the program.

Total Credit Hours 55

*Students who have successfully completed Health Care Core may substitute the core for EMS 1059.

NOTE: PRIOR TO CONTACT WITH PATIENTS OR PATIENT SPECIMENS, STUDENTS MUST FURNISH PROOF OF CHILDHOOD IMMUNIZATIONS. HEPATITIS B VACCINATION IS STRONGLY RECOMMENDED. HEALTH INSURANCE MUST BE MAINTAINED THROUGHOUT CLINICAL TRAINING. CONTACT PROGRAM CHAIRPERSON FOR ADDITIONAL INFORMATION.
**Physical Therapist Assistant (222A0)**  
**Associate in Science**

**MISSION STATEMENT:** Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

**THE CAREER:** The physical therapist assistant (PTA) is a skilled technical healthcare provider who works under the supervision and direction of a physical therapist (PT) in the assessment, treatment and prevention of physical disability resulting from injury, disease, pain, birth defects and other health-related conditions. The PTA, working as a member of the rehabilitation team, assists in implementing the treatment program according to the PTA including training patients in exercise, ambulation and activities of daily living; conducting treatment using specialized equipment; administering therapeutic physical agents such as heat, cold and electrical stimulation; assisting in the performance of tests; and observing and reporting patient responses and changes in condition to the PT.

The Dictionary of Occupational Titles rates the strength demands of a PTA at the medium level. This translates into lifting or exerting a force of 20 to 50 pounds occasionally, 10 to 25 pounds frequently, and 10 pounds or less constantly.

Interested students can learn more about the profession of physical therapy and the role of the PTA by contacting the professional association, American Physical Therapy Association  
111 N. Fairfax Street  
Alexandria, Virginia 22314  
Telephone: 1-800-999-2782

**THE PROGRAM:** The PTA program is a combination of general education and professional courses including lecture, laboratory and clinical education components. Graduates of the program are prepared to function as entry-level practitioners. Upon completion of the program, graduates are awarded an associate in science degree. Graduates are then eligible to apply to sit for a state administered national examination in order to qualify for licensure to practice as PTAs. Admission to this program is limited and is based on academic performance and other criteria. FCCJ is seeking accreditation by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association. The program has submitted a Declaration of Intent to Apply for Accreditation, which is the formal application required in the pre-accreditation stage. Submission of this document does not assure that the program will be granted candidacy for accreditation status, nor does it assure that the program will be granted initial accreditation. Contact the PTA program for the most current information regarding the program’s accreditation status.

**APPLICATION PROCEDURE:**

The PTA program is a selective access program. Admission to the professional phase of the program is limited and based upon academic performance and other criteria. An information/application packet outlining requirements, procedures, deadlines, costs and other pertinent information is available from the PTA department, North Campus.

Minimum requirements that must be met for consideration for admission to the professional phase of the PTA program are as follows:

1. Applicants must be accepted for admission to Florida Community College at Jacksonville (FCCJ) or be currently enrolled at FCCJ. Acceptance to FCCJ does not guarantee admission to the professional phase of the PTA program.

2. Applicants must submit a completed application for the professional phase of the program to the PTA department. Incomplete and late applications will not be considered. Contact the PTA department for information/application packets and deadlines.

3. Applicants must have completed the following courses with a minimum grade of "C" and minimum combined grade point average of 2.5 prior to submitting an application for the professional phase of the program:
   - MAC 1102 College Algebra
   - PHY 1020 Physics for the Liberal Arts
   - BSC 2085 Human Anatomy and Physiology I
   - BSC 2086 Human Anatomy and Physiology II

4. Applicants must have completed the following courses with a passing grade no later than the end of the fall term prior to beginning the professional phase:
   - ENC 1101 English Composition I
   - HSC 1531 Medical Terminology
   - DEP 2004 Human Growth and Development
   - Humanities

5. Applicants must complete the Revised PSB - Health Occupations Aptitude Examination. Contact the Kent Campus Testing and Assessment Center for scheduling information.

6. Applicants must submit documented evidence verifying completion of a minimum of 40 hours of observation, volunteer service and/or work experience in physical therapy departments. This must be obtained in a minimum of two distinct practice settings with no less than 16 hours in each setting. Verification forms can be obtained from the PTA department.

7. Applicants must submit evidence of current cardiopulmonary resuscitation certification. The certification must be an eight hour, two person, adult-infant/child course. The American Heart Association’s Basic Life Support for Healthcare Providers, the American Red Cross’ CPR for the Professional Rescuer and FCCJ’s HEC 0300 Basic Life Support fulfill this requirement. Students must keep their certification current through the expected date of graduation.

8. Applicants must have a copy of their official college transcript(s), including pre-professional coursework, sent directly from the college or university to the PTA program. Students not currently enrolled in FCCJ and/or who are transferring college credit courses are required to have a second copy of their official transcript(s) sent directly from the college or university to the registrar’s office at FCCJ.
Students who have submitted completed applications to the PTA department by the deadline will be ranked according to a point scale based on grade point average in BSC 2085C, BSC 2086C, MAC 1102 and PHY 1020, scores on the Revised PSB-Health Occupations Aptitude Examination and accumulated hours of observation, volunteer service and/or work experience in physical therapy departments. The 24 highest ranked students will be accepted into the professional phase of the PTA program and notified of their acceptance by certified mail. Students who have submitted completed applications to the PTA department by the deadline will be ranked according to a point scale based on grade point average in BSC 2085C, BSC 2086C, MAC 1102 and PHY 1020, scores on the Revised PSB-Health Occupations Aptitude Examination and accumulated hours of observation, volunteer service and/or work experience in physical therapy departments. The 24 highest ranked students will be accepted into the professional phase of the PTA program and notified of their acceptance by certified mail. A ranked alternate list will be established. In the event of forfeiture, the next highest ranked student will be notified of acceptance. Refer to the PTA department information/application packet for a complete description of the point system on which ranking is based.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

initial Advising Courses

During their beginning semesters at the College students should complete the following unless test scores indicate that college preparatory courses may be needed.

ENC 1101 - English Composition I

Credit Hours 59

Total Credit Hours 74

*Students who qualify may substitute a higher level mathematics course.

**A minimum grade of “C” is required in math and science courses.

***Refer to A.S. degree General Education requirements. Students may elect to take this course during the first spring or summer terms of the professional phase. However, it is highly recommended that it be completed prior to beginning the professional phase.

If these courses have been completed more than five years prior to enrollment in the professional phase, a competency examination with a specified minimum passing grade of seventy-five percent will be required.

NOTE: FOLLOWING ADMISSION TO THE PROFESSIONAL PHASE A STANDARD PHYSICAL EXAMINATION WILL BE REQUIRED.
The professional pilot technology program provides students with the knowledge, skills and Federal Aviation Administration (FAA) certificates required to begin a civilian aviation career as an FAA Certified Flight Instructor and Commercial Pilot. This program, which includes flight training through a local FAA approved flight school, is intended for students who desire to complete an associate's degree and begin, an aviation career. In completing the program, students will have earned the following FAA certificates and ratings: commercial pilot, airplane single and multi-engine land, instrument, flight instructor, airplane and instrument, ground instructor, advanced and instrument.

In addition, the airline transport pilot and flight engineer basic and turbojet FAA written tests may be completed as electives. The flight training costs to complete this program may approach or exceed $25,000 over the planned two-year period. Exact costs will be determined by students' aptitudes, study habits and time devoted to the program.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate's degree and become employed rather than pursue a bachelor's degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Radio and Television Broadcast Programming (22320)  
Associate in Science

This two-year program is designed to prepare students for a career as professional production personnel in radio, TV, film and stage.

The growth of the media production and entertainment industry in Florida in recent years has increased the demand for experienced professionals in private industry, public service, education, health services and cable TV, as well as a continuing need by networks, television stations, production companies and professional stages. Individuals in professional production have a broad range of interests, both artistic and technical. These professionals have experience in many facilities and with all the equipment normally associated with radio, TV, film and stage productions. They can move easily from the production of commercials, to sports, to news and public affairs, to drama, dance and concerts. Experience, versatility and creativity are the attributes employers are looking for in entry-level applicants.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Radiography (22540)
Associate in Science

MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: Graduates of non-college credit educational programs often find an AS degree is helpful in addition to their professional credentials, particularly when interested in pursuing a career in management, education or sales.

THE PROGRAM: This program is designed for students who have completed approved radiography educational programs and are currently on the American Registry of Radiologic Technologists (ARRT). This program will not prepare students to be radiographers.

APPLICATION PROCEDURE: To apply to the program, students must:
1. Have a valid FCCJ student number.
2. Satisfactorily complete all college preparatory courses needed.
3. Furnish proof of completion of a radiographic technology program, and proof of attainment of the ARRT credential.
4. Via student affairs, ensure they are degree-seeking and majoring in radiography (254).

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Initial Advising Courses

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.
BSC 2085C - Human Anatomy and Physiology I
ENC 1101 - English Composition I
RTE 2202 - Radiologic Management and Education

Radiography (Baptist Medical Center/ St. Vincent’s Medical Center Option) (22542)
Associate in Science

The purpose of this program is to offer initial education in the field of radiography. Completion of this program prepares graduates to take the American Registry for Radiologic Technologists. This program is limited access, a separate application is required.

Specific information on program admission requirements and costs can be obtained from the coordinator for radiography, North Campus.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

*Refer to A.S. degree General Education Requirements.
MISSION STATEMENT: Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

THE CAREER: Graduates of this A.S. degree are prepared to work in radiography positions in hospitals, clinics and physician’s offices.

THE PROGRAM: This program is jointly sponsored by FCCJ and the Mayo Clinic. Admission is granted through the Mayo Clinic, and the educational experience is divided between Jacksonville and Rochester, Minn. Successful completion of this program will require students to live in Rochester for approximately 15 months. Graduates of this program may sit for the American Registry of Radiologic Technologists (ARRT) examination. Three students are admitted each fall term.

APPLICATION PROCEDURE: To apply to the program, students must:
1. Have a valid student number issued by FCCJ.
2. Satisfactorily complete all college preparatory courses needed.
3. Have complete an application from Mayo Clinic prior to the established deadline (usually early spring).
4. Via student affairs, ensure they are degree-seeking and majoring in radiography-Mayo Clinic option (292).

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

Real Estate Management (22300)
Associate in Science

This A.S. degree program is designed to provide students with a meaningful background in real estate. Pre-licensing requirements established by the Florida Real Estate Commission for licensed salespersons are incorporated into the program. Through a variety of course offerings, students are presented an opportunity to specialize in other areas of real estate, including management.

The department chairperson with the approval of the instructional dean, may require additional courses or make substitutions required to meet the needs of students.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who desire to pursue a university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

**General Electives

*Refer to A.S. degree General Education Requirements.
**Refer to A.S. degree General Electives.
**Respiratory Care (22440)**

**Associate in Science**

**MISSION STATEMENT:** Creating competent, ethical, confident entry-level healthcare practitioners committed to professional development through life-long learning in a positive, non-discriminatory and supportive learning environment.

**THE CAREER:** The respiratory care profession is one of the fastest growing allied health specialties. It is involved with the treatment, diagnosis and rehabilitation of patients with diseases of the heart and lungs. Graduates of the FCCJ respiratory care program are eligible to take the nationally recognized Certified Respiratory Therapy Technician (CRTT) examination immediately after graduation. After successful completion of the CRTT examination, they are eligible to take the Registered Respiratory Therapist (RRT) advanced level examinations. This credential offers the therapist excellent employment opportunities as well as a competitive salary.

For additional information on the profession, contact: American Association for Respiratory Care

11030 Ables Lane
Dallas, Texas 75229

**THE PROGRAM:** This limited access program, fully accredited by the Joint Review Committee for Respiratory Care, enables graduates to sit for both professional examinations. One class of 25 is admitted each fall term. The professional phase of the education makes employment difficult, due to clinical demands. Students will be expected to lift up to 30 pounds frequently, be mobile and have sufficient motor abilities to provide safe care.

The following seven courses should be completed, or nearing completion, prior to submitting an application to the program:

- ENC 1101 - English Composition I
- MAC 1102 - College Algebra
- BSC 2085C - Human Anatomy and Physiology I
- BSC 2086C - Human Anatomy and Physiology II
- *Sociology
- **Humanities
- *One year of high school chemistry or any college CHM course

A brochure outlining costs, requirements, deadlines, and procedures is available from the respiratory care/allied health department on North Campus.

**APPLICATION PROCEDURE:** Minimum requirements that must be met for consideration for acceptance to the respiratory care program are:

1. Students must have earned a high school diploma or GED diploma.
2. Incomplete or late applications will not be considered. (contact the RC office for application deadline)
3. Applicants must document all eligibility requirements:
   - (a) FCCJ student number and classification as degree-seeking
   - (b) current HCP-BLS card
   - (c) current CAT scores

   (d) completion of prerequisite courses with a grade or “C” or better

4. Students will be ranked according to the quality points. (contact the RC office for additional information)
5. The top 25 ranked students will be notified by mail of their acceptance into the program. Orientation and registration information will also be provided. Those who fail to contact our office upon notification of acceptance will forfeit their placement in the program. In case of forfeiture, the next highest ranked student will be notified of acceptance.

**NOTE:** A physical examination will be required upon acceptance to the program.

**NOTE:** This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who decide to pursue university transfer study must meet certain course and test requirements. For details refer to university transfer requirements on page 45 of the catalog.

**Initial Advising Courses**

During their beginning semesters at the College, students should complete the following unless test scores indicate that college preparatory studies courses may be needed.

- BSC 2085C - Human Anatomy and Physiology I
- BSC 2086C - Human Anatomy and Physiology II
- MAC 1102 - College Algebra
- ENC 1101 - English Composition I

NOTE: PRIOR TO CONTACT WITH PATIENTS OR PATIENT SPECIMENS, STUDENTS MUST FURNISH PROOF OF CHILDHOOD IMMUNIZATIONS AND HEPATITIS B IMMUNIZATION. CONTACT PROGRAM CHAIRPERSON FOR ADDITIONAL INFORMATION.
Mission: The Institute of the South for Hospitality and Culinary Arts is dedicated to the meaningful learning and excellent teaching that enables our students to achieve their full potential in the hospitality, dietetics and food service industries. Our long term goal is to empower students to become leading partners in a dynamic prosperous community.

The restaurant management program is designed to provide career oriented students with the basic restaurant management principles and training for supervisory management positions in restaurants, hotels, clubs, resorts, cafeterias, extended care facilities, fast food operations and hospitals. The program is focused to provide students with a foundation for building a rewarding career in a dynamic growing industry that serves people.

The hospitality/restaurant industry is the second largest and fastest growing business in Florida. Associate in science degree students with an educational background and proven experience in the restaurant businesses are in demand.

Educational courses include emphasis on communication, management, human relations and leadership skills. Competencies are acquired through theory, laboratory and on-site restaurant management practice. Through the internship program restaurant students gain invaluable on-the-job experience in local restaurants, hotels, clubs or cafeterias.

Prospective students must be advised by a college counselor for general academic and financial direction. They must be advised by the restaurant management professor immediately upon enrolling at FCCJ and before the first semester classes are selected to ensure proper course sequence. The program manager, with the approval of the dean, may require additional courses or substitutions to meet individual student needs. This program is offered at North Campus during the day or evening.

Students enrolled in the food production courses are required to purchase a knife set, an approved chefs uniform, and black non-skid shoes. Students enrolled in dining room courses will be required to purchase a dining room uniform. Text books are required for a majority of the courses.

Students must supply their own health insurance coverage while enrolled in the program. Companies who provide internship sites require students to have their own insurance coverage while on company premises.

Not all courses are offered every term. There is a specific order in which many courses must be offered. The recommended sequence is available in a student handbook.

For further information on the program contact: Program Manager, Institute of the South for Hospitality and Culinary Arts, North Campus, Room D-316, 766-5563.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelors degree. Students who desire to pursue university transfer study must meet certain course and test requirements. For details refer to university requirements on page 45 of the catalog.

Theatre and Entertainment Technology (221B0)
Associate in Science

The theatre and entertainment technology program develops the knowledge and skills necessary for students to embark on careers as professional stage hands, stage carpenters, stage electricians or wardrobe/costume assistants. Emphasis in this specialized program is on production. Many hours are required in the operation of the theatre plant, and the construction of scenery and costumes for theatrical events. Students will be actively involved in the production of numerous music, dance and theatre events in the Nathan H. Wilson Center for the Arts on South Campus.

