

Greetings Students,

FSCJ truly values and supports your educational goals and experiences. Equally at the forefront of our minds, we strongly consider the safety of our students, faculty, and staff in each decision we make. This decision does just that. To ensure your health and wellbeing, we are moving Summer Term C session classes to an online format. A few exceptions will be made for those students in specific Associate in Science programs where students will return to campus to complete hands on learning that must be carried out on site. Students in these courses will be notified separately by the specific departments with their specific plans.

We apologize for any inconvenience this decision may cause in your educational pursuits, however, this decision allows FSCJ the opportunity to ensure your health and wellbeing while continuing to meet your educational needs remotely.

We know this change to your class/es might not be what you planned. We will work diligently to make the transition smooth, with many of these classes meeting online the same days and times that they were originally scheduled to meet on campus. Our faculty will support your studies through video conferences, interactive webinars, chat-based online discussions as well as live and pre-recorded lectures.

In addition, we want to be sure that each of you is aware that FSCJ is continuing to disburse federal stimulus funds to eligible students. Information on eligibility can be found on our [website](#). Please continue to check that site as new information is shared when it is available.

We want you to be successful at FSCJ, and we are here to help you. Please reach out to our online academic and student support services such as tutoring and library services, as well as online advising. Make an appointment with an Advisor to discuss your schedule or educational plan. It's easy. Call (904) 646-2300 or visit [fscj.edu/advising](https://www.fscj.edu/advising) to schedule your virtual appointment. Our Advisors can also assist you with other resources that are available to help get you through these challenging times. At FSCJ, we are a family, and we care about you. #FSCJCares.
