## Travel

Students accepted into the program are required to travel a minimum of up to 2 hours from Jacksonville to complete the clinical education for the program. The cost of travel to clinical sites is the responsibility of the student. If a student chooses to stay overnight near the clinical facility, the housing costs are the responsibility of the student.

Clinical facilities are open at varying times during the day. Thus, students need to be flexible as start and end times vary. In addition, this may mean being in the clinical site early in the morning or in the evening.