This program comprises basic theatre technology, general education and advanced specialized technical courses. Hands-on learning takes place in both a classroom setting and in live production situations to satisfy students with the principles and practices required for employment in the rapidly expanding and “high-tech” entertainment industry.

Upon completion of this program, students may apply to take the examination for membership into the International Alliance of Theatrical Stage Employees (IATSE), the professional union representing backstage personnel.

NOTE: This associate in science degree program is intended primarily for students who desire to complete an associate’s degree and become employed rather than pursue a bachelor’s degree. Students who desire to pursue university transfer study must meet certain course and test requirements. For details refer to university requirements on page 45 of the catalog.

Postsecondary Job Training Programs

Florida Community College at Jacksonville offers many postsecondary training programs which prepare students to enter a given career or vocation. Each of these programs prepares students to enter a specific occupation or one of a cluster of related occupations. To complete a program, students must demonstrate that they have mastered specific job-related performance requirements as well as communication and computation competencies. Upon the completion of a program, students will be awarded a postsecondary training certificate.

Postsecondary job preparatory programs vary in length from 20 to 1,500 hours. Students entering programs will be tested for basic reading, mathematics and language skills. Prior to the completion of their respective programs, those students who score below the prescribed grade levels on the Test of Adult Basic Education (TABE) will be required to enroll in basic skills training (VPI) and be retested to demonstrate attainment of the prescribed skill level for their respective programs of study.

Admissions

All individuals registering at Florida Community College at Jacksonville must have a Social Security number and will be required to present their Social Security card at each registration. Individuals not having a Social Security number should contact the local Social Security office for an application to obtain a number.

Individuals desiring to enroll in a postsecondary training program should contact the program adviser on the campus or the center offering the desired subjects or call the FCCJ information center at 646-2300. Students may be admitted if the following eligibility requirements are met:

1. be at least 16 years of age,
2. present Social Security card,
3. furnish proof of age, if asked,
4. complete the admission and registration forms, and
5. meet special admission criteria if any.

Certain programs of study, such as practical nursing, have selective admission criteria. Students must contact the specific department of interest before enrolling in programs with special admission requirements.

Non-resident aliens on tourist visas may not enroll in these programs.

Enrollment Verification

Students requesting enrollment certification for educational benefits must be admitted to and be enrolled in a vocational program. Full time attendance requirements range from 20 to 30 clock hours per week. The minimum may vary by program and agency requirement. Veterans should refer to the Student Services section, Veteran Affairs, in the catalog for information. Students may also contact Veteran Affairs located in the Enrollment Services Office on each campus.

Registration Periods

Registration dates will vary by program category and campus. Students should contact the program adviser for specific information.

Schedule Changes

Schedule changes, commonly known as add-drop, will be allowed in accordance with the schedule established by the registrar each term.

Transcript Requests

Upon request of students, the College will provide to students or to a person/institution designated by students, an official transcript of their academic record. Transcript requests may be made in person or in writing to the campus registration office. Transcript requests will be taken by telephone if the recipient of the transcript is another educational institution. NO TRANSCRIPT REQUEST WILL BE PROCESSED UNTIL ALL FINANCIAL OBLIGATIONS TO THE COLLEGE ARE CLEAR.

Students are advised to make requests approximately two weeks before the transcript is needed.

Grading System

The grading system is designed to evaluate the performance of students as fairly and equitably as possible. Letter grades will be assigned for courses as follows.

“S” - SATISFACTORY
“U” - UNSATISFACTORY
“W” - WITHDRAWAL
“SI” - SATISFACTORY/INCOMPLETE

Once a grade of “S” or “U” in a course has been reported to the registrar, it may only be changed as follows:

1. upon recommendation of the instructor who assigned the grade with approval of the program director or institutional dean or
2. upon recommendation by the department chairperson or program manager and approved by the instructional dean, when the instructor who assigned the grade is no longer a member of the faculty of Florida Community College at Jacksonville.

The “I” or “SI” grade may be changed by the instructor within the time limit indicated in the College calendar.

College I.D. Cards (StarCard)

Students enrolling in courses on any FCCJ campus, the Urban Resource Center, Open Campus Deerwood Center, Geis Center for Marine and Industrial Technology, Betty P. Cook Nassau County Center or military base are required

Upon successful completion of this program, students will be able to acquire entry-level job employment as welders in the metal trades including fabrication, installation and repair within the following industries: shipyards, paper mills, power plants, construction, fabrication shops and repair shops. Safety and good work habits are stressed throughout this program.

This program provides exit points for those who wish to specialize in a specific area. Students must complete courses required for each individual exit point.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 766-5580 or 633-8287.

(all of the above courses)

Total Contact Hours 1,400

*Students who have satisfactory test scores are not required to take these courses.

**Automotive Machine Shop (56080)**

This program is designed to provide students with entry-level job training in the automotive machinist field. Instruction includes but is not limited to use of precision and non-precision tools, cleaning engine parts, identifying and repairing cracks, grinding, honing, disassembling and assembling of engines. Safety and good work habits are stressed throughout this program. Employment opportunities may be found in automotive machine shops, dealerships and garages.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 633-8287.

The purpose of this program is to prepare students for entry-level employment as automotive/light truck mechanics at area dealerships, independent, garages or other automotive repair facilities. The program also can provide supplemental training for individuals previously or currently employed in these occupations.

Instruction includes diagnosis and repair of engines, fuel, electrical, cooling and brake systems, drive train and suspension systems, and radiators and transmissions. The program also includes instruction in safe and efficient work practices, troubleshooting skills, service and maintenance of automobiles including both domestic and imports. Both classroom instruction and shop experiences are provided.

This program provides exit points for those who wish to specialize in a specific area. Students must complete courses required for each individual exit point.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 633-8287.

Barbering (56220)

A SELECTIVE ADMISSION PROGRAM

The purpose of this program is to prepare individuals for employment as barber-stylists or to provide supplemental training to individuals previously or currently employed in the barbering profession. Instruction is designed to qualify students for successful completion of the Florida Barber License written and practical examinations. Program content includes but is not limited to the development of communication, leadership, human relations and employability skills, safe and efficient work practices, demonstrated technical and manipulative skills, a knowledge of chemistry, physiology, anatomy and bacteriology as related to barbering, and Florida Barber laws, rules and regulations.

The barbering program at FCCJ is a three semester certificate program consisting of 1,200 contact hours, requiring daily attendance. Instruction includes classroom theory and laboratory practice. Following the successful completion of a minimum of 1,200 program hours, students are qualified to take the Florida Barber Licensure Examination for employment in this field. This program is at North Campus. For information call 766-5559.

Application

This is a selective access program that admits students in the fall, spring, and summer terms. To be eligible for this program students must score at ninth grade levels or above in reading, mathematics, and language on the state mandated Test of Adult Basic Education (TABE). Students scoring below these levels will be required to take the appropriate basic skills classes to assist in meeting these minimum levels.

Applicants for the school of cosmetology and barbering are evaluated for admission on a ranking scale of 10-5. Position on the scale is determined by the Test of Adult Basic Education (TABE) score. The TABE test must be taken prior to applying for either the cosmetology, barbering or nail specialist program. The official score is submitted with the application for admission. While not required for admission, credit will be given for related work experience and completion of high school or the General Education Development (GED) Test as follows: .25 points per full year up to four years for work experience and .5 points for high school diploma and .25 points for completion of the GED.

Related work experience must be documented by former employer(s) on company letterhead stating term of employment and job duties. Official transcripts and GED scores, when applicable, must also be provided at the time of application.

Carpentry (56180)

This program is designed to prepare students for job entry into the carpentry trade. Instruction in this trade area includes but is not limited to hand and power tools, safety, site preparation, foundation formwork, floor and wall framing, roof framing and exterior trim. Job opportunities are available in new construction, repair and remodeling industries.

This program provides exit points for those who wish to specialize in a specific area. Students must complete courses required for each individual exit point.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 633-8287.

Commercial Heating and Air Conditioning Technology (56040)

This program is designed for entry-level job training in the air conditioning, refrigeration and heating fields. Instruction includes the scientific operations and principles of the common types of equipment and the technical skills that are needed to maintain and repair mechanical and electrical systems. The proper use of shop manuals, manufacturers’ manuals and related technical literature is stressed.

Employment opportunities are available in the new construction and repair industry and maintenance work in apartment complexes and commercial buildings.

This program provides exit points for those who wish to specialize in a specific area. Students must complete courses required for each individual exit point.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 633-8287.

Computer Electronics Technology (56230)

A SELECTIVE ADMISSION PROGRAM

The computer electronics technology program is designed to prepare individuals for employment in the computer and network support field. These individuals will be trained to install, configure, troubleshoot and repair computer systems and local area networks. The training includes preparation for various industry certifications as well as on-the-job internship.

Students enrolled in this program may be required to enroll in basic skills training depending on their scores on the Test of Adult Basic Education (TABE).

NOTE: Admission to this program is limited and based on meeting certain criteria. For information call 633-8289.

Correctional Officer (57100)

This program is designed specifically for entry-level job training for correctional officers to give students a basic understanding of the duties and responsibilities of the line correctional officer. In addition, it is designed to give the students an overview of the other related fields within the criminal justice system. Specific areas in which students will receive instruction include operational procedures, legal aspects of corrections, supervisory practices and related technical skills. NOTE: Basic skills may be required.

NOTE: Some of the correctional officer courses offered are restricted to individuals sponsored by law enforcement agencies, while others are FCCJ-sponsored and require students to take and pass the following: TABE test at 10.0 level, driving history, physical agility testing, drug screening, background investigations and oral interview. Students must also be 19 years of age, have a valid drivers license, be an American citizen and be sponsored by an agency or FCCJ.

NOTE: At the discretion of the director of the Public Services Program a waiver of prerequisites for this course may be obtained at the request of an agency or based upon the classes needed of an out-of-state officer entering into the Florida certification program.

Cosmetology (56240)

A SELECTIVE ADMISSION PROGRAM

Cosmetology at Florida Community College at Jacksonville is a certificate program. The 1,200 contact hours includes classroom theory and laboratory practice, requiring daily attendance. Students may choose to attend part-time Monday through Thursday evenings. After successfully completing a minimum of 1,200 program hours, students are qualified to take the cosmetology examination given by the Florida State Board of Cosmetology. Licensing and certification for immediate employment in the field is obtained by passing this examination.

Cosmetology is a lucrative, challenging and exciting career for individuals who are ambitious. FCCJ offers the staff, facilities and curriculum to assist students in developing the skills necessary to achieve success in the field.

Students entering this program may be required to enroll in basic skills training. This will be determined by the students score on the state mandated Tests of Adult Basic Education (TABE). Prospective students must be advised by a counselor or a cosmetology professor prior to enrollment.

This program is offered at North Campus during day and evening terms. For information call 766-5559.

Application

This is a selective access program that admits students in the fall, spring and summer terms. To be eligible for this program students must score at ninth grade or higher levels in reading, mathematics and language on the state mandated Test of Adult Basic Education (TABE). Students scoring below these levels will be required to take the appropriate basic skills classes to assist in meeting these minimum levels.

Applicants for the School of Cosmetology and Barbering are evaluated for admission on a ranking scale of 10-5. Position on the scale is determined by the Test of Adult Basic Education (TABE) score. The TABE must be taken prior to applying for either the cosmetology, barbering or nail specialist program. The official score is submitted with the application for admission. While not required for admission, credit will be given for related work experience and completion of high school or the General Educational Development (GED) Test as follows: .25 points per full year up to four years for work experience,.5 points for high school diploma and .25 points for completion of the GED.

Related work experience must be documented by former employer(s) on company letterhead stating term of employment and job duties. Official transcripts and GED scores, when applicable, must also be provided at the time of application.

Topics include clothing construction, garment fitting, pattern drafting, tailoring, fabric knowledge, pressing techniques, operation and maintenance of sewing machines, employment skills, and identification of entrepreneurship skills.

The purpose of this program is to train students for employment as tailors or dressmakers. Three exit levels are offered to allow students to complete the program with three skill levels (basic, advanced and master) and obtain employment in clothing stores, department stores, fashion design studios, tailor shops, and alteration shops, corresponding to these levels of program completion. Some students may eventually set up their own shop for dress making and/or custom tailoring.

Students entering this program may be required to enroll in basic skills training. This will be determined by their scores on the state mandated Test of Adult Basic Education (TABE). Prospective students should be advised by a counselor or a tailoring professor prior to enrollment.

This program is offered at Kent Campus during the day and evening hours. For information call 381-3555.

Dental Assisting (56490)

THE CAREER: Dental assistants are versatile members of the dental health team who work alongside the dentist. In many states, dental assistants are assigned patient care responsibilities beyond the duties traditionally performed by the dental auxiliary.

THE PROGRAM: This program provides students with the theoretical, practical and clinical skills including dental basic sciences, dental radiographic techniques, dental materials, sterilization and disease control, chairside assisting, office management, dental specialties and expanded duties. The dental assisting program has been approved by the Florida Board of Dentistry to offer certification in expanded duties and dental radiology. One class is admitted each August.

APPLICATION PROCEDURE: Submit the following:
1. proof of high school completion or GED,
2. completion of the Test of Adult Basic Education (TABE) with a minimum of a 10.0 score in reading, mathematics and language, and
3. completion of application form for dental assisting program.

Dietetic Management and Supervision (57410)

**Mission:** The Institute of the South for Hospitality and Culinary Arts is dedicated to the meaningful learning and excellent teaching that enables our students to achieve their full potential in the hospitality, dietetics and food service industries. Our long term goal is to empower students to become leading partners in a dynamic prosperous community.

The dietetic management and supervision program includes a minimum of 300 clock hours in the classroom/ laboratory and 150 clock hours in supervised clinical experience under the supervision of a registered dietitian. Typical duties of a dietary manager include:

1. understanding and addressing the clientele’s everyday nutritional needs,
2. hiring, motivating, training and supervising of subordinates,
3. balancing menu variety and appeal with planned cost/profit objectives,
4. consulting with a registered dietitian for specialized nutrition expertise, and
5. purchasing foods, goods, equipment and services.

This program teaches the skills necessary to work in the fields of residential and commercial electricity, as well as those required of an electrician in an industrial environment. Program content includes DC/AC theory, power and hand tools associated with the electrical trade, reading of blueprints and schematics, in-depth study of the National Electrical Code (NEC), residential wiring (new installations and remodeling), commercial wiring, industrial wiring and power distribution, electronic theory and industrial electronics components, relay logic for motors and controls, electrical maintenance procedures and troubleshooting techniques for motors, controls and other electrical equipment and systems, fundamental operation of programmable logic controllers (PLCs), PLC programming methods and techniques.

Approximately 70 percent of the training is “hands-on” using “real-world” equipment. Instruction emphasizes safety in all of the training environments (classroom, lab and shop).

This program is planned sequence of instruction consisting of four occupational completion points (OCP). The recommended sequence allows students to complete specified portions of the program for employment or to remain for advanced training. Students who complete the coursework associated with any occupational completion point may either continue with the training program or terminate as occupational completers.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test (TABE).
Students wishing to enter this program of study should be advised by the instructor or program manager prior to enrollment in these courses. For information call 766-5587 or 766-5588.

*Students who have satisfactory test scores are not required to take these courses.

**Environmental Services (57240)**

The purpose of this program is to prepare students for employment as environmental service providers or technicians for residential homes and institutions (hotels/motels, hospitals, nursing homes, campus buildings, and office buildings) or for advanced training in the environmental services industry. This program also provides supplemental training for persons previously or currently employed in the environmental services industry.

This program focuses on broad, transferable skills, stresses the understanding of all aspects of the environmental services industry, and demonstrates such elements of the industry as planning, management, finance, technical and production skills, underlying principles of technology, labor issues, community issues, and health, safety and environmental issues.

This program is a planned sequence of instruction consisting of two occupational completion points. The recommended sequence allows students to complete specified portions of the program for employment or to remain for advanced training. Students who complete the applicable competencies at either occupational completion point may either continue with the training program or become an occupational completer.

