Purpose

The purpose of this procedure is to identify the guidelines by which the College may provide institutional support services and/or funds to selected community agencies and regional or national associations.

Procedure

- A. Florida State College at Jacksonville, as a community-based institution, may provide selected institutional support services and/or funds to advance selected community agencies and/or national and regional associations which are connected to college programs or to higher education and for which an employee of the College maintains an approved and active participatory role. The College may also buy a table at an event of organization or donate (including a sponsorship) to an organization for the betterment of the community in which the College serves. Such support services and/or funds may be provided solely from unrestricted funds of the College.
- B. The College shall provide support, in the terms of utilizing College fiscal and facility resources, only when specifically justified and approved in advance by the College President. This support is exclusive of funding for travel and professional development associated with agencies and associations which is handled as a component of the budget process. Support and/or funding for activities not associated with professional development activities shall be paid solely from unrestricted funds derived from the auxiliary or its Direct Support Organizations.
