

A.A. Transfer Roadmap: Health Science (Public Health)

How to Use This Roadmap

Use this roadmap to guide your progress and keep you moving toward graduation.

- ✓ **Meet with your advisor each term** to monitor your progress, review requirements (including foreign language), and address concerns early.
- ✓ **Review course requirements before registering** to ensure you meet all requirements and stay on track for graduation.
- ✓ **Maintain your eligibility** by meeting GPA and course completion requirements.
- ✓ **Stay on schedule** to avoid delays and excess credit hours that may not be covered by financial aid.

About the Program

The Associate in Arts (A.A.) degree is specifically intended to meet the requirements of students interested in transferring to one of Florida's many public colleges or universities or continuing to pursue a four-year bachelor's degree at FSCJ. The program aligns general education and elective coursework with common prerequisite requirements for upper-division study and is intended to support a smooth transition into a related bachelor's degree.

This transfer pathway has been mapped to **UNF's program in Health Science with a concentration in Public Health**. Other colleges and universities also offer Health Science and Public Health programs. Please review the catalog of your college/university of interest to learn about any prerequisites for program admission.

Students who have not met the **foreign language requirement** must complete a sequence of two college-credit courses in the same foreign language. These courses may be applied toward elective credit.

This transfer major roadmap requires a **minimum of 62 credit hours**, including general education and elective coursework. **General education courses** are completed across five liberal arts discipline areas, with specific course requirements outlined on the A.A. program catalog page. **Elective coursework** is selected based on the intended transfer major and may include prerequisite courses required by transfer institutions.

Total credit hours and course selections may vary based on a student's transfer institution and academic plan. Students are strongly encouraged to consult an advisor to ensure appropriate course selection and timely progress toward transfer. Course availability and term offerings are subject to change. Refer to the course schedule for current offerings.