**Fire Fighting (57200)**

This program is designed to prepare students for certification and initial employment as firefighters in the state of Florida. Successful program completion will qualify students to take the state minimum standards written, oral and practical examination as administered by the Bureau of Fire Standards and Training.

**Application**

1. Applicants must have medical examinations on form FST-2.
2. Applicants must submit fingerprint cards for proof of good moral character.
3. Applicants must have an earned high school diploma or GED diploma.
4. Physical ability test will be required upon admission.

The above documents shall be submitted to the Florida State Fire College no later than 10 days after class starts.

Students are responsible for submitting these documents and all expenses that may be incurred.

**NOTE:** Students entering this program may be required to enroll in basic skills training. This will be determined by their scores on the state mandated Test of Adult Basic Education (TABE).

Floral Design and Marketing (56050)

This program is designed to prepare students for employment in the floral industry. The content includes, but is not limited to, planning and preparing floral designs, selling, buying, transporting, storing, advertising, and displaying floral goods and flower shop management.

Each of the six courses are supported by a well equipped lab containing modern technology such as an underwater floral cutter, electric floral stem stripper, and floral refrigerators. As students progress they will carry out lab projects designed to simulate the real world situations of most flower shops. Opportunities for working in local flower shops will also be offered to those who would like this option.

Approximately 70 percent of the training will be “hands on” with an emphasis placed on developing job skills necessary for working independently in the field with little supervision.

This program is a planned sequence of instruction consisting of occupational completion points. The recommended sequence allows students to complete specified portions of the program for employment or to remain for advanced training. Students who finish each class may continue with the training program or terminate as an occupational completer.

Students entering this program may be required to enroll in basic skills training. This will be determined by their scores on the state mandated Test of Adult Basic Education (TABE). Prospective students should be advised by a floral design professor prior to enrolling.

This program is offered at Kent Campus during the day and evening. For information call 381-3555.

Food Management, Production and Services (57400)

The program is a cluster consisting of the food and beverage preparation, kitchen and dining room helper and baker and cook’s assistant instruction. The program is designed to provide multiple completion points and prepares students for employment as food and beverage preparers, kitchen and dining room helpers or baker and cook’s assistants. The first completion point is food and beverage preparer, followed by a kitchen and dining room helper and, finally, the baker and cook’s assistant component.

Students learn sanitation and safety, proper receiving and storage of goods, care of facilities and equipment as
well as responsibilities and skills in the dining room service area. Students will be provided instruction in the preparation of salads and dressings, soups and sauces, starches and entrees, baked goods and desserts. Students may continue education for an associate in science degree in restaurant or culinary management.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the state mandated Test of Adult Basic Education (TABE). Prospective students should be advised by a counselor or program chairperson prior to enrolling. This program is offered at Kent Campus. For information call 381-3555.

**Gasoline Engine Service Technology (56330)**

This program is designed to prepare students for job entry as small engine technicians. Students learn tune-up, repair and troubleshooting of outdoor power equipment including edgers, lawnmowers, rider mowers, chain saws and trimmers. Students will be trained in the use of manufacturers’ manuals and procedures, parts identification, shop practices and customer service.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 766-5581.

Industrial Electronics (56360)

This program is designed to prepare students for a career in electronics. Graduates find employment in a wide range of electronics careers including office equipment technical services, computer systems maintenance, industrial process control, cable TV, electrical energy and aerospace industries. The courses are structured to provide students with general entry-level skills in many specialized areas of electronics technology through classroom and laboratory experience.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program director before enrolling in courses. For information call 633-8289.

Instrumentation Technology (56280)

This program of study is designed to provide students with the skills necessary to test, calibrate, and troubleshoot instrumentation measurement and control systems as well as electrical systems and equipment as instrumentation technicians.

Each of the twelve courses are supported by two well equipped instrumentation laboratories containing a full compliment of today’s modern measurement and control devices. In each course students will have the opportunity for “hands-on” with these devices and as they progress, will carry out lab projects designed to interface with actual process applications set up in an applications lab.

Approximately 50-60 percent of training offered will be “hands-on” with an emphasis placed on safety in all of the training environments, classroom, lab and shop.

Program topics include: DC and AC theory, industrial electronics, motors and controls, introduction to PLCs, fundamentals of measurement and control devices and systems, and applications of distributive controllers and graphics.

Basic entry-level skills in mathematics, reading and language must be attained prior to program completion.

Students wishing to enter this program should be advised by the instructor or program manager prior to enrollment in these courses. For information call 766-5587 or 766-5581.

**Law Enforcement (57911)**

This program is designed specifically to provide job training to give students the basic knowledge and understanding required to satisfactorily perform the duties and responsibilities of the police patrol person. Specific areas of instruction include constitutional and criminal law, criminal evidence, court organization and procedures, patrol procedures, criminal investigation, police community relations, traffic control, juvenile procedures, civil disorders, first aid, defensive tactics and firearms training.

PREREQUISITE: Some of the courses offered are restricted to individuals sponsored by law enforcement agencies, while others are FCCJ-sponsored and require students to take and pass the following: score at least a 12.0 in reading, language and mathematics on the state mandated Test of Adult Basic Education (TABE), driving history, drug screening, medical examination, polygraph, background investigations, agility testing and oral interview. Students also must be at least 19 years of age, have a valid drivers license, be an American citizen, meet the minimum requirements of a correctional officer or law enforcement officer and be sponsored by an agency or FCCJ.

NOTE: Upon successful completion of the law enforcement basic recruitment training students may receive up to 19 hours of college credit depending upon the program of study the student is enrolled in. For program #295 a student may receive 19 hours of CCJ electives, if a student is enrolled in program 239 they may receive as follows: CCJ 1020 Introduction to Criminal Justice (3 hours), CCJ 1220 Criminal Law, Evidence and Procedure (3 hours) and CCJ electives (6 hours).

NOTE: At the discretion of the Director of the Public Services program, a waiver of prerequisites for this course may be obtained at the request of an agency or based upon the classes needed of an out-of-state officer entering into the Florida certification program. For information call 646-2181.

**Life Insurance Marketing (57260)**

This program is jointly offered by FCCJ and the Jacksonville Association of Life Underwriters to prepare students to take the Life, Health and Annuities Agent’s Qualification State License Examination. The program consists of 40 hours of classroom instruction in life insurance, health insurance and annuities taught over a four-day period (usually Friday through Monday) twice a month. For information call 381-3466.

### Machining (56390)

This program is designed to prepare students for entry-level employment in the machinist trade. Work in this trade area includes but is not limited to lathe setup and operation, blueprint reading, drill press setup and operations, shaper work, uses and care of precision and non-precision measuring tools, setup and operations on vertical milling, and grinding.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 633-8287.

### Marine Service Technology (56400)

This program provides students with entry-level skills for employment as machinery mechanics, marine engines or outboard motor mechanics. The course content will include the following: service, repair and overhaul of four-stroke and two-stroke engines and outboard motors; and service and repair of boating accessories. Course content will also include electrical systems, fuel systems, power transfer systems, ignition systems, cooling systems, lubrication systems, drive systems and boat and trailer rigging.

Training is provided in various employability skills. An optional internship program is available to assist students in obtaining job experience.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by a counselor or the program director before enrolling in courses.

This program is offered at the Geis Center during day and evening hours. For information call 766-5578 or 766-5580.

**Medical Record Transcribing (56610)**

This program is designed to prepare students for careers in medical transcribing. The program’s content includes but is not limited to medical terminology, anatomy for medical transcriptionists, grammar and punctuation, health care delivery systems, health information services, ethical and legal responsibilities, safety/security procedures, word processing with transcription skills, and employability skills. Reinforcement of basic skills in English, science and computer keyboarding is included. Aptitude and interest assessments will be given at the start of the program.

Prior to admittance, the state mandated Test of Adult Basic Education (TABE) will be administered. To be eligible for admittance applicants must score the following: reading 10.0, mathematics 9.0 and language 10.0. Applicants must also take a keyboarding skills test and receive a score of at least 45 words per minute. For information call 633-8125.

**NOTE:** Students whose test scores are below the state standards for basic skills will be required to co-enroll in the appropriate VPI courses and their first course in this program. Students must obtain satisfactory test scores before enrolling in the second course in this program.

**Medical Secretarial (56170)**

This program offers a broad foundation of knowledge and skills expanding the traditional role of the medical secretary. The content includes the use of technology to develop communication skills, higher level thinking skills, decision-making skills, medical terminology, the performance of office procedures specific to the medical environment, transcription of medical documents from machine dictation, the production of quality work in an efficient manner using advanced features of business software applications, research of job opportunities, and the production of high quality employment portfolios and job-seeking documents.

The program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the medical secretarial industry: planning, management, finance, technical and production skills, underlying principles of technology, labor issues, community issues, and health, safety, and environmental issues.

**PURPOSE:** This program is designed to prepare students for employment as file clerks, general office clerks, secretaries, and medical secretaries and to provide supplemental training for persons previously or currently employed in any of these occupations.

**Medical Assisting (56480)**

A **SELECTIVE ADMISSION PROGRAM**

The object of this program is to prepare students for a career in the multi-skilled field of medical assisting, which includes instruction in the performance of administrative and clinical skills. The program is designed to prepare students to assist in all aspects of medical practice under the supervision of a physician, assist with client care management and execute administrative and clinical procedures, communicate effectively, adhere to ethical and legal standards of medical practice, and recognize and respond to client needs. Clinical experiences will be provided in physicians’ offices, ambulatory care centers, clinics, hospitals and hospital outpatient clinics.

**Application**

Applicants must be at least 17 years of age and have earned a high school diploma or GED diploma. Medical assisting is a selective access program. The program admits students once a year in the fall term.

An application for admission to the program must include the following:

1. an application to the medical assisting program,
2. a high school completion transcript or copy of General Education Development (GED) scores,
3. scores for the required pre-entrance test (TABE), (test is scheduled through the North Campus student affairs office, 766-6761), and
4. the ability to type 25 words per minute or familiarity with the computer keyboard.

For information call 766-6581.

Nails Specialty (57020)

A SELECTIVE ADMISSION PROGRAM
This program is for those students seeking certification in manicuring/pedicuring and nail extension. A certificate of completion enables students to qualify for state licensure in this specialty area.

The 240-contact hour specialty program which includes classroom theory and laboratory practice, requires daily attendance. This program is offered during the evenin

Admission
This is a selective access program that admits students in the fall, spring and summer terms. To be eligible for this program students must score at ninth grade levels or higher in reading, mathematics and language on the state mandated Test of Adult Basic Education (TABE). Students scoring below these levels will be required to take the appropriate basic skills classes to assist in meeting these minimum levels. Applicants for the school of cosmetology and barbering are evaluated for admission on a ranking scale of 10-5. Position on the scale is determined by the Test of Adult Basic Education (TABE) score. The TABE must be taken prior to applying for either the cosmetology, barbering or nail specialist program. The official score is submitted with the application for admission. While not required for admission, credit will be given for related work experience and completion of high school or the General Educational Development (GED) Test as follows: .25 points per full year up to four years for work experience, .5 points for high school diploma and .25 points for completion of the GED.

Related work experience must be documented by former employer(s) on company letterhead stating term of employment and job duties. Official transcripts and GED scores, when applicable, must also be provided at the time of application.

Patient Care Technician (57070)
The patient care technician program is a cluster of planned, sequenced instruction designed to prepare a cross-trained, unlicensed health care worker. With multiple exit points, the program consists of the following components: health careers core, nursing assistant, home health aide, patient care assistant, electrocardiograph aide, phlebotomist, allied health assistant, and patient care technician. Students are prepared to function as advanced patient care givers under the supervision of the registered nurse.

The health careers core is a prerequisite for all other components of this program. Following the core, each component must be completed sequentially, through the patient care assistant course. The electrocardiograph, phlebotomist and allied health assistant courses can be taken in any sequence. All courses must be completed in order to enroll in the patient care technician course. This program expands the traditional role of the nursing assistant, providing a broad foundation of knowledge and skills to be applied to the care of the patients in hospitals, nursing homes, and in their homes. For information call 766-6581.

## Plumbing Technology (56540)

This program is designed to prepare students for entry into the plumbing trade. Work in this area includes but is not limited to new construction, repair, remodel and service of initial installations or existing systems of piping and fixtures. Safety and proper work habits are stressed throughout this program.

This program provides exit points for those who wish to specialize in a specific area. Students must complete courses required for each individual exit point.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

Students in this program should be advised by the instructor or the program manager before enrolling in courses. For information call 633-8287.

Practical Nursing (56570)
A SELECTIVE ADMISSION PROGRAM
This program is designed to prepare individuals for employment in beginning positions providing direct care to clients in hospitals, nursing homes, private homes and other health care facilities under the supervision of a registered nurse or physician.

Upon successful completion of the program graduates are eligible to take the National Council Licensure Examination to qualify for licensure to practice as Licensed Practical Nurses.

Application
Practical nursing is a selective access program. The program admits students in the fall and spring terms. Applicants must be at least 17 years of age and have an earned high school diploma or GED diploma.

An application for admission to the program must include the following:
1. an application to the practical nursing program,
2. a high school completion transcript or copy of GED test scores,
3. scores of the required pre-entrance test (TABE), and
4. a current Basic Life Support (CPR) certificate (eight hour course).

Admission to this program is limited and is based on academic performance and other criteria. For information call 766-6581.

Surgical Technology (56670)

A SELECTIVE ADMISSION PROGRAM

The object of this program is to prepare students for a career as members of the surgical team in the operating room under the direct supervision of professional nurses and surgeons. The instruction includes a combination of classroom work and clinical experience in the operating room, recovery room and delivery room which prepares students to assist surgeons, anesthesiologists and nurses with client care and related services. Upon successful completion of the program, students are qualified to take a National Certifying Examination to become a Certified Surgical Technologist (CST). Particular emphasis is placed upon the skills involved in scrubbing and circulating during surgical procedures, and in the preparation and maintenance of sterilized and unsterilized supplies.

Application

Surgical technology is a selective access program. The program admits students once a year in the fall term. Admission to this program is limited and is based on academic performance and other criteria. Applicants must be at least 17 years of age and have an earned high school diploma or GED diploma.

An application for admission to the program must include the following:

1. an application to the surgical technology program,
2. a high school completion transcript or copy of GED test scores, and
3. scores for the required pre-entrance test (TABE).

Tractor and Trailer Body Repair and Refinishing (56550)

This program of study prepares students for entry-level positions within the transportation industry as trailer repair or cargo container repair technicians (0647.060301). The program of study emphasizes basic skills from the refrigeration, welding and diesel mechanic trades. A strong emphasis is placed on actual shop work during this program. The program content includes repair of trailer and cargo container units using various skills such as basic woodworking and steel fabrication; operation, diagnosis and repair of transport refrigeration units; maintenance and repair of diesel engines; electric generator sets and chassis alignment techniques. The curriculum also includes training in human relations, communications, leadership and employability skills. Safe, efficient work practices are emphasized throughout the program.

Students enrolled in this program may be required to enroll in basic skills training. This will be determined by their scores on the entry-level test.

‘Students in this program should be advised by the program manager before enrolling in courses. An optional internship program is available.

This program is offered at the Geis Center during day and evening hours. For information call 766-5580.

Travel Agency Operations (Travel Agent) (57010)

Mission: The Institute of the South for Hospitality and Culinary Arts is dedicated to the meaningful learning and excellent teaching that enables our students to achieve their full potential in the hospitality, dietetics and food service industries. Our long term goal is to empower students to become leading partners in a dynamic prosperous community.

This 450-hour program is designed to prepare students for entry-level employment in the growing and exciting travel/tourism industry. Students will gain experience on an IBM PC simulated system in how to make reservations for flights, hotels, tours and cruises. The course will cover essential topics such as travel agency office operations, tour sales, ticketing, geography and accounting. Students are required by the state of Florida to take the TABE test and score at or above the ninth grade level prior to enrollment or during the first week of class. Students with no keyboard experience will be required to complete a self-study keyboard program by the end of the first term. For information call 7665563. Students must complete all six courses to receive a certificate.

Continuing Education Courses

Through its continuing education program, FCCJ offers a wide variety of supplementary vocational training courses. These courses are offered throughout the community college district wherever the need exists and adequate facilities are available. Courses are taught in public schools, industrial plants, commercial office buildings, on all the campuses and centers of the College, and other suitable locations. The length and frequency of meetings for classes differ and are determined by the type and objectives of each course.

