My Academic Requirements

This report last generated on 02/08/2018 12:44 p.m.

*** Important Program Notes***

These Academic Requirements reflect the type of Career, Academic Program, and specific Academic Plan you are enrolled in as your primary plan at this time. Specific academic requirements are in effect based on the Plan and the Requirement Term. You have five years to complete all coursework under the terms of the Catalog in which you are assigned. If you do not graduate within the five years, you will be required to complete the degree under the catalog in effect, which may impact your requirements for graduation. For additional information, please see the College Catalog. Changes to requirements as mandated by law or by rule of the District Board of Trustees may supersede this provision.

This Report displays your progress toward completion and graduation; it is not an official document. Florida State College at Jacksonville recommends that you review your progress regularly with an advisor and reminds you that it is your responsibility to ensure all requirements noted below have been satisfied in order to graduate. If any of your courses are repeated courses, your GPA will not be accurate during enrollment in that course, only once the final grade posts. Additionally, student records holds need to be resolved prior to graduation. (RG8062)
