

The Technical Certificate (T.C.) in Fire Officer Supervisor increases management skills for professionals employed as fire fighters.

This certificate prepares students for employment as firefighting and prevention supervisors to supervise fire fighters who control and extinguish fires, protect life and property, and conduct rescue efforts. The program is beneficial to professionals seeking career field enhancement.

**Note:** This program does not prepare students for certification as fire fighters and does not complete the requirements to be eligible to sit for Bureau of Fire Standards and Training (BFST) certification exams.

<input type="checkbox"/> Satisfy the technical certificate graduation requirements.

### Articulation

This certificate articulates directly into the Fire Science Technology (2911) (A.S.) degree. Contact an advisor to determine the career education path that is best for you.

### Important for You to Know

This academic roadmap does not include **developmental education courses** in reading, writing, and/or mathematics that you may be required to take. Students who place into developmental education courses are required to complete designated developmental education courses with a grade of C or higher regardless of program of study. In addition, it does not include **MAT 1033: Intermediate Algebra**, which, for many students, is a prerequisite course for MAC 1105.

### Advising

(904) 646-2298 or [robert.massicotte@fscj.edu](mailto:robert.massicotte@fscj.edu).

### Sample Roadmap

This roadmap provides general guidance about required courses. For specific guidance about your individual academic degree plan, please see an advisor. Also refer to the College Catalog and class schedules for additional information.