The primary purpose of these courses is to provide individuals with the training needed to upgrade or broaden their present skills and enhance their occupational opportunities. This training also provides the business and industrial community with trained personnel.

The College maintains close liaison with outside agencies to facilitate the educational and training needs of the community. These groups include: program advisory committees, professional civic and church organizations, governmental agencies, business and industry as well as various other groups.

A high school diploma is not required for enrollment in most supplemental courses, but students must be at least 16 years old.

Non-resident aliens may enroll in continuing education courses; however, the College will not issue immigration papers based on this enrollment. Non-resident aliens must pay out-of-state tuition for all classes except self-supporting classes.

College I.D. Cards (Standard)

Students enrolling in 12 credit hours or more on any FCCJ campus, the Urban Resource Center, Open Campus Deerwood Center, Geis Center for Marine and Industrial Technology, Betty P. Cook Nassau County Center or military base are required to have and carry FCCJ’s official I.D., the StarCard, while on College property. StarCards are optional for students enrolling in non-credit courses of 12 or fewer contact hours. The one-time cost for the initial photo I.D. is $5 and $10 for replacement cards.

StarCard centers are located at each campus and Open Campus Deerwood Center. Hours of operation are posted at the center or may be obtained by calling 632-3164.
Adult Studies

The adult general education department of FCCJ cooperates with numerous agencies to provide adult studies preparation, adult studies review (GED preparation), adult high school and home and family management courses, in the following locations: public and community schools, health and welfare facilities, civic and community clubs, business and industry and other adult agencies. 

Adults in the community have the opportunity to gray in basic knowledge, improve in home and community life, develop leadership and civic responsibilities, and expand in knowledge in general education. 

Adult studies programs are offered where there is community need and interest. Florida Community College at Jacksonville offers courses in locations throughout Duval County.

Many programs, courses and services are offered on a continuing basis. Short courses, in-service training programs and courses of specific interest may be initiated by request from individuals, businesses and groups in the community, based upon resources available at time of request.

Adult Studies Preparation

The adult studies preparation program of Florida Community College at Jacksonville is designed to provide basic academic skills instruction in the fundamental academic areas of reading, writing, arithmetic and the enhancement of workforce skills.

The primary focus of study may be on any one or more of the following general knowledge areas.
1. pre-vocational or employability skills development
2. improvements in the management of home and family life
3. use of financial resources and consumer education
4. social and civic responsibilities
5. use of community resources
6. health and safety education
7. human and interpersonal relations in the workplace
8. communication skills in the English language

Performance in these general knowledge areas will be based upon achievement in the following skill areas: reading, writing, speaking, listening, problem solving, computation and interpersonal relations.

The program provides supportive services for its students in the areas of guidance and counseling, testing, and specialized reading needs.

Enrollment in adult studies preparation classes is available to all adults who are 16 years of age or older and function below the ninth grade level on basic academic skills assessments.

Adult studies preparation classes are offered on FCCJ campuses and in adult centers located in schools, churches and other available community facilities throughout Duval County. Tuition cost to students is waived if they do not have a high school diploma or if they test below the ninth grade level.

Students who enroll in classes held on one of our four campuses, Urban Resource Center, Open Campus Deerwood Center, Geis Center for Marine and Industrial Technology or Betty P. Cook Nassau County Center will be required to pay a $5 student photo I.D. (StarCard) fee. Students should carry this I.D. at all times while on campus.

The adult studies department will award the following grade and certificates to deserving adult studies preparation students.

Adult Studies Preparation Grading System

The grading system is designed to evaluate the performance of students as fairly and equitably as possible.

Letter grades will be assigned for courses as follows:
S = Satisfactory

Certificate of Attendance

The certificate of attendance will be issued by the dean of instruction to those students with excellent classroom attendance. This certificate will be based on the recommendation of the instructor.

Certificate of Achievement

A certificate of achievement will be issued to students successfully mastering the competencies of level IA of adult studies preparation instruction.

Certificate of Completion

An adult studies preparation certificate of completion will be awarded to students who have successfully mastered all competencies of adult studies preparation instruction.

Adult Studies Review

The adult studies review program of FCCJ is designed to assist students in attaining an equivalent high school level of educational accomplishment. The program offers students the opportunity to successfully complete the GED test and earn a state high school equivalency diploma. 

Instruction is offered in the general education subjects of writing, social studies, science, literature and mathematics. The adult studies review courses provide foundation skills instruction at the ninth through 12th grade levels. Additionally, supportive services are provided in the area of advising, testing and computer-aided instruction.

Adult studies review classes are offered on FCCJ campuses and in adult centers located in schools, churches and other available community facilities throughout Duval County. Tuition fees to students who do not have a high school diploma and test above the eighth grade level are waived.

Students are encouraged to take the GED test after exhibiting mastery of course materials and successfully passing the GED practice examination.
High School Equivalency Diploma (GED)

The GED (High School Equivalency) examination is a battery of five tests administered on a regularly scheduled basis by Florida Community College at Jacksonville to individuals who are at least 18 years of age, out of school, citizens of the United States or resident aliens and Florida residents. Information on test registration may be obtained from any campus adult studies office or the adult and vocational assessment department. Guidelines for the registration fee are established by the Department of Education. Individuals who pass the exam receive a diploma from the State Department of Education.

Applicants who do not keep their GED examination appointment must repay the fee to reschedule another appointment. GED registration fees are non-refundable.

Adult High School

The adult high school program at Florida Community College at Jacksonville provides the opportunity for adults 16 years of age or older, who have withdrawn from public or private high school, to earn sufficient credits to receive an FCCJ high school diploma. The adult high school program also provides the opportunity for students enrolled in high school to earn credits to transfer back to their current high school. In addition, students who have already graduated from high school may earn credits in a specific subject matter for college admissions or other reasons.

Adult high school courses are offered during the day and evening hours at all FCCJ campuses and at selected community schools throughout Duval County. Tuition fees are waived for students who do not have a high school diploma. Textbooks are purchased by students, or they may use those available in the classroom or learning resources center.

The program provides supportive services for its students in the area of guidance and counseling, testing, computer-aided instruction and specialized -reading, writing and mathematics courses. Additionally the program allows students to make progress toward the attainment of high school credits at their own pace.

Students who enroll in classes held on one of FCCJ’s four campuses will be required to pay a $5 student photo I.D. (StarCard) fee. Students should carry this I.D. at all times while on campus.

Adult High School Admission Requirements

STATUS A - Applicants 18 years and older will be admitted to the FCCJ high school completion program to seek an FCCJ adult high school diploma by submitting the following.

1. completed application for admission
2. Social Security number
3. proof of previous education (Applicants may transfer credits earned from grades nine through 12 and be placed into appropriate courses to meet the credit requirements for graduation. Official transcripts, grades earned and other documents can be submitted for specific course placement.)

STATUS B - Students who will transfer credit back to present high school must submit the following.

1. a completed application for admission
2. Social Security number
3. permission letter (A letter on letterhead stationery from the principal or counselor is required each time applicants enroll. This should indicate which subject(s) are approved for transfer credit back to the high school students are attending.)

STATUS C - Students who are already high school graduates but who need credit for a specific reason (e.g., seeking admission to FCCJ’s nursing program but lack a chemistry credit) must submit the following.

1. a completed application for admission
2. Social Security number
3. course fees (Students must pay fees for courses taken.)

Adult High School Grading System

The grading system is designed to evaluate the performance of students as fairly and equitably as possible.

Letter grades will be assigned for courses as follows.

A = 94 percent - 100 percent
B = 85 percent - 93 percent
C = 77 percent - 84 percent
D = 70 percent - 76 percent
I = Incomplete
NP = Non-punitive
W = Withdrawal
S = Satisfactory*

*This grade applies only to college preparatory students (see below, “College Preparatory Program”).
Once a grade of "A," "B," "C," "D" or "NF" in a course has been reported to the registrar, it may be changed as follows.
1. upon recommendation of the instructor who assigned the grade with approval of the program coordinator.
2. upon recommendation by the program coordinator and approval by the instructional dean when the instructor who assigned the grade is no longer a member of the faculty.

An "I" grade may be assigned only when extenuating circumstances prevent students from completing the coursework during the regular term. To be eligible to receive an "I" grade, students must have completed at least three-fourths of the coursework.
The "I" grade may be changed by the instructor to "A," "B," "C," "D" or "NP" within the time limit indicated in the College calendar.
Students registered in high school classes but not earning high school credit will receive an "NG" (no grade).

*Adult High School Diploma Requirements*

The Florida State Department of Education has established that adults can progress and earn credit(s) within their own time frame. Thus, adults may complete credit requirements as rapidly as they are able to prove their mastery of skills.
A minimum of 24 unduplicated credits, grades nine through 12, is required for an adult high school diploma. The credit requirements are as follows..

1. English, four credits
   a. English courses must include major concentration in composition and literature
2. science, three full credits
   a. laboratory courses, two full credits
   b. non-laboratory courses, one full credit
3. mathematics, three credits
   a. mathematics courses must include Algebra I or equivalent (see your adviser)
4. social studies, three credits
   a. American history, one credit
   b. world history, one credit
   c. American government, one-half credit
   d. economics, one-half credit
5. study skills, one-half credit
6. career explorations, one-half credit
7. life management skills, one-half credit
8. practical arts, vocational education/exploration vocational education, one-half credit and performing fine arts, one-half credit or one credit in either area
9. electives, eight and one-half credits

*Graduation Requirements*

To graduate students must:
1. complete 24 credits: 15.5 credits of general course requirements and eight and one-half credits of approved electives,
2. complete a minimum of two full credits at FCCJ,
3. receive a passing score on the High School Competency Test (HSCT), or equivalent state approved assessment
4. acquire a minimum cumulated GPA of 2.0 (see state student performance standards),
5. be classified as admission status "A"
6. apply for graduation with adult studies adviser.

*Graduation and course requirements may change. Please be sure to check with your adult studies adviser and refer to the state student performance standards listed in this section.

**College Preparatory Program**

College credit students needing assistance in successful completion of the College Placement Test can enroll in specifically designated adult studies courses or programs. Students should see their college credit adviser for appropriate referral.

**State Student Performance Standards**

All students must pass the Florida High School Competency Test (HSCT) and/or other state mandated tests prior to graduation.

No student shall be granted credit toward a high school diploma for enrollment in the following courses or programs.

1. more than nine elective credits in remedial programs as provided for in FS* 236.0841 and remedial programs as provided for in FS* 232.246(8)(a) (Students entering the ninth grade in 1997/98 may not use the level one courses to meet graduation requirements.)
2. more than one-half credit in exploratory vocational courses as defined in FS* 228.041(22)(a)(2)
3. more than three credits in practical arts home economics as defined in FS* 228.041(22)(a)(4)

Students enrolled in the adult high school program in pursuit of the high school diploma after the beginning of the 1978 - 79 school year and before the 1984 - 85 school year are required to meet only those requirements for graduation that were in effect at the time of their enrollment when such enrollment has been continuous except for summer terms.

Students enrolled prior to the 1997 - 98 school year in the adult high school program have two options in pursuit of the high school diploma. Students have until the end of Spring/Summer Term 2003 to graduate, using level one courses to satisfy graduation requirements using one of the following two options.

**Option 1:** Earn a cumulative 1.5 GPA on a 4.0 scale in those courses taken prior to July 1, 1997, and earn a cumulative 2.0 GPA on a 4.0 scale for courses, which are taken after July 1, 1997, that apply to the 24 credits required for high school graduation as specified in subsection (1) of section FS* 232.246, or

**Option 2:** Earn a cumulative 2.0 GPA on a 4.0 scale for courses that apply to the 24 credits required for high school graduation as specified in subsection (1) of section FS* 232.246.

For students entering the ninth grade for the first time in the 1997 - 98 school year and thereafter, a cumulative GPA of 2.0 on a 4.0 scale is necessary to graduate from high school as specified in subsection (1) of section FS* 232.246.
It is the students’ responsibility to schedule and participate in an exit interview with an adult studies adviser and make application for graduation after they have completed requirements. Before students may graduate, they must have fulfilled all financial obligations to the College.

*Florida Statutes

**Military Service Credits**

Individuals who have been admitted to FCCJ's adult high school completion program may request an evaluation of military educational experience and service by submitting documentary evidence to the campus registration office.

**Dual Enrollment and Honors Courses**

FCCJ's adult high school program offers dual enrollment courses which enable qualified students to earn college credit and fulfill their high school credit requirements simultaneously. Some students may earn high school honors credits for the successful completion of a college credit dual enrollment course. To participate in dual enrollment and for approval for enrollment, students must see the adult studies adviser. Eligible students may register for a maximum of eight college credit hours each term.

In order to qualify, students must submit to the adult studies adviser the following:

1. a dual enrollment application
2. written recommendation from two adult high school faculty
3. required scores on the Florida College Entry Level Placement Test (FCELPT), College Placement Test (CPT), SAT or ACT for college credit or Test of Adult Basic Education (TABE) for vocational non-credit
4. an FCCJ transcript reflecting a grade point average, on a 4.0 scale, of a 3.0 for college credit or 2.0 for vocational dual enrollment, a minimum of 13 high school credits, and previous mathematics credits and grades

Upon successful completion of the approved course(s), students will earn the equivalent high school credit. College credits will be awarded after proof of high school graduation has been submitted to the College’s registrar.

**High School Assessments**

The Florida High School Competency Test (HSCT) or equivalent state approved and/or other state mandated tests are required for high school graduation. Information and applications are available in the adult studies office on any campus.

Credit by examination is available in a variety of high school academic subjects. Credit by examination is administered at the discretion of adult studies faculty after enrollment in the appropriate course.

**Enrollment Verification**

To be certified as full-time students in the adult high school program, students must be enrolled in at least 20 clock hours per week.
Special Programs

Golden Opportunities for Lifelong Development (G.O.L.D.)

G.O.L.D. is designed to meet the needs of adults aged 55 and older. Non-credit courses are offered in locations throughout the community with particular emphasis on the interests and concerns of older adults. Additionally, computers for seniors courses are offered at the FCCJ campus locations. For information call 632-3324.

Widowed Persons Program

This program is designed to help widowed individuals take that first step toward reaffirming life after the loss of a spouse. “Opening Doors for the Widowed” is an eight-week non-credit adult studies course that meets at various locations through the Jacksonville area. Course topics include dealing with emotions, managing stress, legal and financial concerns, living alone, building a new social network, career and volunteer opportunities, personal safety, and the healing process. This course offers a mutual self-help approach to coping with grief and the meeting of challenges for a new future. For information call 632-3324.

Independent Living for Adult Blind (ILAB)

ILAB is an instructional program for adults who have visual impairments or are blind. The home management/personal safety course is modularized, allowing students to elect various components according to need. In home management, students are taught skills necessary to maintain a home effectively. In the communications component, students may learn braille, typing, use of handwriting aids and appropriate electronic equipment. Access to computers has been added to provide students training on the utilization of adaptive technology and software (such as ZoomText and Soft Vert). Personal safety is emphasized in orientation and mobility training, which allow individuals who are blind to move about safely and master skills necessary for independent travel. Counseling is also available for students and their families. For information call 633-8220.

FCCJ Rosanne R. Hartwell Women’s Center

The FCCJ Rosanne R. Hartwell Women’s Center is located at the Downtown Campus, 101 W. State St., Room 3106. Grant funded programs include Challenge: the Displaced Homemaker program, Reach the Heights, the Gender Equity program, and Bosom Buddies. The Center offers two monthly luncheons, the Women’s Information Exchange and Career Information Exchange, with speakers on topics of interest to community, business and professional women and men. A current listing of program activities, support groups, workshops, mini-courses, special events and scholarships available can be found in the Center’s monthly newsletter, Portfolio, which is widely distributed in the community. All programs are available to members of the community as well as FCCJ students. For more information call 633-8311.

Challenge: The Displaced Homemaker Program

Challenge: The Displaced Homemaker program is a uniquely designed program for displaced homemakers. A displaced homemaker is defined as an individual who:

1. is 35 years of age or older,
2. has worked in the home, providing unpaid employment,
3. is not adequately employed,
4. has had or would have difficulty securing employment, and
5. has been dependent on the income of another family member but is no longer supported by such income or has been dependent on federal assistance.

