GOALS/OBJECTIVES

To effectively demonstrate our mission in all that we do, we are committed to five (5) Fire Academy of the South goals:

1. Provide each student with talented, experienced, dedicated, and well-educated professional instructors that can inspire and motivate by utilizing their vast firefighting experiences.
2. Provide each student with the facilities and equipment to effectively and efficiently train him/her to safely serve and protect the public.
3. Provide each student with the knowledge, skills, and abilities to develop his/her teamwork and leadership skills that are essential for his/her firefighting profession.
4. Provide each student with meaningful instruction that is comprehensive and responsive to the diverse real-world situations.
5. Prepare each student for taking the Florida State Firefighter I and II certification examinations and for employment as a firefighter in the State of Florida.

Because firefighting is one of the most dynamic, dangerous, demanding, and stressful professions; firm rules and strict discipline are required for safety and will always be maintained.
