

Industrial Management Technology (Military) (2378) | A.S. Degree

PROGRAM DESCRIPTION

The Associate in Science (A.S.) in Industrial Management Technology degree prepares students for initial employment into entry-level supervisory/management positions. This program focuses on broad, transferable skills and stresses understanding and demonstration of the following elements of the Industrial Management industry: planning, management, finance, technical and product skills, effective communications, human motivation, strategies for effective management and creative thinking to achieve business objectives. Individuals with military, corporate or technical training completed through workforce certificate and apprenticeship programs at the College can receive 18 to 24 hours of articulated credit toward the professional electives area of this degree program.

Mission/Purpose

The mission of this program is to prepare students for mid-level management employment by providing meaningful learning and excellent teaching. This program presents opportunities for students with military/business experience to apply leadership and critical thinking skills that align with state of Florida frameworks.

FREQUENTLY ASKED QUESTIONS

What are the program completion requirements?

To earn an A.S. in Industrial Management Technology (Military), students must complete the following:

1. Fulfill all academic requirements for the chosen program of study as outlined in the Florida State College at Jacksonville catalog and curriculum.
2. Earn a cumulative grade point average of 2.0 ("C") at Florida State College at Jacksonville in courses eligible toward the Associate in Science degree programs, excluding developmental education courses. (A.S. Florida State College at Jacksonville GPA).
3. Earn an all-college cumulative grade point average of 2.0 ("C") on a 4.0 scale on all courses attempted. This includes Florida State College at Jacksonville college-credit hours and transferred credits (excluding developmental education) in lower division courses. (All college cumulative.)
4. Complete a minimum of 25 percent of the total hours required for the program in residence at Florida State College at Jacksonville. Credit by examination and credit by portfolio development do not count toward this residency requirement.
5. Complete the required credit hours, as specified by the degree, of which a minimum of 15 credit hours must be General Education requirements.
6. Earn a grade of a "C" or better in each course used to satisfy the General Education requirements and any other area designated with a "C" or better requirement.
7. Fulfill all obligations, financial or otherwise, to the College before they may graduate.