Challenge provides a program designed to build self-esteem and includes career assessment, goal setting and decision making skills, resume writing, interview rehearsal and help with education or job re-entry.

Challenge advisers are located in the Women’s Center, Downtown Campus, 101 West State St., Room 3106. Program availability is subject to continued funding by the Florida Department of Education, Division of Community Colleges. For information call 633-8316.

Reach the Heights

Reach the Heights is located in the Women’s Center, Room 3106, on Downtown Campus.

This program is for single parents, displaced homemakers and single, pregnant women who meet economic eligibility criteria and who want to enter associate in science degree programs or post-secondary certificate vocational training programs which lead to higher wages.

Assistance available for qualified individuals may include tuition, books and supplies, child care, transportation, career counseling, vocational assessment and support groups.

Program availability is subject to continued funding by Carl Perkins, a federal grant. For information call 633-8390.

Gender Equity Program

The Gender Equity program is located in the Women’s Center, Room 3106, Downtown Campus.

This program is designed to assist students entering training for an associate in science degree or post-secondary training certificate for a nontraditional career. Non-traditional careers for women are defined as those jobs in which the total number of workers includes fewer than 25
percent women. Nontraditional careers for men are those in which fewer than 25 percent of the workforce is composed of men.

Both financial assistance and support services are offered. Financial assistance may be in the form of tuition, books, child care and/or transportation. Support services include support group meetings, vocational assessment and career counseling. For information call 633-8390.

Bosom Buddies Program

The Bosom Buddies program is located in the Women’s Center, Room 3079, Downtown Campus.

Bosom Buddies was founded in 1988 to provide education and emotional support to breast cancer survivors and heighten the awareness of women at high risk.

An information resource center is located in the Bosom Buddies office at the Women’s Center. Women are encouraged to visit, receive personal support and take home educational material about breast health care and breast cancer.

Bosom Buddies maintains a telephone “heartline,” participates in health fairs, provides speakers for civic organizations, makes hospital visits and conducts two monthly self-help classes for women with breast cancer.

The Bosom Buddies program is funded by grants and donations. For information call 633-8246.

Continuing Education Programs for Nurses

Numerous nursing education programs are planned to meet the educational needs of nurses by updating knowledge and skills required for current practice. These courses are designed to enhance the quality of nursing care provided to the public.

Nursing practice is based on a continuously expanding body of experience, knowledge and skills which prepare nurses to function effectively as members of the health care team.

Reassessment of learning needs and ongoing evaluation of the current offerings are the basis for future program development. Topics and locations will vary to meet the diverse needs of the nursing community. For information call 766-6581.

Continuing Education for Applied Design and Marketing

The department of applied design and marketing offers many non-credit courses for developing and/or increasing knowledge and skills. Classes, workshops and seminars are designed to meet the needs and interests of the community. These include beginning clothing construction to the most advanced; drapery, window treatments and home accessories; crafts, quilting, upholstery, flower arranging, interior design and nutrition, to name a few. Foods courses are held in conjunction with the Heart and Lung Institute of St. Vincent's Medical Center. For information call 381-3555.

Continuing Education

A variety of non-credit courses are offered through two very popular program series: the Professional Development Series and the Self Enrichment Series. Brochures are available for a wide variety of courses that provide new skills, help develop new and exciting interests and offer opportunities to have fun while in pursuit of lifelong learning goals. For information call 633-8292.

Teleconferencing

Since 1984, FCCJ has been a leader in providing Northeast Florida with quality teleconferencing services. These electronic meetings link audiences to prominent speakers and experts throughout the region, across the continent and around the globe.

FCCJ sponsors special teleconference events featuring local speakers, panel discussions, workshops and networking sessions on such topics as Insurance, Health Care, Law, Education, Computers, the Internet, and the Environment.

FCCJ is part of a statewide network of over 30 satellite downlink sites and offers C- and Ku-Band downlinking, off-satellite taping, a variety of local meeting sites for large and small groups, catering, event planning and registration assistance, large screen projection, direct phone lines and fax machines, expert technical support and a trained staff. For information call 633-8312.

Community Education

The adult studies department offers courses to meet the educational needs of adult groups in the community.

Requests for courses designed to meet the special needs of our changing community are welcome and encouraged. Consideration for such courses is based upon the level of instruction, the number of people interested and the availability of resources and qualified instructional personnel at the time of the request.

Adults desiring to enter community education classes or programs should apply in person at the center or campus offering the subjects of their choice or call the adult studies department at 633-8421.

Vocational Preparation Instruction

Developmental education is offered to non-credit students at various locations. The goal is to assist students who need additional help in an academic area to reach their educational goals. Program strategies include:

1. reading courses that may be taken for high school credit or self-enrichment,
2. individualized instruction in reading,
3. tutoring and
4. diagnostic and prescriptive teaching in the Vocational Preparatory Instruction (VPI) labs and classes in the areas of mathematics, English and reading. For more information call 633-8360.
Operation Career Builders

Operation Career Builders is located at the Downtown Campus in Room A-2100.

Operation Career Builders is a cooperative effort by FCCJ, the local building trades and the health and business communities to recruit individuals 18 years of age or older into a combined GED/VPI/exploratory vocational program. The project is designed to attract and retain students by placing them in vocational exploratory programs while completing preparatory instruction or their GED diploma.

The program offers the following.
1. GED/VPI studies
2. 150 hours of exploratory classes in business/computer technology and health-related occupations
3. assistance with registration for vocational classes in the building trades
4. TABE testing and vocational assessment
5. career advising and financial aid, assistance
6. employability skills training

Program availability is subject to continued funding through Carl Perkins, Vocational and Applied Technology Act of 1990. For information call 633-8268.
The goals of student services are to:
1. provide direct services, consultation, training and educational programs necessary to support students in the pursuit of their educational goals and
2. promote, in concert with other College professionals, the student outcomes of self-direction and clear purpose.

Student Development Outcomes

The department of student affairs is committed to the facilitation of two key student development outcomes. **Self-direction** relates to the responsibility to act in a self-reliant manner, based upon one’s own thinking and self chosen values. **Clear purpose** involves the selection of personal, educational and career objectives based upon a clear understanding of one’s goals, values, motives, resources and commitments. The services offered by student affairs are consciously designed to promote these two outcomes. The department also makes an active effort to promote these outcomes throughout the College and within the curriculum.

ALERT Program
(A Learning Enhancement and Student Tracking system)

ALERT is a College program designed to work for and with students. A primary element of ALERT is the advising and retention information sheet completed by students with the FCCJ admissions application. The collected data generates an ALERT orientation student profile permitting counselors and faculty to provide individualized assistance, focused upon students’ goals and concerns. Students requiring academic assistance are identified early in the term by ALERT for intervention by committed and qualified FCCJ staff. The many College resources available to students in need for academic guidance is communicated through a personalized student referral letter, produced by faculty, informing students of their academic status. ALERT enables students to reach self-estimated goals and expectations by using College resources to achieve academic success. ALERT is a student tracking system to make-the student at FCCJ a first priority.

Admissions

Admissions services are provided by the office of enrollment services. These services relate to the marketing of FCCJ programs, providing pre-enrollment information, recruitment of students and assisting students in applying for College.

Enrollment services personnel facilitate the entry or re-entry of students into the College and help ensure that the application and admissions processes are smooth. Students are encouraged to visit a campus enrollment services office for personalized service in making the transition to college.

College ID Card

FCCJ has an official photo identification card for students, faculty and staff called the **StarCard**. Students need the StarCard to use College facilities such as computer labs and student activity centers, and to check-out materials from FCCJ’s learning resources centers. Students can also use the StarCard as an ATM card through membership in the Educational Community Credit Union (ECCU) and as a long distance calling card through Sprint Communications (subject to acceptance of terms and conditions offered by ECCU and Sprint).

All FCCJ students are required to carry their StarCard whenever on campus and may be asked to present their StarCard to campus security officials upon request as proof of enrollment. There is an initial, one-time charge of $5 for the StarCard. Lost or stolen StarCards must be replaced at a cost of $10. The StarCard can be obtained at any campus I.D. center.

Academic Planning

Counselors and advisers are available to assist students with the achievement of their academic goals. Academic advising is available to help students identify appropriate courses, select majors, select transfer institutions and assist with academic problems. Students are encouraged to seek advisement on a regular basis in order to achieve their educational objectives. Appointments may be scheduled through the counseling and advising center on each campus.

Counseling

Academic and personal counseling services are available within each student affairs office. Students are encouraged to consult with counselors to discuss issues relating to student life, interpersonal relations, study skills or any life coping concerns which may relate to their college experience.

Career Planning

As a part of the College’s role of helping individuals reach their full potential, career planning services are offered through the student affairs office on each campus.

Services available in the career planning centers include:
1. career related aptitude, interest and temperament testing,
2. career research (with current information on occupations, job requirements and career opportunities),
3. computerized career planning, (an easy-to-use computer system that helps students with career decisions),
4. Career Options (self-directed, step-by-step career planning) and
5. career counseling, courses (SLS 1301 Career Planning and the World of Work, SLS 1401 Computerized Career Exploration and SLS 1933 Special Topics - Independent Study in Career Planning), workshops and seminars.
Students who are undecided about their future career plans are encouraged to make an appointment with a counselor to begin the career planning process.

**Student Employment Services**

Student employment services assumes the responsibility of helping students make a smooth transition from college to meaningful employment. In addition to helping students and graduates locate jobs, student employment services helps students develop the skills necessary for successful job hunting and job selection.

**Special Services for Students With Disabilities**

For information on any program, call 766-6767 (voice) or 766-6766 (TDD).

**Auxiliary Aids Program**

Students should contact the disabled student specialist on the campus they plan to attend or call disabled student services at 766-6767 (voice) or 766-6766 (TDD). Available free services include:

1. tutorial services,
2. reader services,
3. interpreter services,
4. notetaker services,
5. availability of special considerations (including testing), and
6. substitute courses or CLAST waiver for graduation.

**Course Substitution**

Students with disabilities who experience difficulty in their coursework should contact the disabled student specialist for assistance. If the disability interferes with the performance in the course, even with assistance, students may request a course substitution. Students submitting such a request should contact any campus dean of student affairs for the forms and procedures. All requests must be accompanied with appropriate documentation.

**College Level Academic Skills Test (CLAST)**

Students needing assistance or a waiver on the CLAST may do so as outlined under the CLAST section page 32, under general index.

**Articulation Issues:** Universities are required to admit community college students with A.A. degrees. They are not required to accept substitutions in the case of limited access programs. For the students’ benefit, the College should work with the appropriate university to inform students of limited access program requirements and other requirements beyond transfer and graduation (i.e., CLAST for students exiting four-year programs in education is a requirement for applying for teacher certification in Florida).

**Vocational Services Program**

This course requires prior approval in advance of registration. For information call 766-6767 (voice) or 766-6766 (TDD).

BED 0070 Career Planning for Students With Disabilities, provides specialized aptitude, interest inventory and career exploration for disabled individuals.

**Independent Living for Adult Blind (ILAB)**

These courses require prior approval in advance of registration. For information call 633-8220.

1. HEC 0125 Home Management/ILAB - A rehabilitation program for individuals who are visually impaired. Instruction includes orientation and mobility, activities of daily living, communications and counseling.
2. BED 0518 Keyboard Skills/ILAB - This course prepares visually impaired students to access computers through speech output and large print display. Software programs of ZoomText and Soft Vert are taught.

**The Black Student Success Office (BSSO)**

The office’s mission is to provide a comprehensive recruitment and retention program for black students. These programs focus on providing assistance and information to black students who wish to enter and complete college. The office provides linkages with other college offices including admissions, student aid, scholarships, student employment, disabled student services, and academic and career planning. The office sponsors and/or co-sponsors the following programs and activities: College Reach-Out, Format for Affecting Minority Enrollment (FAME), Gaining Resources and Developing Skills (GRADS), Student Ambassadors, Community Mentorship, Jubilee Singers, Black History Month, and The Peer Counseling Conference. Additionally, the black student success office is a resource center for black students needing information about transferring to upper division colleges and universities.

**Campus Enrollment Services Office**

The campus enrollment services office provides information regarding admissions, student financial aid, veteran certification, and the records, registration and graduation processes. College applications can be obtained from each campus enrollment services office. The office also accepts transcript requests for both academic and financial aid and registers individuals for the GED test.

**Special Testing Services for Students With Disabilities**

Students should contact the disabled student specialist on the campus they plan to test if special testing accommodations are necessary.
Campus Testing and Assessment Centers

Credit-By-Examination

Students may earn up to 45 semester hours credit toward an associate’s degree through credit-by-examination. This may be a combination of Advanced Placement (AP), College Level Examination Program (CLEP), DANTES subject standardized tests and/or transfer credit. Credit not counted within this 45-hour limit may be obtained by participation in the Proficiency Examination Program (PEP). For more information regarding the following tests, contact the campus testing and assessment center.

Advanced Placement Test (AP) is a nationally developed program for acquiring college credit while enrolled in high school. The test is administered through the high schools, and credit is granted for scores of three, four or five on approved tests. Fees are set by the College Entrance Examination Board.

College Level Examination Program (CLEP) is a nationally developed program for credit-by-examination. Credit may be granted for scores at or above the 50th percentile on approved tests. Fees are set by the College Entrance Examination Board. The test is administered by appointment to currently enrolled FCCJ students at any campus testing and assessment center.

International Baccalaureate Program (IBP) is an internationally developed program for acquiring college credit while enrolled in high school. Credit is granted for designated scores on individual tests or for the IBP diploma.

Proficiency Examination Program (PEP) is Florida Community College at Jacksonville’s program for awarding college credit by examination. The tests are administered by FCCJ three times per year. Fees are set by the FCCJ District Board of Trustees. Test fees are listed in the “Earn College Credit by Exam” brochure. Students may register for the tests at any campus testing and assessment center.

Subject Standardized Test (SST) is a program developed by the Department of Defense for awarding credit by examination under the auspices of Defense Activity for Non-traditional Educational Support (DANTES). Military personnel may obtain information, applications and a list of approved tests from the Navy Campus for Achievement (NCFA) offices on local Navy bases or education offices in other branches of the military service. Fees are set by DANTES. Non-military students may contact the campus testing and assessment centers for information concerning registration, tests and fees. Students may submit credit earned through DANTES for Florida Community College at Jacksonville credit evaluation through the Kent Campus academic assessment office. Approved tests are listed in the “Earn College Credit by Exam” brochure, and credit is awarded for scores at or above the 50th percentile as approved by the State Board of Education.

College Credit Entry Placement Testing

FCCJ’s academic assessment office administers the American College Test (ACT) on nationally scheduled test dates. Information on this test may be obtained from any campus testing and assessment center.

In certain FCCJ programs (allied health, for example), an academic skills test may be required. The California Achievement Test (CAT) is one such test. The program adviser for each program has information on these test requirements.

Course placement testing is required of new degree-seeking college credit students in order to assist them with course selection. Non-degree-seeking students planning to take English, reading or mathematics must also be tested. FCCJ utilizes the Computerized Placement Test (CPT) and companion as its course placement test. The tests include subtests of English, reading and mathematics skills.

FCCJ also accepts scores for the ACT and SAT. These scores may exempt students from further testing. Students should have an official copy of test scores sent to the address listed below at least three weeks prior to registration for classes.

FCCJ Academic Assessment Office
Kent Campus, Room A-104
3939 Roosevelt Blvd.
Jacksonville, FL 32205-8999

Information is available from any campus testing and assessment center.

Test of Adult Basic Education (TABE)

The Adult and Vocational Assessment Department administers the state required TABE to those individuals enrolled in vocational certificate programs of 450 or more contact hours. The TABE is also a state requirement for those entering selected adult studies, programs.

Other Testing Services

High school competency testing is required of high school completion students. Refer to the high school completion section of this catalog for further details. For information contact FCCJ’s Adult and Vocational Assessment Office, Urban Resource Center, 601 W. State St., Jacksonville, FL 32202 or call 632-5006.

College-Level Academic Skills Test (CLAST) is a statewide test of college level communication and computation skills developed by the state of Florida.

