

About the Program

The Associate in Science (A.S.) Degree in Histologic Technology prepares graduates for employment as entry-level clinical laboratory professionals. Histologic technology professionals play an integral role in preparing tissue specimens for the microscopic diagnosis of disease.

Note: If you are considering employment in a state other than Florida, please visit fscj.edu/academics/license-disclose to determine if this program will meet the selected state's educational requirements to sit for licensure or certification testing.

Program Requirements

This program requires a **minimum of 76 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program is **eligible** for financial aid.

This program includes an **Algebra Through Calculus math pathway**. This pathway is intended for students whose academic program requires a foundation of algebra, followed by a sequence of courses that may lead to calculus.

This program enables the graduate to sit for the ASCP Histotechnician (HT) certification exam. Students who pass the HT (ASCP) exam will be eligible for Florida licensure in histology through the Board of Clinical Laboratory Personnel, Department of Health at <https://floridasclinicalabs.gov/>.
