

About the Program

The Associate in Science (A.S.) Degree in Interior Design Technology educates, trains and develops students for diverse opportunities in the interior design field. Graduates qualify for entry-level positions with interior design studios, architectural firms, furniture and design showrooms, and other businesses specializing in interior furnishings.

Graduates of the A.S. in Interior Design Technology degree program fulfill the educational requirements needed for eligibility to take the National Council for Interior Design Qualification (NCIDQ) exam. Courses within the program may help students prepare to pursue optional certifications, including LEED Associate, Evidence-Based Design, Kitchen and Bath, and Certified Aging-in-Place Specialist.

For more information about this program, visit fscj.edu/2389.

Note: If you are considering employment in a state other than Florida, please visit fscj.edu/academics/license-disclose to determine if this program will meet the selected state's educational requirements to sit for licensure or certification testing.

Program Requirements

This program requires a **minimum of 75 credit hours**. Total program hours may vary based on the student's individual academic degree plan. This program is **eligible** for financial aid.