Refer to the “Associate in Arts Degree” section for a more detailed description.

Registration and additional information on CLAST is available at any campus testing and assessment center.

Career testing is available at each campus. Aptitude, interest and personality tests are available which can provide information useful to career decision making. Contact the campus career development counselor or adult and vocational assessment for further details.

Community service testing is provided for the following examinations.
**ACT-PEP** is a national program to provide credit by examination. Credit for this exam is accepted by FCCJ on approved tests. Information for the ACT-PEP may be obtained at the academic assessment office.

**Adult and Vocational Assessment Department**

The Adult and Vocational Assessment Department offers the following testing services. A brief description of each test is provided. For information call 632-5006 unless otherwise noted.

**Test of Adult Basic Education (TABE)**

The Adult and Vocational Assessment Department administers the state required TABE to those enrolled in vocational certificate programs of 450 or more contact hours. The TABE is also a state requirement for those entering selected adult studies programs.

**Automotive Service of Excellence Certification (ASE) tests** are administered twice annually to automotive technicians meeting the requirements for certification or recertification.

**The Florida High School Competency Test** is required of high school completion students. Refer to the high school completion section of this catalog for further details.

**The GED (General Educational Development) Examination** is a battery of five tests administered at each college campus on a regularly scheduled basis to individuals who are at least 18 years of age, out of school, citizens of the United States or resident aliens and Florida residents. Information on test registration may be obtained from any campus Adult Studies Office or the Adult and Vocational Assessment Department at 632-3141.

**Institutional Testing** is provided to those individuals who need secure testing conditions, such as testing for a correspondence course. Arrangements for testing services and fees must be made through the Adult and Vocational Assessment Department in advance of the testing date.

**The Nursing Assistant Certification Examination** is given to individuals seeking state certification in the nursing assistant profession. Registration for the test is through Assessment Services Inc. (ASI). For information and registration call 1-888-204-8250. There is both a written and skills based assessment, which is administered on a regular basis at North Campus.

**The Optional Child Care Pre-test** is an optional state-developed exemption test designed for those employed in child care settings who are required to complete the HRS 20-hour child care worker training course. The exemption test can be taken only once and covers the following four modules:

1. state and local rules and regulations which govern child care,
2. health, safety and nutrition,
3. child abuse and neglect - identifying and reporting, and
4. child growth and development - birth through 12 years old.

Child care personnel can be exempt from any of the four training modules by successfully completing the module pre-test with an 80 percent or better score.

**Accredited Record Technician (ART) and Medical Record Coding Specialist (CCS and CCS-P) Certifications** are administered by the adult and vocational assessment department to individuals seeking professional licensure. The tests are given annually. For more information, contact Applied Measurement Professionals, Inc. at (913) 541-0400.

**ACT Citizenship Test** is administered to individuals who are lawful permanent residents of the U.S. and want to become citizens. The individual must pass a multiple choice test about U.S. history and government and a written dictation in English.

**American Council on Exercise (ACE) tests** are administered annually for aerobics instructors, personal trainers and orthopaedic technologists.

**Certified Professional Food Manager Certification** is a professional stamp of approval for individuals working in the food service industry. The test is administered upon request of the culinary arts department.

**Federal Communications Commission (FCC) is a vocational exam administered monthly to commercial radio operators for licensing.**

**Florida Food Manager Certification Examination** is administered by the adult and vocational assessment department to managers in establishments serving the public so they may be certified to help protect everyone’s health, safety, and welfare. This exam requires a fee. For information call (813) 974-l 525.

**Florida Teacher Certification Exam** is administered four times a year. Application packages can be picked up at the Urban Resource Center in Room 102.

**Keyboarding** skill assessments of speed and precision are administered on an on-going basis.

**National Securities Examination** is administered by the adult and vocational assessment department to individuals working in the financial industry as stockbrokers and financial planners.

**Nursing Certification Examinations** are administered twice annually for enterostomal therapy nurses, wound care nurses, ostomy care nurses and continence care nurses.

**Official Practice GED Exam** is given to individuals who are not students at FCCJ and are studying for the GED on their own. The exam is administered, for a minimal fee and upon request at the Urban Resource Center.
Student Aid

Student financial aid assistance is made available from federal, state, private or institutional sources. Depending upon the type of aid, eligibility is determined by one or more of the following factors: financial need, academic achievement, disability and/or special talent. To be eligible, students must submit applications each year and maintain satisfactory progress. Minimum standards of progress for financial aid students are the same as for the general student population. See previous section on "Standards for Student Success." There are many types of financial assistance offered at FCCJ, including grants, loans, work programs and scholarships. Assistance is provided without regard to race, sex or age.

**Grants** are financial aid awards not requiring repayment. Loans must be repaid and include interest. Repayment usually begins shortly after a student graduates, leaves school or drops to less than half time attendance.

**Work Programs** allow students to work and earn money to help pay for school. Some work programs are based on financial need, others are not.

**Scholarships** are awarded based on academic achievement, financial need and/or other criteria.

**Talent Grants** pay tuition and fees for students who demonstrate outstanding talent or ability in a specific area.

The free application for federal student aid is used to determine eligibility for federal financial aid. Students should apply early, preferably by March 15. When requesting aid from federal sources, students may be required to provide documentation. Financial aid transcripts are also required for each college previously attended even when no aid was received. It takes approximately six weeks to process an application and make an award.

To be eligible for federal financial assistance, students must be enrolled in a college credit program or an eligible vocational program. Eligible vocational programs are listed in this catalog and require 600 or more contact hours. Students admitted under the following classifications are NOT eligible for financial aid: special student, non-degree-seeking, accelerated college, audit, early admission, dual enrollment and international student (F-I Visa).

Application forms, brochures and handbooks providing more specific information are available for pickup at each of the campus enrollment services office or by mail via the College’s Information Center, FCCJ Open Campus Deerwood Center, 9911 Old Baymeadows Road, Jacksonville, FL 32256.

Veterans Affairs

Veterans benefits are a form of student aid awarded to eligible individuals based on their military service. There are currently five programs provided under Title 38 of the United States Code which authorizes payment of educational benefits to eligible individuals.

**Chapter 30 - New GI Bill** - members of the armed forces who entered active duty for the first time after June 30, 1985.

**Chapter 31 - Disabled Veterans** - members having a service-connected disability which entitles them to veteran compensation.

**Chapter 32 - Veterans Educational Assistance Program (VEAP)** - members who initially entered service after Dec. 31, 1976.

**Chapter 35 - Survivor and Dependents** - sons, daughters, spouses and surviving spouses of veterans who died in service, as a result of a service-connected disability or became permanently and totally disabled.

**Chapter 1606 - Selected Reserve Program** - members of the selected reserve who are certified by their unit commander and the VA.

A veterans representative is located in the enrollment services office on each campus and at the Martin Center for College Services to provide forms and information pertaining to educational assistance for veterans. The following action must be taken once the veteran student has been admitted to the College.

1. Complete the necessary applications at the enrollment services office on any campus.
2. Provide copies of all DD214’s if applicable.
3. Provide a copy of marriage licenses, birth certificates and divorce decrees, if applicable.
4. Provide a certificate of eligibility from VA, if available.

Inquiries relating to benefits should be directed to the VA agency that is providing the benefits. Once students have been certified, they are required to notify the campus enrollment services office each time they make a change in enrollment.

Certification Restrictions

The College’s veterans affairs office will audit all courses enrolled for students who are eligible to receive benefits. There are restrictions as to the programs and courses for which students will be certified.

1. Students may only be certified for programs, courses and terms approved by the state approving agency.
2. The declared program of study must be the same on both the College’s record and the student’s official Veteran Affairs file. Students must follow the program of study outlined in their graduation status sheet and can only be certified for courses which are required for graduation.
3. Students cannot be certified for an audit course, a course for which they have previously received credit or the repeat of an “I” grade within one year.
4. Non-punitive grades will be reported to the Department of Veterans Affairs and will affect the previously submitted certification within a given term.
5. Veteran students must achieve satisfactory academic progress in order to continue to be certified. Unsatisfactory progress must be addressed with an academic counselor before certification can be resumed. Minimum standards of progress are the same as for the general student population. See previous section on “Standards for Student Success.”
Attendance Policy

Vocational veterans are allowed two days of unexcused absences per class per calendar month. Excused absences are those occurring for the reasons cited hereafter and officially accepted by the director of student aid.

1. Personal Illness - Must be supported by a physician’s signed statement on letterhead stationery, specifying the dates the student was incapable of attending classes.
2. Death in Family - Pertains to death of a parent, spouse, children, brothers or sisters only. Must be supported by valid evidence that indicates date of death and relationship of deceased person to the veteran.
3. Jury Duty - Must be supported by a document from the court showing dates of jury service.

Documentation of excused absences must be submitted no later than the 10th calendar day of the month following the month in which the absences occurred. All unexcused absences are reported to the Veterans Administration. Partial days of absence are converted to full days. Veterans reported for failure to attend class for two consecutive weeks will be contacted by the college veterans affairs office. Without a satisfactory explanation and immediate resumption of attendance, veterans will be reported to the VA as having terminated attendance in that course as of the beginning date of the two-week period of absence. Individuals reported for excessive absence will be eligible for recertification at the beginning of the following term providing other enrollment criteria are met.

Deferment and Short-Term Loans

Short-term loans are available to students with documented need and ability to repay. Students must have no other source of funds with which to meet temporary costs of education. One deferment of tuition charges per year is available for veteran students who qualify. The VA deferment and short-term loan due date is determined as follows:

1. If the term is at least 60 calendar days in length, the obligation must be cleared no later than 60 calendar days from the beginning date of the term.
2. If the term is less than 60 calendar days, the obligation must be cleared no later than 10 calendar days from the end of the term.

NOTE: If the date falls on a Saturday, Sunday or holiday, it may be paid the next work day.

Community and Co-curricular Activities

The community and co-curricular activities program is designed to offer opportunities for the social and cultural development of students as well as for college staff and the community. Information about the program is published in the student activities calendar and the student activities newsletter.

Some of the programs offered each year include:
1. FCCJ Artist Series - a wide range of professional events in the areas of musical theatre, pop, drama and dance,
2. film series - includes many film classics and a variety of contemporary and popular film selections,
3. art exhibits - include continuous student art exhibits in the fine arts area at the South Campus as well as numerous guest exhibits, and
4. special events - include a variety of Collegewide events such as the talent/variety show, the Christmas dance, the spring dance and the Miss FCCJ Scholarship Pageant. In addition, numerous on-campus events are held each term, such as vaudeville acts, magicians, and chess and billiard exhibitions.

Performing Organizations

These organizations offer college credit or have emerged from college credit courses. A wide variety of quality educational offerings provide diverse activities that enrich individual students and the college at large, and contribute to the community. Included among these organizations are the FCCJ Chorale, FCCJ Players (drama), the FCCJ Jazz Band and the FCCJ Symphonic Band.

Student Government Association

Each campus has a Student Government Association (SGA) which is recognized as the official student organization representing students at the College. Each campus SGA is charged with the responsibility of participating in the College’s governing process through the student, faculty and administrative campus councils. Each campus SGA also participates in the SGA executive board, thus coordinating the Collegewide needs of students. Each campus SGA is a member of the statewide Florida Community College Student Government Association.

Campus Organizations

Numerous campus student organizations are available at FCCJ. Some of the organizations include Phi Theta Kappa, an organization which recognizes academic achievement; Forensic Team; literary and art magazine; Brain Bowl Team; and the International Student Association. Campus student activities offices provide assistance and encouragement to those interested in starting new organizations and support for existing organizations.

NOTE: The organization adviser, president and treasurer should contact the campus student activities office for complete information before any financial transactions are initiated or any membership dues are collected.

Intramural/Recreational Activities

Both group and individualized intramural/recreational activities are provided by the College. Activities include flag football, volleyball, badminton, basketball, archery, soccer, softball, tennis, bowling, table tennis, horseshoes, billiards and golf. Special discount passes to a variety of community recreational facilities, including bowling, golf, driving ranges, miniature golf and movies are also available at substantial savings from each campus student activities office.
Intercollegiate Athletics

A diverse program of intercollegiate athletics is available at the College. Basketball (men’s and women’s), golf (men’s), tennis (women’s) and volleyball (women’s) are sports activities based at the South Campus. North Campus is the location for baseball, softball and track and field (men’s and women’s).

Students may participate in the Collegewide intercollegiate athletic program regardless of the campus where they attend classes. Students interested in participation should contact the coach or the director of athletics and physical education.

FCCJ is a member of the Mid-Florida Conference of the Florida Community College Activities Association and the National Junior College Athletic Association.
Administrative Information for Students

Academic Freedom and Responsibility

In light ‘of the stated philosophy of Florida Community College at Jacksonville, we, the District Board of Trustees of Florida Community College at Jacksonville, recognize that faculty shall have academic freedom to promote learning in an educational environment free from unreasonable restraint.

A. As citizens of the United States, members of this academic community enjoy the same basic freedoms, rights and responsibilities as all other citizens of this nation.

B. As teachers, members of this academic community should experience those freedoms and exercise those responsibilities related to the educational process. In order for this to take place, teachers should be free to research, to publish findings in the spirit of free inquiry, and to exercise academic responsibility in the classroom in examining and discussing subjects in a spirit of freedom and with a sense of direction.

The administration shall ensure that academic freedom exists to provide a means by which academic due process, as distinguished from civil due process, may be implemented.

Due Process Procedures

These procedures contain regulations for dealing with alleged student violations of College standards of conduct in a manner consistent with the requirements of due process. It also contains descriptions of the standards of conduct to which students must adhere and the penalties which may be imposed for the violation of those standards.

Attendance at FCCJ is a privilege and in order to maintain the College ideals of scholarship, character and a commitment to excellence, the right is reserved by the College to establish rules and regulations to further these ideals which require student compliance for the welfare of the College community. These rules and regulations are found in Board Rule 6Hx7-11.1. It is the intent of the College that students understand that individual rights involve associated responsibilities and that individual rights must be viewed in relationship to the health, safety and welfare of the College community.

Students enrolled in any degree, diploma or certificate program are subject to federal and state laws, respective county and city ordinances and all rules and regulations of the College.

Religious Observances

The College shall reasonably accommodate the religious observances, practices and beliefs of individual students in regard to admissions, class attendance and the scheduling of examinations and work assignments.

Students who have a concern regarding the College’s implementation and/or interpretation of this rule shall have the right to formalize that concern through the general student appeal process.

Procedure

1. It is the responsibility of students to notify instructors in writing in advance of absences to observe religious holy days in their own faith. Upon such reasonable notification, such absences shall be excused without penalty.

2. Students shall be responsible for material covered during the period of observance and shall be provided a reasonable time to complete make up assignments.

3. The College and its faculty, as appropriate, shall schedule major class assignments, major examinations and official ceremonies on other than major religious holy days whenever possible.

Student Academic Dishonesty Procedure

Academic dishonesty is considered a serious offense and is expressly prohibited. THIS POLICY INCLUDES ALL COURSE ASSESSMENT, RELATED ASSIGNMENTS AND ALL STANDARDIZED TESTS (e.g. CPT, CLAST, CAT). Such dishonesty includes:

1. cheating, which is defined as the giving or taking of any information or material with the intent of wrongfully aiding oneself or another in academic work considered in the determination of a course grade or the outcome of a standardized assessment,

2. plagiarism, which is defined as the act of stealing or passing off as one’s own work the words, ideas or conclusions of another as if the work submitted were the product of one’s own thinking rather than an idea or product derived from another source, or

3. any other form of inappropriate behavior which may include but is not limited to falsifying records or data, lying, unauthorized copying, tampering, abusing or otherwise unethically using computer or other stored information, and any other act or misconduct which may reasonably be deemed to be a part of this heading.

Any student alleged to have committed any act of academic dishonesty as defined herein, shall be entitled to due process as defined in District Board of Trustees Rule 6Hx7-2.18, prior to the administration of disciplinary action including suspension and dismissal.

Student Discipline Procedures

Violations of published laws, ordinances or rules and regulations may subject violators to appropriate disciplinary action by the College authorities.

Prior to any disciplinary actions taken, students are entitled to procedural due process. This means that students shall be provided:

1. reasonable notice of the charges,

2. a general time frame for resolution, and

3. an opportunity to present their side of the controversy.

