

About the Program

The Associate in Science (A.S.) Degree in Digital Media/ Multimedia Technology prepares students with a breadth of foundational knowledge of the digital media field and for success in a bachelor's degree in digital media. Graduates gain an understanding of the principles and tools used in graphic and print design, web design, imaging, photography, video and audio production, and social media. Portfolio development and resume building are also included.

This program requires a **minimum of 60 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program **is eligible** for financial aid.

Program Requirements

Students must fulfill all requirements outlined in the college catalog.

Students are required to complete 9 credit hours of ART or PGY prefix coursework. **Any ART or PGY prefix course** may be used to satisfy this requirement; however, students who plan to pursue FSCJ's B.A.S. Degree in Digital Media are recommended to select from the following courses:

- ART 1201C - Two Dimensional Design (Credit Hours: 3)
- ART 1300C - Drawing I (Credit Hours: 3)
- ART 1301C - Drawing II (Credit Hours: 3)
- ART 2203C - Three Dimensional Design (Credit Hours: 3)
- DIG 2105C - Web 2.0 and Social Media (Credit Hours: 3)
- DIG 2142C - Digital Capturing and Output (Credit Hours: 3)

Sample Roadmap

This sample roadmap shows one possible pathway to program completion and may not be appropriate for all students.

Prior to enrolling in classes, please **meet with an advisor** for specific guidance about your individual academic degree plan. Some courses are offered only once per year; advising is critical for course progression.

See the **program requirements for general education course options, professional elective and ART/PGY prefix course options.*

This program includes a **Mathematical Thinking in Context math pathway**. This pathway is intended for students in the broadest range of programs of study. In this pathway, students will explore a variety of mathematical concepts utilizing multiple ways of thinking to formulate and solve problems in context.
