

Greetings Summer Term Students,

Please let me take a moment to welcome you to our non-traditional FSCJ Summer 2020 Term and apologize for any of the angst you may have recently felt because of the distance learning fee that was placed on your account. Since we made the difficult decision to move our Summer A & B Term classes online due to COVID-19, we have been diligently looking for a creative solution to remove the distance learning fee for those impacted.

As of today, we have discovered a way to remove the fee for those classes that were originally in-person or hybrid and changed to an online format.

If you are registered for classes in our A or B session and have already paid this fee, your account will soon be reimbursed. If you are registered for our B session and have not paid, we are looking to have that removed prior to the May 12 deadline for payment.

As a reminder, FSCJ offers online academic support through [tutoring](#) and library services as well as online [advising](#) to assist you with your class schedule or academic plan. Our Advisors can also assist you with other resources that are available to help get you through these hard times. A full list of resources for online students this summer can be found [here](#).

We truly want you to be successful at FSCJ and we hope that removing this fee offers you some confidence in FSCJ and our dedication to helping you succeed during this time. Best of luck in your classes this summer.

Sincerely,
Dr. A.
College President