Disciplinary action, unless otherwise provided by law, may include fines, the withholding of diplomas, certificates
or transcripts (pending compliance with rules or payment of fines), restitution, warning, and/or the imposition of probation, suspension or permanent dismissal.

The College President, vice president, campus president or an appropriate designated College officer may without a hearing temporarily order the removal from College property of individuals charged with a suspendible offense that is deemed to present a clear and present danger to the welfare of the College. Students ordered removed will be required to remain off College property until a hearing is provided regarding the matter. In the event of the temporary removal, a written notice of a hearing to be held within 10 days of the date of the letter will be mailed (certified mail, return upon receipt requested) to the individual.

The following violations of the code of conduct are outlined in the District Board of Trustees Rules.

- Any act or behavior on the part of the student which tends to interfere with or otherwise disturb the orderly conduct, processes, functions and/or interests of the College is expressly prohibited.
- Such acts or behavior may include but are not limited to consumption of alcoholic beverages on campus or at a College function, illegal use or possession of drugs or narcotics, cheating in any form, sexual harassment, the use of indecent or abusive language, gambling, hazing as defined in Chapter 240.326, Florida Statutes, vandalism or destruction of property, falsification of records or statements to the College, unauthorized use of the College name, lewd or indecent conduct, violence against any member or guest of the College community, theft or willful destruction of College property or of the property of members of the College, interference with the freedom of movement of any member or guest of the College, obstruction of the normal processes and activities of the College community, deliberate interference with the rights of others, violation of a federal or state law, a county or city ordinance, repeated offenses of a less serious nature or any other offense reasonably deemed to be contrary to the best interest of the College.

All alleged student violations of the Board of Trustees Rules of the College are referred to the office of the campus student affairs dean. Any administrator, faculty member, guest of the College, law enforcement official or student may allege a violation against any student.

The student affairs deans on each campus will represent the associate vice president of student affairs in matters of student rights and responsibilities to ensure fair treatment of students, adherence to principles of due process and the timely resolution of all matters.

Guidelines for procedural due process are available in the campus dean of student affairs office. Students who have questions or are in need of assistance should contact the student affairs dean on their respective campus.

Student Appeals

Every reasonable attempt should be made to informally resolve any dispute between students and the College at the level at which the dispute arises. Recognizing that such matters cannot always be resolved informally, FCCJ provides a formal process through which students can appeal the application of certain College rules and regulations and the assignment of final grades. In all cases, it is the intent of the College to assure the fair and equitable treatment of students.

Students wishing to initiate a formal appeal should contact the campus dean of student affairs office. That office will provide the information and guidance necessary to initiate a student appeal.

Suspension, Termination or Cancellation of Enrollment

The College reserves the right to suspend, terminate or retroactively cancel the enrollment of students for disciplinary reasons.

Grievance Procedures

Grievance procedures are provided for students who believe that they have been unlawfully discriminated against, unfairly treated or sexually harassed.

NOTE: Appeals handled through the student appeals process are excluded from the grievance process.

Procedures

Such grievances shall be handled as follows.

1. Complaints against College employees shall first be directed to the employee alleged to have caused the complaint within six months following the alleged incident. In the case of alleged sexual harassment, students shall first discuss the complaint with the campus dean of student affairs. (If appropriate, the dean may designate another individual to discuss the matter with students.)

2. If the complaint cannot be resolved informally, then students shall present a formal grievance in writing to the campus dean of student affairs. This shall be done within 15 working days following verbal response from the College staff involved.

3. The campus dean of student affairs shall conduct a preliminary investigation and resolve the concern, if possible. If the charge is of a serious nature, the campus dean of student affairs will discuss the charge with the campus president and, if appropriate, the College counselor. Depending on the nature of the charge, the campus president will, after consultation with College counselor and the associate director of human resources, establish a process for resolving the issue. Care will be taken to guarantee that the matter is resolved equitably and that the due process rights of those involved are protected.

4. The recommendation resulting from the review process shall be submitted to the College President, who will render a final decision in a timely manner.

Policy Statement for Children on Campus

To assist in maintaining the appropriate environment conducive to learning and to protect minors from injury, no children under age 16 will be allowed in instructional areas and no unsupervised children in non-instructional areas during scheduled classes or while testing except during College approved events.
Parents and/or guardians are expected to assist FCCJ in maintaining a normal college environment that is conducive to learning. While visiting campus on short-term business, children should not be left unattended.

Every attempt should be made to arrange for appropriate child care at the FCCJ child development centers or private child care sources off campus.

**Sexual Assault Policy**

Sexual assault (rape) is a serious crime which has a major impact on the campus community as well as on the students who are victimized. Florida Community College at Jacksonville will not tolerate sexual assault in any form, including date and acquaintance sexual assault. Should probable cause be determined that campus regulations prohibiting sexual assault have been violated, disciplinary action will be pursued through the code of student conduct or other appropriate internal processes. Discipline may result in suspension or dismissal from the College.

Any student or employee reporting a sexual assault will be treated with respect and sensitivity. Contacts and conversations which transpire pursuant to this procedure will be held in confidence.

Student(s) charged with sexual assault can be prosecuted under the Florida Criminal Statutes and/or discipline by the code of student conduct. A decision by the criminal justice authorities not to prosecute does not preclude the College from pursuing disciplinary action.

Reporting and action taken by the College for sexual assault against a student or an employee will be limited to incidents occurring on College property or facilities, or at a College-sponsored function.

The College is responsible for the training of security and other designated staff concerning the initial contact and processing of a reported sexual assault.

Employees and students found in violation of these policies will be subject to disciplinary action, up to and including termination, in accordance with FCCJ Board Rule 6Hx7-2.1.

**Definitions**

Sexual Assault - commonly referred to as rape, is one of the most reported of all major crimes. The legal definitions differ from state to state; however, Florida defines sexual battery as the following:

“Oral, anal or vaginal penetration by union with a sexual organ of another or the anal or vaginal penetration by another by any other object: however, sexual battery does not include an act done for a bona fide medical purpose.” Section 794.001(h) Florida Statutes.

Stranger Rape - the sexual assault of an individual by someone the victim does not know.

Date or Acquaintance Rape - the sexual assault of an individual by someone the victim knows, usually an acquaintance or a date. Date rape is the most common type of rape occurring on college or university campuses but the least frequently reported.

Group/Gang Rape - the sexual assault of an individual by multiple perpetrators. The Florida legislature has decreed that an act of sexual battery when committed by more than one person, presents a greater danger to the public and is extremely offensive to society. Accordingly, it has enhanced the penalties for acts of sexual battery when committed by multiple perpetrators. Florida Statutes 794.023.

**Complaint Procedures**

Individuals who believe they have been sexually assaulted and wish further information or assistance may contact the campus staff member designated to assist with sexual assaults. Any person wishing to file a complaint may contact a campus security office.

- **Downtown Campus** - 633-8390
- **Kent Campus** - 381-3688
- **North Campus** - 766-6608/6609
- **South Campus** - 646-2357

All reported cases will be referred to the crime prevention coordinator.

- **Crime Prevention Coordinator**
  - **North Campus**, Room A-145
  - **Telephone**: 766-6659

This office will discuss the matter with the student and make referrals as appropriate. The person reporting the incident may request to be kept anonymous. A report will be completed and forwarded to the director of equal access/equal opportunity. Situations requiring immediate administrative support will be referred to the campus dean of student affairs.

- **Assistant to the President for Equal Access/Equal Opportunity**
  - **Donald T. Martin Center for College Services**, Room 249
  - **Telephone**: 632-3221

This office will review all reports and direct the action to be taken by the appropriate office.

All student referrals will be directed to the campus dean of student affairs. Employee complaints will be referred to the director of human resources.

- **Director of Human Resources**
  - **Donald T. Martin Center for College Services**, Room 249
  - **Telephone**: 632-3254

- **Campus Dean of Student Affairs**
  - **Downtown Campus**, Room 1097
  - **Telephone**: 632-8250

- **Campus Dean of Student Affairs**
  - **Kent Campus**, Room B-100
  - **Telephone**: 381-3443

- **Campus Dean of Student Affairs**
  - **North Campus**, Room E-132
  - **Telephone**: 766-6763

- **Campus Dean of Student Affairs**
  - **South Campus**, Room U-131
  - **Telephone**: 646-2009
Sexual Harassment Policy

Sexual harassment as defined in District Board of Trustees Rule 6Hx7-1.3, Definitions, is hereby deemed to be discrimination on the basis of sex and is expressly prohibited by this rule. This prohibition shall apply to every facet of the College’s operation including but not limited to employment and student environments, which include peer harassment. Any violation hereof shall result in disciplinary action, as appropriate.

Definition - 6Hx7-1.3 Definitions - 1.3

Sexual harassment is defined as any unwelcome sexual advance, request for sexual favor, or other verbal, non-verbal or physical conduct of a sexual nature, whenever:
1. submission of such conduct is made either explicitly or implicitly a term or condition of an individual’s employment or course progress,
2. submission to or rejection of such conduct is used as the basis for employment or course decisions affecting that individual, or
3. such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or educational experience, or creates an intimidating, hostile or offensive work or educational environment.

Peer sexual harassment is defined as sexual harassment of a student or students by another student or group of students which creates a hostile environment.

Complaint Procedures

Individuals who feel that they have been sexually harassed under the above definition and wish further information or assistance in filing a complaint, may contact:

Student Records and Privacy

Pursuant to Public Law 93-380, the Family Educational Rights and Privacy Act of 1974, students and their parents are advised of certain practices and procedures at Florida Community College at Jacksonville which relate to student records.

Once students reach the age of 18 or are enrolled in a postsecondary program, parents no longer have any rights to student information under this act unless students give written consent to release the information to their parents or the parents provide evidence that students are dependents of the parents as defined in section 152 of the Internal Revenue Code of 1954.

Under this act, students or parents (if eligible) will be accorded access to students’ records within a reasonable time after the submission of a written request to the custodian of that record. Suitable arrangements will be made by the College to permit records to be reviewed in the presence of a representative of the custodian of records. Either students or parents (if eligible) have the right to challenge the content of any record they believe to be inaccurate, misleading or in violation of their rights or otherwise inappropriate and to insert into the record any written explanation of any matter therein. The custodian of the records challenged shall conduct a hearing upon the matter at a reasonable time and place at which time students or parents (if eligible) may present any evidence they may have in support of the challenge. If a record is challenged, the custodian of the record shall make a decision at the conclusion of the hearing. This decision may be appealed by students or parents (if eligible) through established procedures to the student appeals review committee. Action by the College President on an appeal is final.

Students or parents (if eligible) must consent to the release of any student information other than directory information to any person or agency. This consent must be in writing, signed, dated and must specify the information to be released, the reason for release and the names of individuals to whom the information is to be released.

The following records are maintained in students’ files: application for admission, transcripts from other colleges, academic history records and general correspondence.

The following information about individual students is classified as “directory information” and will be released upon request to any person. Individual students or parents (if eligible) have a right to submit a request in writing to the custodian of student records that all or any part of the directory information NOT be released. The request to withhold directory information must be submitted annually.
1. name
2. address
3. major field of study
4. dates of attendance
5. degrees or awards received

General Information

Health Services

As a community-based institution, FCCJ relies on health services provided within the community for students. Various
health agencies are brought to each campus periodically to make their services available to students. Arrangements and coordination are handled by the student affairs offices and/or student activities offices. Substance abuse and AIDS information centers are located in each campus learning resources center.

AIDS Information

It is the policy of the College to maintain an appropriate balance between the rights of individuals with Acquired Immune Deficiency Syndrome (AIDS) to obtain an education with the rights of students and employees to an environment in which they are protected from contracting the disease. In order to assist Florida Community College at Jacksonville in responding to the medical, legal and ethical concerns raised by AIDS and/or AIDS-related issues, the College President has established procedures which address the education, safety and legal rights of students and employees.

The College will be flexible in its response to incidents of the disease, evaluating each occurrence in light of its general policy and the latest information available. A College environment committee shall meet on an as needed basis to:

1. determine whether students or employees with a communicable disease may pose an imminent risk to the College community and
2. determine what action is in the best interest of students or employees and the College.

All information obtained and reviewed by this committee will be treated as confidential.

FCCJ has designated counselors on each campus and the assistant dean of student affairs on the North Campus, to serve as AIDS counselors, available to the student body and employees on a request basis. These individuals can answer questions and serve as resource people regarding the disease. The student affairs office on each campus can arrange an appointment. For information call 766-6607.

Emergencies and First Aid

The campus security officer should be contacted in situations requiring the rendering of first aid. In the case of emergencies involving, students who have no physician on record, whose physician cannot be contacted or whose families do not reside in this area, students will be transported to the emergency room of a nearby hospital by private means of transportation of their choice or by the city rescue squad. Expenses incurred are the responsibility of students.

Accident Reporting

Any accident should be reported immediately to a security officer. Any driver of a vehicle involved in an accident resulting in injury or death to another, or property damage in any amount, must immediately notify a security officer who will contact the Jacksonville Sheriffs Office for investigation and an accident report.

Health and Accident Insurance

The College makes available a student health and accident policy which may be purchased on an optional basis. Information can be obtained at any campus student affairs office.

Housing

The College does not maintain housing facilities for students nor does it maintain a list of approved housing.

Parking

Faculty members, staff and students shall obtain valid parking decals which should be affixed to the motor vehicle which the individual operates, drives or parks on facilities of the College. Decals are available at each campus security office and in the Martin Center for College Services.

Bookstore

The College’s bookstores are operated by a commercial bookstore operator. Textbooks, supplementary material, supplies and other items are available through each campus bookstore. Requirements for courses in which the individuals are enrolled should be obtained prior to the purchase of books and supplies. Financial arrangements are matters between students and the bookstore.

Food Services

A food service area and vending machines are located at each campus.

Smoking

The College maintains a smoke-free environment. Smoking is permitted outdoors except where prohibited.

Substance Abuse

The College has long prided itself as a public institution whose mission is to foster human potential by providing an educational environment in which individuals may understand more clearly their relationship and responsibilities to family, community and society.

As a part of the shared values, the College recognizes its responsibility to build and maintain a caring environment which encourages all individuals to realize their potential and to provide the diverse learning support and growth opportunities individuals need to be successful.

FCCJ is committed to enhancing a positive campus environment through Collegewide educational programs for all students, faculty and staff which relate to alcohol and drug abuse and to the College’s alcohol/drug information centers. The College also seeks to ensure compliance with federal and state laws, and city ordinances.

The illegal use of harmful and addictive chemical substances poses a threat to the educational environment. Thus, in accordance with the Drug Free Schools and Communication Act Amendments of 1989, it is necessary to
inform the College community of the harmful and addictive potential associated with the use of drugs, the incompatibility of illegal drugs with the educational mission of FCCJ and the consequences of the use, possession, manufacture or sale of such drugs.

The FCCJ Board of Trustees Rules outline the accepted code of conduct for students and employees. This code of conduct prohibits:

1. any act or behavior on the part of students which tends to interfere with or otherwise disturb the orderly conduct, processes, functions and/or interests of the College, and
2. such acts or behaviors may include but are not limited to the consumption of alcoholic beverages on campus or at College functions, illegal use or possession of drugs or narcotics on campus or at College functions.

The College reserves the right to suspend, terminate or retroactively cancel the enrollment of students for disciplinary reasons. The College may also make referrals to legal authorities for appropriate action.

Information on the health risks of substance abuse and on criminal penalties is contained in information sent to students each year.

The department of student affairs can assist students with referral information to appropriate community resources in a confidential, professional manner. Counselors are available on all campuses to assist both day and evening students in obtaining information relating to referral to community agencies. All contacts related to substance abuse will be held in strict confidence.

Library and Audiovisual Services
(See Learning Resources Centers)

Distribution of Leaflets and Posters

Students who want to distribute any kind of printed matter, such as posters, leaflets or flyers among the student body on campus must secure approval in advance. The student activities office will provide to students lists of certain rules governing the distribution of printed matter. The purpose of these rules is to keep the campus attractive and free of litter.

All posters, banners, showcards, etc. must be approved by the student activities office. All materials will be placed in those areas specified.

Student Travel

Trip approval and travel requests may be obtained through the student activities offices on each campus.

