

# Ready to Learn. Prepared to Succeed.

## Starting classes doesn't have to be stressful!

FSCJ has created a simple and convenient way to ensure you are ready for class on day one.

We've partnered with Follett to bring you FSCJ ACCESS, which connects students to the required digital learning materials that you would normally purchase through the College bookstore before the class even begins.

## Through FSCJ ACCESS,

the price of required digital learning materials for a select group of classes will be included with the price of tuition. It simplifies the process and as an additional benefit, you will see substantial cost savings for digital course materials when compared to the national retail costs for the same products.

**FSCJ ACCESS enrollment is automatic when you register for any of the participating classes.**