Trips that interfere with students’ classroom responsibilities are discouraged.

A faculty adviser will accompany the group or organization on all approved trips.

Occupational Education Safety

Students enrolling in associate in science, associate in applied science or continuing education industrial education programs are required to supply their own personal protection safety equipment, hand tools and tool belt or box by the third week of class. Personal protective safety equipment should comply with applicable industrial standards and hand tools should be of an industrial grade.

At the beginning of each term, faculty will provide students with shop safety rules and a list of required personal protection safety equipment and hand tool requirements and their approximate costs. Obtaining required equipment and observing prescribed safety rules are mandatory for continued enrollment in industrial education programs.

Regulation Changes

The College reserves the right to change rules, regulations, policies and procedures at any time.
Instructional Support Services

Learning Resources Centers

A learning resources center (LRC), offering a full range of assistance to FCCJ students, faculty and staff in the learning process, is located on each of FCCJ’s four campuses. The wide variety of materials found in the LRCs consists of print, media and computer-based materials. These materials support the instructional programs found on the respective campuses as well as the research, enrichment and recreational needs of the students and faculty. Group instruction and individual assistance in library usage is provided by the professional library staff. Each center also provides equipment, media and media production services.

An on-line statewide library catalog provides access to the materials in the LRC. The LRCs are also equipped with on-line reference databases, conference rooms and microfilm and paper copiers. Hours of operation are posted and generally correspond with the campus hours of operation. Holiday, spring and summer term hours vary and are posted in the LRCs.

Learning Assistance Centers

Each campus has a fully staffed learning assistance center (LAC) for individualized instruction open for FCCJ student use on a drop-in basis. In these labs, students may pursue self-paced instruction through a variety of learning aids and may receive assistance from tutors in a number of subjects. Students may stop in during day or evening hours (hours are posted at each LAC) and consult a tutor, use the various learning aids and review for one or more of their courses.

In addition, practice tests and learning materials are available to assist students in assessing their readiness to take the College Level Academic Skills Test (CLAST) and preparing to increase their performance on this statewide test. Computers with a broad variety of arts and science tutorials and exercises are provided to assist students learning on an individualized or group basis.

Computer Laboratories

There is an open computer laboratory on each campus for use by FCCJ students enrolled in courses requiring computer-based assignments outside of class. These labs are heavily utilized by CIS/OST students. Computers in the learning assistance centers and the computer laboratories are heavily used by students daily from 7:30 a.m. - 1 p.m. The computers are used less in the mid-afternoon and evening hours.
Financial Information

College Credit Registration Fees

NOTE: Fees listed herein are subject to legislative budget constraints and, therefore, may be changed with approval of the District Board of Trustees. Current fees shall be posted at the time of any given registration.

At the time of this printing, college credit tuition is being reviewed by the District Board of Trustees. The anticipated fees per semester hour are:

- Florida residents .............................................. $44.30
- Non-Florida residents ................................. $168.00

Students enrolled in college preparatory instruction shall pay the same fees charged for college credit courses. Students enrolled in the same college preparatory class within a skill area more than one time shall pay fees at the non-Florida residents rate. Previous attempts made prior to Fall Term 1997 do not count.

Students enrolled in the same undergraduate college credit course more than two times shall pay course fees at the non-Florida residents rate. Previous attempts made prior to Fall Term 1997 do not count.

*Additional Course Fees

Computer laboratory fee per course
Science laboratory fee per course
Materials fee per course

Fine arts fee per course
- All applied music courses have an additional fee.
- All fine arts courses beginning with prefixes ART, PGY and MUM have an additional fee.

Professional malpractice and liability insurance risk coverage fees per course
- The risk coverage fee is non-refundable if students withdraw after the official close of the add/drop period for the term.

*SELECTED COURSES HAVE ADDITIONAL FEES. THE FEE WILL BE SPECIFIED AT THE TIME OF REGISTRATION.

STUDENTS MAY OBTAIN THIS INFORMATION FROM THE ENROLLMENT SERVICES OFFICE.

Miscellaneous Fee

Application Fee
- U.S. citizens .................................................. $25
- International students ............................... $80

This fee is a processing fee and is non-refundable. Payment for this fee remains in effect for one full year for U.S. citizens only.

College I.D. Cards (StarCard)

Students enrolling in courses on any FCCJ campus, the Urban Resource Center, Open Campus Deerwood Center, Geis Center for Marine and Industrial Technology, Betty P. Cook Nassau County Center or military base are required to have and carry FCCJ’s official I.D., the StarCard, while on College property. The one-time cost for the initial photo I.D. is $5 and $10 for replacement cards.

StarCard centers are located at each campus and Open Campus Deerwood Center. Hours of operation are posted at the center or may be obtained by calling 632-3164.

Late Registration Fee

Students who register for the first time in a term after all scheduled registration has ended will be assessed a $35 late registration fee.

Graduation Fees and Fees for Ceremonies Conducted for Special Programs

Graduation Fee
- Associate’s degree ........................................... $10
- Each additional associate’s degree ...................... $5

Fees for Ceremonies Conducted for Special Programs

The College President or official designee shall determine the items to be purchased by the College which will permit the conducting of ceremonies in accordance with established traditions for special programs, primarily in the health related education area. The charge to the student shall not exceed the cost of the items purchased for each student.

Replacement Diplomas

Each replacement diploma ................................. $5

Returned Check Fee

Checks returned by the bank .............................. $15

This fee will not be assessed if the bank certifies that the check was returned due to bank error. Unless the returned check and $15 service charge are paid in full on or before the prescribed deadline, students will be disenrolled from all classes affected by this returned check. Students who have been disenrolled from their classes can re-enroll through the late registration process and shall be charged the late registration fee. For one full calendar year, the College will not accept a check from these students.
Parking Fines

Parking violations may result in a fine. The fine imposed depends on the severity of the violation. The amount of the fine is shown on the reverse side of the citation. Failure to pay the parking violation within 10 College business days shall result in a late payment charge. Individuals may appeal the citation. Appeal forms may be picked up at any security office.

Test and Examination Fees

College Level Academic Skills Test
(CLAST) examination ........................................... $30
(*This fee is only charged to non-FCCJ students.)

Proficiency Examination Program
(PEP) examination ............................................ $35

College Level Examination Program
(CLEP) examination ........................................... $43
administration .................................................. $7

DANTES Subject Standardized Test
(SST) examination ............................................. $27
administration .................................................. $7

Health Occupations Aptitude Examination
(PSB) examination ............................................. $10
administration .................................................. $6

Employee Reimbursement

FCCJ full-time employees and their dependents and permanent part-time employees may be reimbursed for courses taken at FCCJ. Employees or dependents must pay their own fees at registration. However, upon proof of satisfactory completion of coursework, employees and their dependents will be reimbursed 100 percent of registration fees. Employees that register late are required to pay the late registration fee. For purposes of this reimbursement, dependents are defined as a spouse or dependent child who is under the age of 22 and living at home.

As an alternative, full-time and permanent part-time employees may execute a payroll deduction authorization form and provide related course completion information as required.

Fee Refunds

College Credit Courses

Requirements

Refunds for cancelled classes will be processed automatically on a timely basis by the finance department.

Students who wish to drop a class to receive a refund or to clear their financial debt must report to the campus enrollment services office no later than the final drop day.

Final Drop Day

Final drop day is the last day upon which students may drop a course and be eligible for a full refund of fees paid for that course. Courses officially dropped will be removed from the students’ records. The final drop day will be scheduled so that all students have an opportunity to drop a course on or after the first scheduled class meeting. Refer to the College calendar for this deadline date for dropping courses each term.

If the College cancels a class at any time prior to its completion, students’ enrollment in that class will be cancelled, and they will be entitled to a 100 percent refund of fees paid for that class, less any indebtedness to the College. The College will notify students and the College will initiate the refund process.

Amounts and Conditions of Refunds or Credit Memoranda

No refund will be made for a fee of less than $5, unless the College cancels the class.

If a veteran’s deferment is authorized and the College cancels the class(es), the deferment will be reduced by the amount of the cancelled class(es) for students.

Amounts due the College will be deducted before any check or credit memorandum to the credit card account is issued.

Payment Dates

Refund checks or credit memoranda to credit card accounts will be made in accordance with the schedule established by the college, generally two weeks following the last official drop date.

Students paying part of their tuition with cash/check and part by charge card will receive a credit memorandum to their credit card account.

Drop Deadline - Other Registration

Some classes begin after scheduled registration is over. Registration for these classes is usually held at the first class meeting. The deadline to drop and receive a refund for these classes will be five working days after the first class meeting. If the class meets less than five days, the drop deadline is before the last class ends.

Schedule for Payment of Fees

In order for registration to be complete, fees must be paid by the payment deadline.

Fees may be paid by cash, check (subject to being honored by the bank on which drawn), credit card account (currently Mastercard, VISA, Discover) or financial aid authorization. Only deferments of fees authorized by the District Board of Trustees Board Rule for deferred payment status will be honored.
Credit Card Accounts

The College is authorized to honor credit card accounts (currently Mastercard, VISA, Discover) under the following conditions.

Card holders may authorize use of their credit card over the telephone or through the Touchtone registration process.

The total amount to be paid at one time must be charged to the credit card account.

Payments made by mail through use of the credit card must contain the credit card account number, expiration date, amount charged and the signature of the card holder as well as the student’s name, Social Security number and identification of the College invoice.

Any refund due the holder, after deducting obligations due the College, will be made by credit memorandum to the card holder’s credit card account.

Payments of Student Accounts Due the College

FCCJ’s District Board of Trustees prohibits the registration of, release of transcripts to, or the issuance of a certificate of completion or diploma to students whose accounts with the College are delinquent.

Payment should be brought into the business affairs office at any campus or mailed to: Finance Office, Martin Center for College Services, Florida Community College at Jacksonville, 501 W. State St., Jacksonville, FL 32202.

Students are responsible for ensuring that payment is made.

Students who fail to pay these short term loans, veterans deferment or other debt by the date established by the College may be disenrolled or turned over to a collection agency and, as stated above, will not be able to register or receive transcripts.

Agency Sponsored Payments

In instances in which a sponsoring agency or organization has agreed in writing to reimburse FCCJ for the registration fees and/or books for students, these students are responsible for bringing a copy of the authorization to any campus student aid office. Once the student aid office has entered the authorization into the computer, students must report to registration and have the authorization pay for their fees. If the sponsoring agency does not render payment to the College in the prescribed manner, the sponsored students will be liable for any charges incurred on their behalf and will be billed by the College. Students will be required to render payment within 10 days of the billing date.

Continuing Education Registration Fees

NOTE: Fees listed herein are subject to legislative budget constraints or as otherwise deemed appropriate by the College. Current fees shall be posted at the time of any given registration.

Fees charged for non-credit adult and occupational education courses range from approximately 85 cents to $2.82 per total class contact hour. In most instances, fees for non-Florida residents are triple those of Florida residents and are in addition to matriculation fees. Fees for most avocational and recreational courses are $1.75 per contact hour. In addition, some courses may be assessed a materials fee. For actual course fees, check the current term’s continuing education class schedule.

*Additional Course Fees
Materials fee per course
Computer laboratory fee per course

Professional malpractice and liability insurance risk coverage fees per course

The risk coverage fee is non-refundable if students withdraw after the official close of the drop/add period for the term.

*SELECTED COURSES HAVE ADDITIONAL FEES. THE FEE WILL BE SPECIFIED AT THE TIME OF REGISTRATION.

STUDENTS MAY OBTAIN THIS INFORMATION FROM THE ENROLLMENT SERVICES OFFICE.

Miscellaneous Fees

College I.D. Cards (StarCard)

Students enrolling in courses on any FCCJ campus, the Urban Resource Center, Open Campus Deerwood Center, Geis Center for Marine and Industrial Technology, Betty P. Cook Nassau County Center or military base are required to have and carry FCCJ’s official I.D., the StarCard, while on College property. StarCards are optional for students enrolling in non-credit courses of 12 or less contact hours. The one-time cost for the initial photo I.D. is $5 and $10 for replacement cards.

StarCard centers are located at each campus and the Open Campus Deerwood Center. Hours of operation are posted at the center.
Test and Examination Fees

General Education Development Test (GED)
   (High School Equivalency)
   Test 1 .......................................................... $8
   Tests 2 through 5 (each) .................................. $7
   Total Battery ................................................ $35
   (Fees established by the State Department of Education. These fees are non-refundable.)

Validation of GED scores from out-of-state, United States Armed Forces Institute (USAFI) or DANTES
   (includes diploma if entitled) ......................... $5

Test fees will be waived for students enrolled in a high school course for credit if students wish to take the test for that particular course.
   Test fees are to be paid at time of making application for the test. Test fees are non-refundable.

Fees for Ceremonies Conducted for Special Programs

The College President or official designee shall determine the items to be purchased by the College which will permit the conducting of ceremonies in accordance with established traditions for special programs, primarily in the health-related education area. The charge to students shall not exceed the cost of the items purchased for students.

Waiver of Tuition

No tuition fees are assessed for the following programs:
   1. Adult basic education (ABE) or
   2. FCCJ degree-seeking diploma students in high school credit courses.

Returned Check Fee

Checks returned by the bank .................................. $15
   This fee will not be assessed if bank certifies that the check was returned due to bank error. Unless the returned check and $15 service charge are paid in full on or before the prescribed deadline, students will be disenrolled from all classes affected by this returned check. For one full calendar year, the College will not accept a check from these students.

Parking Fines

Parking violations may result in a fine. The fine imposed depends on the severity of the violation. The amount of the fine is shown on the reverse side of the citation. Failure to pay the parking violation within 10 College business days shall result in a late payment charge. Individuals may appeal the citation. Appeal forms may be picked up at any security office.

Employee Reimbursement

FCCJ full-time employees and their dependents and permanent part-time employees may be reimbursed for courses taken at FCCJ. Employees or dependents must pay their own fees at registration. However, upon proof of satisfactory completion of coursework, employees and their dependents will be reimbursed 100 percent of registration fees. For purposes of this reimbursement, dependents are defined as a spouse or dependent child who is under the age of 22 and living at home.

As an alternative, full-time and permanent part-time employees may execute a payroll deduction authorization form and provide related course completion information as required.

Schedule for Payment of Fees

Continuing Education Classes

In order for registration to be complete, fees must be paid at the time of registration.

Fee Refunds, Continuing Education Courses

Seminars and Workshops

As published in the announcement, workshops or seminars which require special arrangements may provide no refund of fees if participants cancel after the time specified in the announcement.

General Requirements

Students who wish to drop a class to receive a refund or clear their financial aid must report to the campus enrollment services office and complete a drop card no later than five business days after the beginning date of class or the date shown on the registration receipt, whichever is later. No refund of fees will be made on classes for which the fee is less than $5, unless the College cancels the class.

If a veterans deferment is authorized and the College cancels the class(es) or the registration of students is cancelled, the deferment will be reduced by the amount of the cancelled class(es) for students.

Amounts due the College will be deducted before any check or credit memorandum to the credit card account is issued.

Cancellation of Classes

If the College cancels a class at any time prior to its completion, the students’ enrollment in that class will be cancelled and students will be entitled to a 100 percent refund of fees paid for that class.

If the College cancels the class or the students’ registration, the College will initiate the refund without written application by the students.

Refund Payment Dates

Refund checks or credit memoranda to credit card accounts will be made in accordance with the schedule established by the College.

Students paying part of their tuition with cash/check and part by credit card will receive a credit memorandum to their credit card account.
Suspension, Termination or Cancellation of Enrollment

The College reserves the right to suspend, terminate or retroactively cancel the enrollment of any student for either of the following reasons:
1. disciplinary reasons or
2. non-payment of course fees when payment is due, including non-payment resulting from dishonored checks or charge cards.

Agency Sponsored Payments

In instances in which a sponsoring agency or organization has agreed in writing to reimburse FCCJ for the registration fees and/or books for students, students are responsible for bringing a copy of the authorization to any campus student aid office. Once the student aid office has entered the authorization into the computer, students must report to registration and have the authorization pay for their fees. If the sponsoring agency does not render payment to the College in the prescribed manner, the sponsored students will be liable for any charges incurred on their behalf and will be billed by the College. Students will be required to render payment within 10 days of the billing date.
